THE COST IS THE SAME!

THE "HARTMAN" PATENT STEEL PICKET FENCE

Costs no more than an ordinary Wood Picket Fence that obstructs the view and will rot or fall apart in a short time. The "Hartman" Fence is artistic in design, protects the grounds without concealing them and is practically everlasting. It is the most popular fence made to-day, its sale exceeding that of all other patent fences combined. Illustrated Catalogue with Prices and Testimonials Mailed free.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

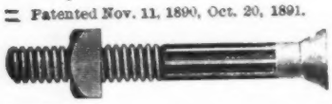
Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.



FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

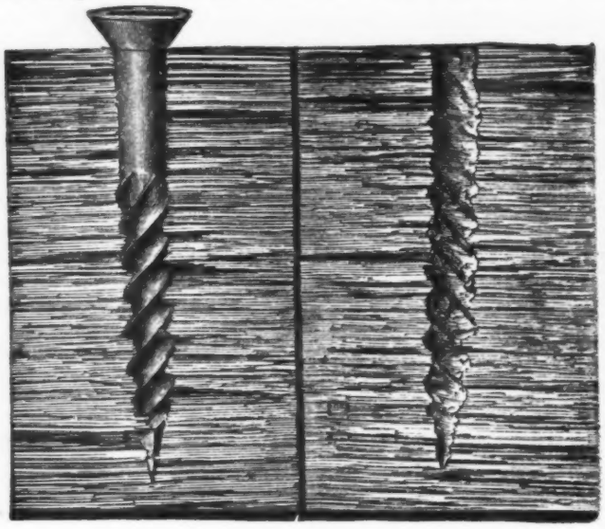
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

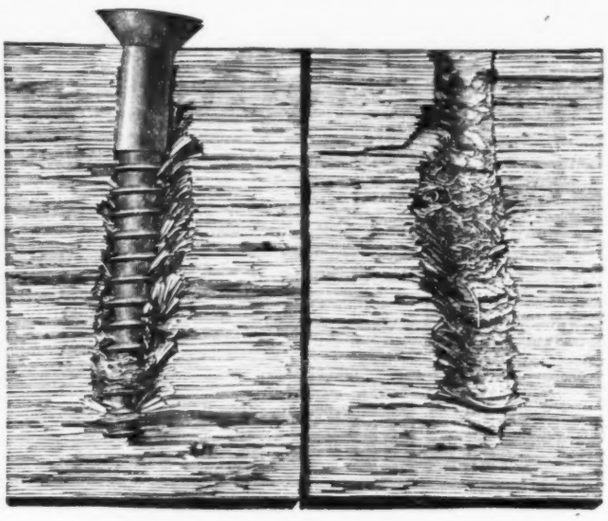
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

PROMPT DELIVERIES AND LOW PRICES.

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

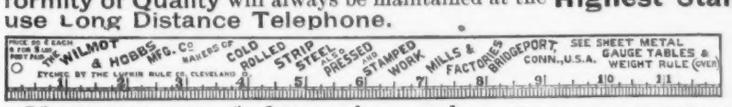
COLD ROLLING MILL.

UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, $\frac{1}{2}$ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.
With Branch at Warrenton, Virginia.
J. BLODGET BRITTON.

This laboratory was established in 1869, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

BYRAM & COMPANY,

IRON WORKS,

DETROIT, MICH., - U. S. A.

Systematic Mineralogy, based on a natural classification, with a general introduction. By T. Sterry Hunt, M.A., LL.D. The author's aim is to reconcile the rival and hitherto opposed chemical and natural historical methods in mineralogy, showing that when rightly understood, chemical and physical characters are really dependent on each other and present two aspects of the same problem, which can be solved only by the consideration of both. He has devised and adopted a Latin momenclature and arranged the mineral kingdom in classes, orders, genera and species, the designations of the latter being binomical. 391 pages, cloth.....$5.00

STEAM PLANTS.— Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*
ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & Co., Main Office & Works, 491 N. 3d St., Phila'a.

PATENT CENTRIFUGAL GRINDING MACHINES

This cut shows our Upright Grinder. The grinding face of wheel is slightly beveled to accommodate the grinding of long knives which have to lay across the wheel from one side to the other. It is designed for grinding all kinds of wood-working tools having straight edges, like planes, chisels, knives, etc., and is also effective for grinding machinists' and kindred tools. The water is brought on to and carried over the surface of wheel and back again to tank by centrifugal force alone, and so, continuously, as long as water is kept in tank.

ADJUSTABLE POWER PRESSES.

THERE is probably no type of power presses that has met with such general favor among manufacturers of sheet metal goods as the line of adjustable power presses which we designate by the numbers **18** to **22**. Nearly all the best manufacturing establishments in this line in America, and many in Europe and Australia, employ one or several of these presses. The range of work for which they are specially adapted covers nearly every kind of blank-cutting, perforating, forming and combination die work, covering a large proportion of the operations needed in the manufacture of cans, pieced tinware, brass goods, trimmings, etc.

We make the Stiles Drop Hammers, Forging and Punching Presses and Machinery for Hardware Manufacturers, etc., etc.

Large and complete line, ranging in price from $6.00 to $25.00 list. New price-list just out.

The Silver Mfg. Co.,

SALEM, OHIO.

THE WORLD'S CHAMPION

New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from ⅛ to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in ⅝ or 41-64, without extra charge.

Langbein's New and Splendid Book on the Electro-Deposition of Metals.

A COMPLETE TREATISE

ON THE

Electro-Deposition of Metals.

Comprising Electro-Plating and Galvanoplastic Operations, the Deposition of Metals by the Contact and Immersion Processes, the Coloring of Metals, the Methods of Grinding and Polishing, as well as descriptions of the Electric Elements, Dynamo-Electric Machines, Thermopiles, and of the Materials and Processes used in every department of the Art. Translated from the German of Dr. George Langbein, with additions by William T. Brannt, editor of the "Techno-Chemical Receipt Book." Illustrated by 125 Engravings. In one volume, 8vo, 404 pages. Price....**$4.00**

Abstract of Contents.

I. GENERAL HISTORICAL PART. CHAPTER HISTORICAL REVIEW OF ELECTRO-METALLURGY.

II. THEORETICAL PART CHAPTER II. MAGNETISM AND ELECTRICITY. I. Magnetism. II. Electricity; Electro-Magnetism; Induction; Chemical Actions of the Electrical Current—Electrolysis.

III. SOURCES OF CURRENT. CHAPTER III. GALVANIC ELEMENTS; THERMO-PILES; MAGNETO AND DYNAMO-ELECTRIC MACHINES.

IV. PRACTICAL PART. CHAPTER IV. ARRANGEMENT OF ELECTRO-PLATING ESTABLISHMENTS IN GENERAL; ELECTRO-PLATING ARRANGEMENTS IN PARTICULAR. V. TREATMENT OF THE METALLIC ARTICLES. (a) Mechanical Treatment; (b) Chemical Treatment. VI. PROCESSES OF ELECTRO-DEPOSITION; REDUCTION OF METALS WITHOUT A BATTERY (Electro-Deposition by Contact). VII. DEPOSITION OF NICKEL AND COBALT. 1. Nickeling; 2. Cobalting. VIII. DEPOSITION OF COPPER, BRASS AND BRONZE. 1. Coppering; 2. Brassing (Cuivrepoli Deposit); 3. Bronzing. IX. DEPOSITION OF SILVER. X. DEPOSITION OF GOLD. XI. DEPOSITION OF PLATINUM AND PALLADIUM 1. Deposition of Platinum. 2. Deposition of Palladium. XII. DEPOSITION OF TIN, ZINC, LEAD AND IRON. 1. Deposition of Tin; 2. Deposition of Zinc; 3. Deposition of Lead; 4. Deposition of Iron (Steeling). XIII. DEPOSITION OF ANTIMONY, ARSENIC AND ALUMINIUM. 1. Deposition of Antimony. 2. Deposition of Arsenic; 3. Deposition of Aluminium; XIV GALVANOPLASTY (Reproduction). 1. Galvanoplastic Deposition in the Cell Apparatus: 2. Galvanoplastic Deposition by the Battery and Dynamo Machines. XV. COLORING, PATINIRING, OXIDIZING, ETC., OF METALS, LACQUERING. XVI APPARATUS AND INSTRUMENTS. XVII. HYGIENIC RULES FOR THE WORKSHOP XVIII. CHEMICAL PRODUCTS USED IN THE ELECTRO-PLATING ART. XIX. USEFUL TABLES. INDEX.

THE LITTLE HERCULES DRILL CHUCKS.

The "Little Hercules" Chucks have three rotating jaws pivoted at ends, operating eccentrically against drill or tool, thus making jaws of Chuck self gripping, an unbroken bearing upon drill entire length of jaw, and the larger the drill the more powerful the pressure upon it.

The Oneida Mfg. Chuck Co.,

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.
SUCCESSORS TO
MULLIN'S
FLUOR-SPAR AND LEAD MINING CO.,
57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't afford to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

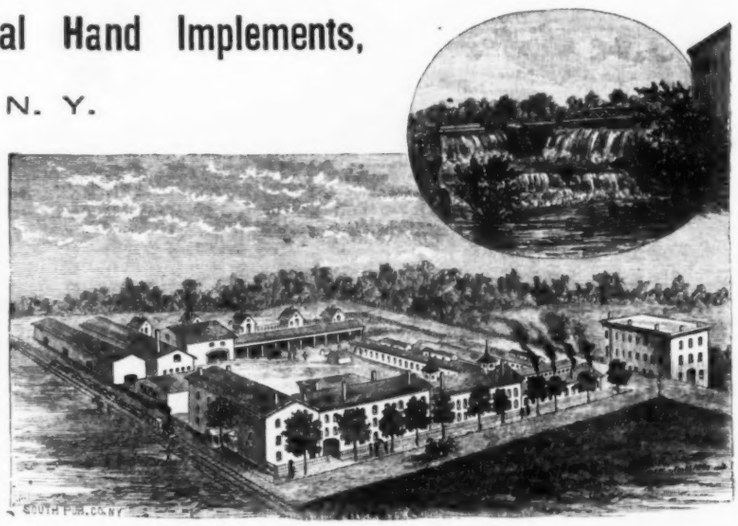
—PLANT FOR SALE.—

AUBURN MANUFACTURING CO.

Manufacturers of Agricultural Hand Implements,

AUBURN N. Y.



The Stockholders of this Company have decided to offer its manufacturing plant and machinery for sale.

The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

It will be offered for about one-third the original cost of construction.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Accurate map of the premises will be furnished on application.

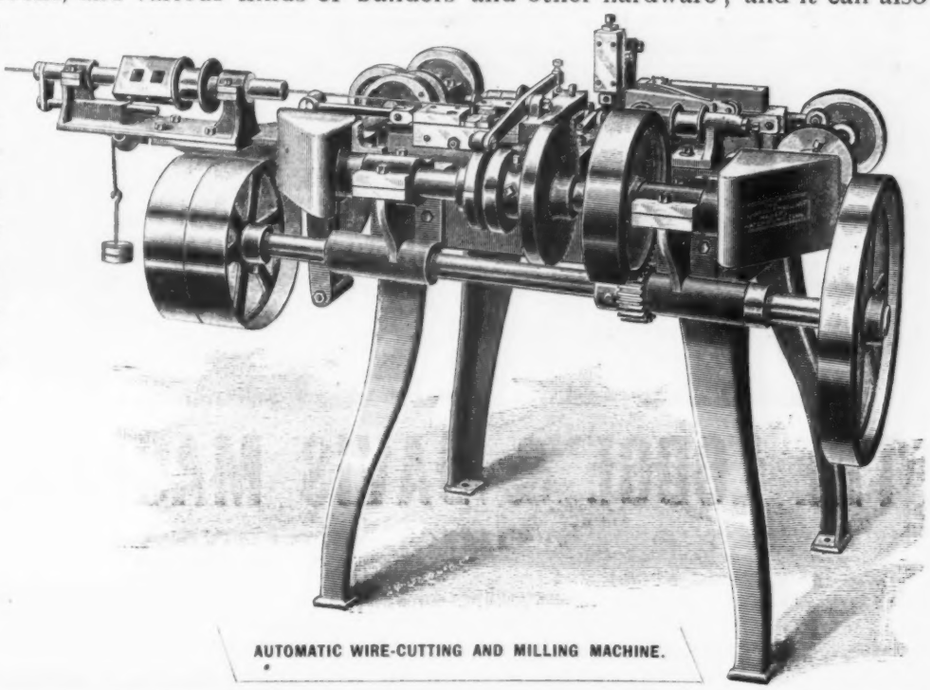
MANUFACTURERS,

WATERBURY, CONN.

IS designed to take wire from the coil, and at one operation, straighten, cut, and mill one or both ends round, beveled, or tenoned, for such work as lamp-burner wires and wires for clock work, butts, locks, and various kinds of builders' and other hardware; and it can also be used as a machine for ordinary wire cutting.

In making inquiries, inclose or send a sample of the work you wish to do. In case you send only a sketch of work, always state with accuracy the size, length, and kind of wire, stating the gauge.



AUTOMATIC WIRE-CUTTING AND MILLING MACHINE.

BOODLE. BOODLE. BOODLE.

Boodle every where, not only in public offices but in business, the main question is, "what is there in it?" Now, we're not built that way; we are always looking for ways to do our customers good. We are not philanthropists, but while we NEVER sell a bill of goods at cost to make room for spring stock, we don't ask more than is a fair profit for the money invested and for wear and tear on our "grey matter." We claim to make the best blacks on earth and we call them

Bonnell's Nubian Iron Enamels, made in all grades from cheap boiler paint to high class Bicycle, Electric and Rail way blacks for every possible purpose and at lowest prices consistent with a profit and good goods. Write us. We guarantee our claims.

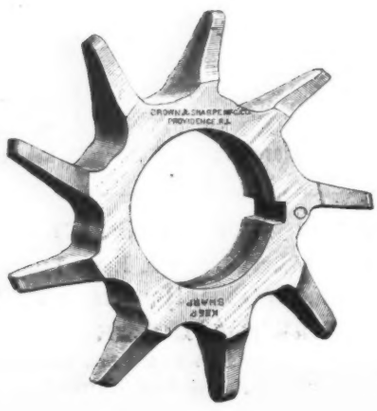
GEAR CUTTERS.

Formed Cutters are the most economical for the production of duplicate parts. They can be sharpened without changing their outline.



The second Cutter illustrated, originally similar in appearance to the first, but ground away by repeated sharpening, has cut 467 4 pitch, 64 teeth, 3-inch face cast iron gears, making a total length of cut of 7,472 feet. The teeth of the gears were cut from solid blanks and finished in one cut.

SECOND-HAND TOOLS

For Sale at low Figures.

1 Heavy Shear, to cut 1 in. x 6 in. Bement.
1 " Punch, to punch 1 in. x 1 in. Bement.
1 Double Punch and Shear, punch ¾ in. x ¾ in., shear 6 in. x ¾ in. Long & Allstatter.
1 Single Shear, to shear ¾ in. x 4 in.
2 24 x 24 x 5 Iron Planers, Lathe & Morse.
1 30 x 30 x 6 Iron Planer, Sellers.
1 20 x 20 x 4 " " "
3 18 x 8 Lathes, Lathe & Morse.

One 35 H.-P., one 20 H.-P., T. & H. Motors, second-hand, in perfect condition, for sale cheap.

NEW BEDFORD IRON FOUNDRY,
New Bedford, Mass.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

TO LET.

The Engine Works at Newburgh, N. Y., at present occupied by Wm. Wright, is offered to let from May 1st, 1892.

The property consists of machine shop, foundry, boiler, forge and pattern shops with a full equipment of tools.

Laboratory Appliances, Chemical Apparatus and Fixtures of a Chemical Works, lot of Crucible Steel Scrap, &c., property of the late Imperial Steel Co., to be sold at the Frankford Steel Works, Orthodox St., and Frankford Creek, on Wednesday morning, May 4th, 1892, at 10 o'clock.

ELLIS & SHAW,
735 Walnut St., Philadelphia.

For catalogues apply to the auctioneers.

Wheel, Axle and Iron Manufacturers and Capitalists.

Your attention is called to the following.

Two very valuable patents touching wheel and axle manufacturers and the iron trade are now offered for sale. One is an improvement in axle arms consisting of four concave depressions so arranged in the arm that they lessen friction and automatically lubricate it (the arm). The other is one of the most valuable patents ever issued. It gives to the owner a monopoly over a certain branch of business that has not been equaled in this century. This patent consists of a hub made from malleable iron, steel or other suitable metal, so made that in connection with an axle arm of suitable dimensions, &c., it does away with the projecting hubs of wheels that are now so common and annoying. It is no idle fancy to think and say that when this hub is introduced all others will disappear. Wheels made with this hub will be the nearest approach to perfection ever made in that line. To secure control of this patent is to secure a fortune. These patents will be disposed of singly or together, they will be sold outright or stock taken in a company organized for their manufacture. For further particulars address

PETER McMENAMIN,
273 Fifth St., Jersey City, N. J

Two Valuable Manufacturing Plants

—TO BE—

SOLD AT AUCTION

Wednesday, May 18, 1892.

THE TALLAPOOSA FURNACE,

AND THE

PIEDMONT GLASS WORKS.

Located in Tallapoosa, Haralson County, Georgia.

These plants practically new, costing $150,000 and $65,000 respectively, will be sold without reserve to the highest legitimate bidder agreeing to operate them within one year from date of sale. Terms 1/10 cash, 4-10 in two weeks, and balance to suit purchaser. Both have an established trade, and reason for selling is lack of capital by the owners to operate them intelligently.

THE TALLAPOOSA FURNACE is a 40 ton charcoal iron furnace; been in blast but 9 months; has every modern appliance, and makes excellent car wheel iron, which finds a ready sale at satisfactory prices

PIEDMONT GLASS WORKS is a 12 pot furnace and 6 ton green tank, with all tools, material and appliances for flasks, bottles and prescription ware. The only plant south of the Ohio River and controls the Southern trade.

Sale made by authority of the stockholders of the company, at last annual meeting, and the plants will be sold without regard to cost or value; the object being to have them operated in the city where the Company's real estate is located. Description and inventory on application.

C. A. NORTON, General Manager,
GEORGIA-ALABAMA INVESTMENT AND DEVELOPMENT COMPANY.
Tallapoosa, Georgia.

THE LATEST BOOKS.

Dynamo-Electric Machinery. A Text Book for Students of Electro-Technology. By SILVANUS P. THOMPSON, D.Sc., B.A., F.R.S. It is nearly two years since the last edition of Thompson's Dynamo-Electric Machinery went out of print, since which time the author has been busily engaged in preparing an enlarged and revised edition. CONTENTS: Introduction; Historical Notes; Physical Theory of Dynamo-Electric Machines; Actions and Reactions in the Armature; Magnetic Principles and the Magnetic Properties of Iron; the Magnetic Circuit; Forms of Field-Magnets; Elementary Theory of the Dynamo, Magnetic and Separately-Excited Machines—Series Machines—Shunt Machines; Characteristic Curves; Constant Potential Dynamos; On Winding of Armatures—Theory of Connections; Practical Construction of Armatures; Commutators, Brushes and Brush-Holders; Mechanical Points in Design and Construction; Elements of Dynamo Design—Calculations of Windings; Arc-Lighting Dynamos; Examples of Modern Dynamos (continuous current); Miscellaneous Dynamos; Electric Motors (continuous current); Modern Forms of Continuous Current Motors; The Principles of Alternate Currents; Alternators; Alternate Current Motors; Transformers; Electric Transmission of Energy; Regulators for Dynamos; Testing Dynamos and Motors; Management of Dynamos. Appendix A.—Electric and Magnetic Units. Appendix B.—Wires for Winding Dynamos. Fourth edition, entirely rewritten, nearly 1000 large pages of text. Profusely illustrated, including 29 plates, $9.00

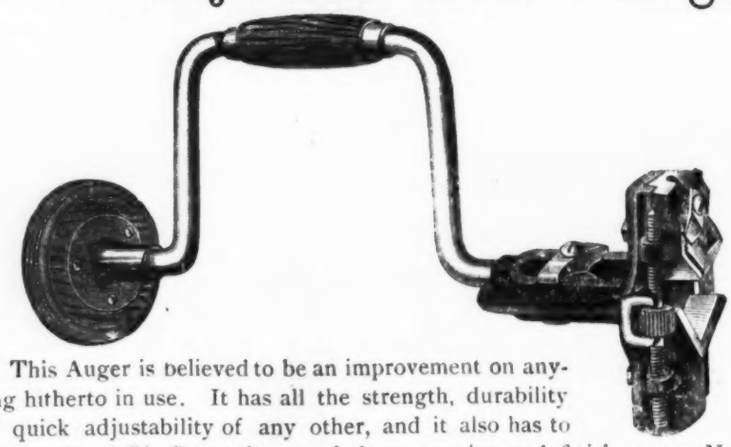
GOODELL'S
Patent Adjustable Hollow Auger.



This Auger is believed to be an improvement on anything hitherto in use. It has all the strength, durability and quick adjustability of any other, and it also has to drive it a Steel Bit Brace Sweep of the same size and finish as our No. 10 Brace—to wit, 14 inch sweep As the Brace Sweep is fitted to the Auger it must always work entirely true, which is not the case when used in an ordinary Brace. Besides, it often happens that the Bit Brace on hand is not large enough to drive a spoke Auger. Adjustable to Cut from ¼ to 1¼ inches.

Price, each, with Sweep, - - $4.00.

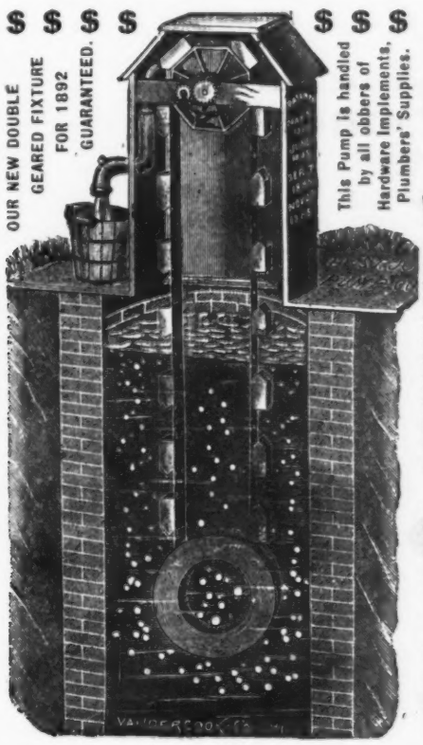
This Pump is handled by all obbers of Hardware Implements, Plumbers' Supplies.



FOR DEALERS!

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

SETTING BLOCK.

E. C. ATKINS & CO.,

INDIANAPOLIS, IND.,

ATKIN'S PAT. EXCELSIOR SAW TOOLS

For Use in Fitting up Cross-Cut Saws.

Comprising a Combined Side File, Jointer and Tooth Gauge, by the aid of which Cross-Cut Saws may be kept in much better order than is possible without them. The value of the Setting Block will be readily estimated, as it is well known that saws having a proper temper cannot be safely set with a wrench, or "Spring Sets" made for the purpose; while with our Setting Block saws of very high temper and of the finest steel can be easily set.

TOOTH-GAUGE.

SIDE FILE, RAKER, TOOTH-GAUGE AND JOINTER COMBINED.

Price to the trade, $6.00 per Dozen. Write for Catalogue.

Arranged to be held by Thumb and Little Finger (the natural way of holding a comb).

CAUTION.

This Comb is secured to us by Letters Patent No. 464,773, dated December 8th, 1891, and we have secured control of Patent No. 220,986, dated October 28th, 1879, issued to Paschal Plant, together with all accrued claims for infringement of said Letters Patent. We hereby CAUTION all parties against MAKING, SELLING or BUYING Curry Combs that in any manner infringe these Patents. The said Patent No. 220,986 is the BOTTOM PATENT to FLEXIBLE or SPRING Curry Combs. The "claim" thereof reads as follows: "As a new article of manufacture, a flexible Curry Comb formed of a toothed strip of metal or other suitable material, without a plate or back, and with a suitable handle attached directly to the strip, substantially as described." Parties MAKING, SELLING or BUYING FLEXIBLE or SPRING Curry Combs not licensed by us under the above-mentioned Patent are liable to damages, and we shall proceed against them as fast as possible.

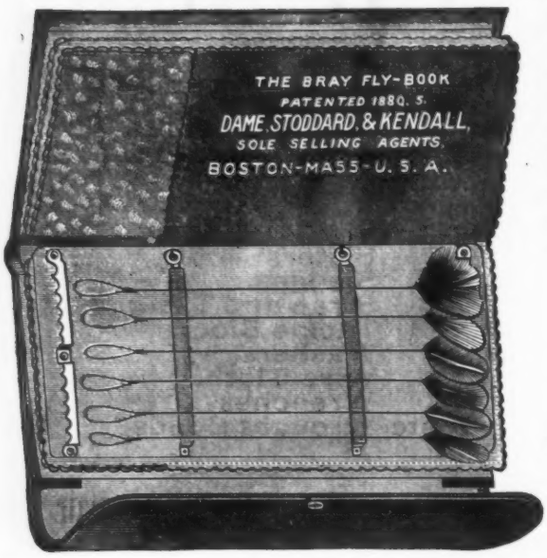
THE BRAY FLY BOOK.



THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

—OFFICE OF—

The STORM MANUFACTURING CO.,

NEWARK, N, J , April, 1892.

TO THE HARDWARE STORES
EVERYWHERE.

Gentlemen:

Our story is a short one, please read it. We are the largest manufacturers of Dumb Waiters and Hand Elevators in this country. Our goods are made specially to be sold by the hardware trade.

Thousands of stores are posted on our goods and are selling them. Are you?

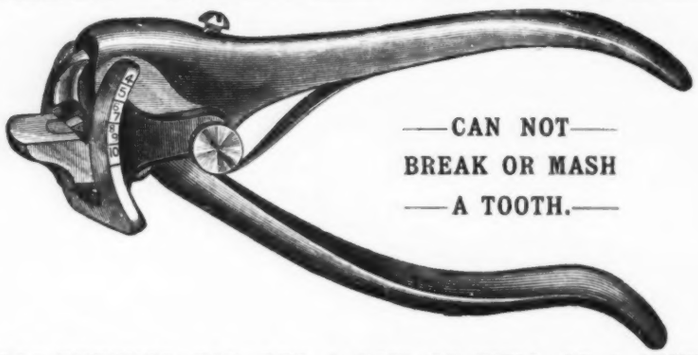
If not write to us, or John H. Graham & Co., 113 Chambers St., New York, and we will post you up. Anyway send for our new catalogue, we think it will interest you.

Very truly yours,
THE STORM MFG. CO.

JOHN H. GRAHAM & CO., 113 CHAMBERS STREET, New York Agents.

YOU CAN MAKE NO MISTAKE!

LLOYD ACME



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

SAW SET.

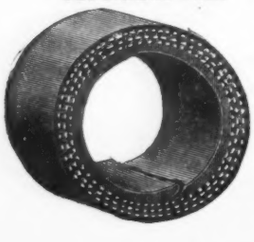
A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

NEW SEAMLESS TUBE

OLD LAPPED TUBE



WHO HAS NOT HAD BAD HOSE?

Who has not lost time, patience, money, by attempting settlement for such goods THE CAUSE, in nine cases out of ten, is the lapped seam. THE REMEDY is in buying our

PATENTED SEAMLESS TUBE HOSE,

made by machinery, the tube run like lead pipe, through a die. There is no lapped tube, no seam, no crack, no defects: water cannot get through to rot the duck and cause the hose to burst. Made in all sizes and kinds of Garden, Engine, Steam, Fire, Brewers,' Cotton Hose, etc.

We want your business.

ELECTRICITY AND MAGNETISM. A short text-book, with 165 explanatory engravings and diagrams. 240 pages, 12mo. By T. DUNMAN. **40 Cents.** Sent, prepaid, on receipt of price by DAVID WILLIAMS, Publisher and Bookseller, 96-102 Reade Street, New York.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

THE NORWICH LOCK MFG. CO.,

OF ROANOKE, VA.

Roanoke Va., March 1, 1892.

Our new catalogue and price-list is now ready for distribution. It is a book of 404 pages, $10\frac{1}{2}$ x $12\frac{1}{2}$, printed on heavy paper, and contains illustrations and descriptions of a complete line of locks, knobs, keys, escutcheons, bell pulls, padlocks and builders' hardware.

A copy will be furnished without charge to any house whose purchases from us during the year 1891 amounted to $100 net, and will be sent with the first goods ordered, or by express, not prepaid. To others we make a charge of $5.00 per copy, which amount will be deducted from account as soon as same amounts to $50.00 net. The book is too large to be sent by mail.

THE NORWICH LOCK MFG. CO.,

ROANOKE, VA.

THE CHAMPION

CARRIAGE WRENCH

IS MADE OF

MALLEABLE IRON

Waranted Not to Break with Legitimate Use.

Fits Nuts on any ordinary Carriage or Wagon.

NO SCREWS OR THUMB NUTS

to adjust. A simple pressure of the finger opens the jaw, which adjusts itself to any Square Nut from $\frac{5}{8}$ in. to $1\frac{1}{4}$ ins.

EASIER TO OPERATE THAN ANY OTHER.

The handle being at right angles with the body forms a crank, allowing the nut to be turned off in the easiest and most natural manner with one hand.

THE NUT IS HELD FIRMLY

by the jaws, consequently it is not necessary to touch it with the fingers. No danger of falling in the dirt. No grit on the nut. No oil on the hands. When you are ready it goes on just as easy as it came off.

IF YOU DON'T SELL THEM YOU OUGHT TO.

ARE YOU ?

HOW TO KEEP A STORE.

By S. H. TERRY.

406 PAGES, 5x7½ INCHES.

This book should be in the hands of every one interested in the selling of goods at retail. Among the subjects discussed are: The selection of a business; choice of a locality; buying a stock of goods; examining, marking and arranging goods; how to advertise; employment of clerks; selling for cash and credit; keeping accounts; expenses; copartnerships; losses by fire, theft, &c.; influences of social life on business; buying at auction; investment of profits; insolvency; business qualifications. Every branch of the retail trade is treated upon in a direct, business-like manner. It is a thoroughly practical book for merchants and clerks. **Price, $1.50.**

Sent, postpaid on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade Street, New York.

"Branford's" New Cylinder Front Door Lock,

MANUFACTURED BY THE

Branford Lock Works, Branford, Conn., U. S. A.

KNOB
No. P 3032
2½ Inch.
ESCUTCHEON
No. P 6234
11½ x 3¼ Inch.
COLONIAL DESIGN.

ESTABLISHED IN 1862.

We have a full line of Cylinder Work, for which we will quote prices on application.

Our Patented CYLINDER is a new departure, as it is constructed on an entirely new principle, viz.: Attaching the cylinder to the Escutcheon. This insures simplicity in adjusting the lock to the door.

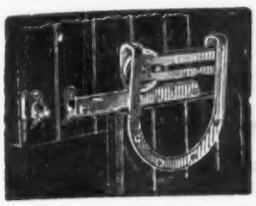
Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.



The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

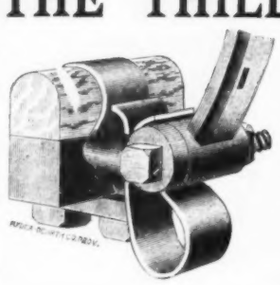
THE THILL COUPLING SPRING

MADE BY THE

SABIN MACHINE COMPANY, Montpelier, Vt.



Is unquestionably the **BEST METAL SPRING** made for the purpose of preventing the rattling of the Thills.

It is adapted to any coupling where rubbers are used. It does its work perfectly, and is so formed as not to wear the iron of the coupling, as it presents a flat, smooth surface to the bearing, and yet holds the shaft perfectly in place, and prevents all rattling.

It Outlasts many sets of rubbers and costs but a trifle more. It is easily adjusted. Made in four sizes, ⅜, 1, 1⅛ and 1¼ inch. Packed one dozen pairs in a box.

Send for Sample Dozen or Larger Quantities to

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

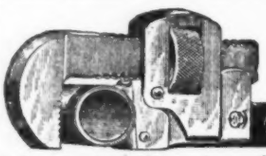
This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.



TRIMO PIPE WRENCH,

Forged Steel.

140 Union St.,
WORCESTER, MASS.

DROP-FORGED

STEEL LATHE DOGS.

These Dogs are forged from mild steel, giving the greatest strength and toughness for the least weight, while they are also heavier than other Dogs of corresponding sizes made elsewhere.

The cross section is shaped similarly to an ogee, forming a rib, as it were, on the back, by which the metal is utilized to its greatest advantage at the point of severest strain.

The screws are made of steel to the U. S. Standard Gauge; the points are hardened, and they are from one-sixteenth to one-eighth of an inch larger in diameter than those generally used in Lathe Dogs offered for sale.

Twelve sizes, from ¾ inch to 4 inch inclusive.

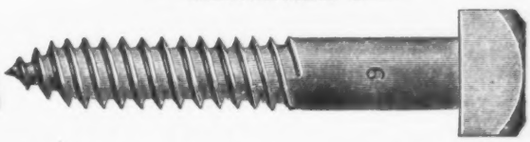
—MANUFACTURERS OF—

GIMLET POINT

COACH SCREWS



Bolts, Cold-Punched Nuts and Washers,

SUITABLE FOR MACHINERY OF ALL KINDS.

Office and Works: 451 Main St., PAWTUCKET, R. I., U. S. A.

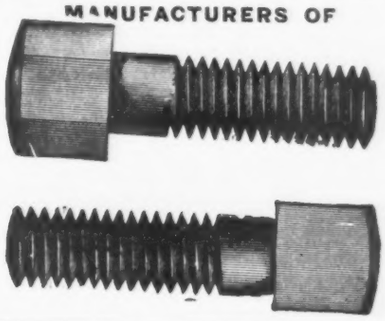
HENRY B. NEWHALL CO., Agents,

105 CHAMBERS STREET, NEW YORK. - 47 PEARL STREET, BOSTON.

WORCESTER MACHINE SCREW CO., Worcester, Mass.

MANUFACTURERS OF

SET, CAP AND MACHINE SCREWS.



STUDS FOR STEAM ENGINES. PUMPS, &c.

HAY KNIVES

SEASON OF 1891-92.

"LIGHTNING"

(Reg. Trade Mark No. 9583.)

"BLIZZARD"

Reg. Trade Mark No. 19,390.

It pays to handle FIRST CLASS goods.

Write us early for prices and terms.

Sole Manufacturers,

The HIRAM HOLT COMPANY,

EAST WILTON, MAINE.

RIVETS OF EVERY DESCRIPTION, FIRST QUALITY.

W. P. TOWNSEND & CO.

7.

NEW BRIGHTON, PA.

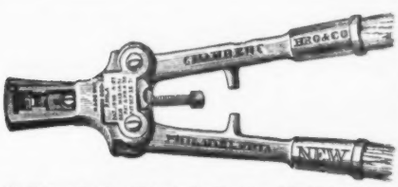
J. H. Sternbergh & Son, - Reading, Pa.

—MANUFACTURERS OF—

Machine Bolts, Common Carriage Bolts, Bridge and Roof Bolts, Car Bolts, **The Harvey Patent Grip Thread Track Bolt,** U. S. Standard Thread Track Bolts, Coiled Steel Track Washers, Square and Hexagon Nuts of all kinds and sizes, Plate Washers, Lag Screws, Forged Set Screws and Tap Bolts, Plow Bolts, Stud Bolts, Boiler, Bridge and Ship Rivets, Boiler Patch Bolts and Stay Bolts, Rods, Straps and Irons for Bridges and Buildings, **Refined Merchant Bar Iron,** etc.

MANUFACTURED ALSO BY

The Kansas City Bolt & Nut Co., Kansas City, Mo.



BOLT & RIVET CLIPPERS

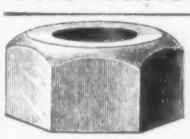
For cutting off the ends of Bolts and Rivets.

Liberal discounts to the trade.

CHAMBERS BROTHERS COMPANY,

52d ST., BELOW LANCASTER AVE.,

PHILADELPHIA PA.



PORTCHESTER BOLT & NUT CO.

Port Chester, N. Y.

MANUFACTURERS OF

BOLTS, NUTS, RIVETS and WASHERS

CHAMFERED AND TRIMMED.

SQUARE AND HEXAGON NUTS A SPECIALTY.

AMERICAN BOLT COMPANY,

Manufacturers of

BOLTS AND NUTS, COACH OR LAG SCREWS

Bridge Bolts, Car Bolts, Track Bolts, Washers, Chain Links, BUILDING BOLTS AND IRONS OF ALL KINDS, Forgings, Bolt and Nut Machinery, &c.

Bradley Hammers

2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.

FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

HULBERT BROS. & CO.

Opposite Fifth Ave. Hotel, Formerly MERWIN, HULBERT & CO.,

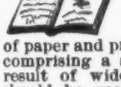
26 West 23d Street, New York.

THE PRACTICAL BRASS AND IRON FOUNDERS' GUIDE.

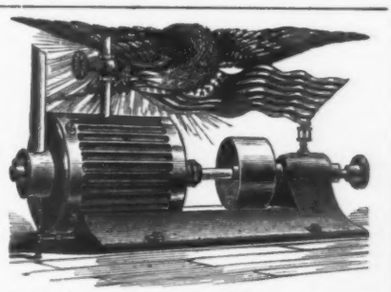
A Concise Treatise on Brass Founding, Moulding, the Metals and their Alloys, &c., to which are added recent improvements in the Manufacture of Iron, Steel by the Bessemer Process, &c., &c. By JAMES LARKIN, late Conductor of the Brass Foundry Department in Reany, Neafie & Co.'s Henn Works, Philadelphia. Fifth edition, revised, with extensive additions. In one volume, 12mo. $2.25. Sent, post-paid, on receipt of price, by

DAVID WILLIAMS, Publisher and Bookseller,

96-102 Reade Street, - NEW YORK.



WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

For further information and Illustrated Catalogue, call on or address: AMERICAN ENGINE Co., Bound Brook, N. J.

STANLEY'S PATENT.

HAND-Y LEVEL.

This Level can be used in a horizontal position, or can be brought to perpendicular for ascertaining a plumb, with remarkable ease; as the shallow grooves along the two sides afford an excellent grip on the Tool. This Level will be especially useful in House-framing, Bridge-building and general out-of-door work.

No. 16. Hand-y Plumb and Level, Cherry, Polished and Tipped..... $1.25

—THE—

Chemical Analysis of Iron.

A Complete Account of all the Best Known Methods for the

Analysis of Iron, Steel, Pig Iron, Iron Ore, Limestone, Slag, Clay, Sand, Coal, Coke, and Furnace and Producer Gases.

SECOND EDITION.

—BY—

ANDREW ALEXANDER BLAIR,

Graduate United States Naval Academy, 1866; Chief Chemist United States Board appointed to Test Iron, Steel and other Metals, 1875; Chief Chemist United States Geological Survey and Tenth Census, 1880; Member American Philosophical Society, etc.

Handsomely Illustrated by 120 Outline Engravings on Wood. 8vo. 314 Pages. Half Morocco. $4.00.

The reputation which this book has so quickly won for itself among analytical chemists will certainly be increased by the improvements in the second edition. Every means has been taken to bring it up fully to the times, by incorporating all the new and improved methods, necessitating the addition of thirty pages of letterpress and nine new cuts.

"This work may, in fine, be pronounced a useful summary of a special and important department of analytical chemistry by an author of prolonged and wide practical experience."—*Chemical News*, London.

"Mr. Blair's is a standard work which will prove the chief guide of the young chemist, and a frequent guide to more experienced analysts."—*The Iron Age* New York.

"All iron chemists will find this book an exceedingly useful laboratory companion."—*The Chemical Review*, London.

"It is thorough, accurate, and so complete, as to be practically exhaustive of the important subject of which it treats."—*Philadelphia Iron.*

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

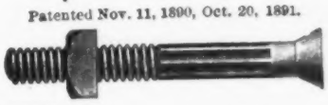
Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.



FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

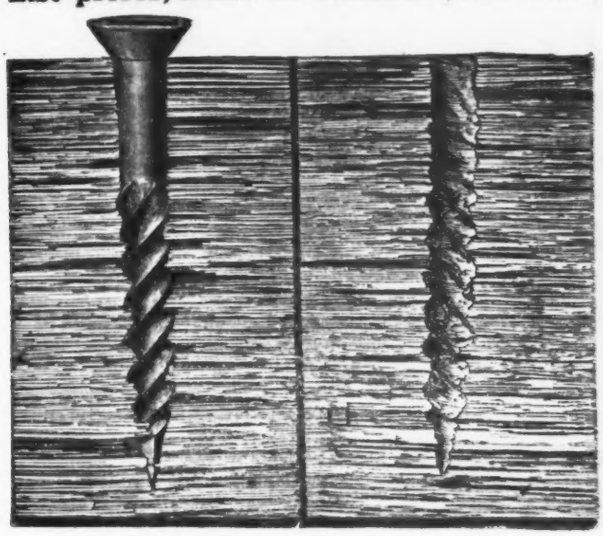
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

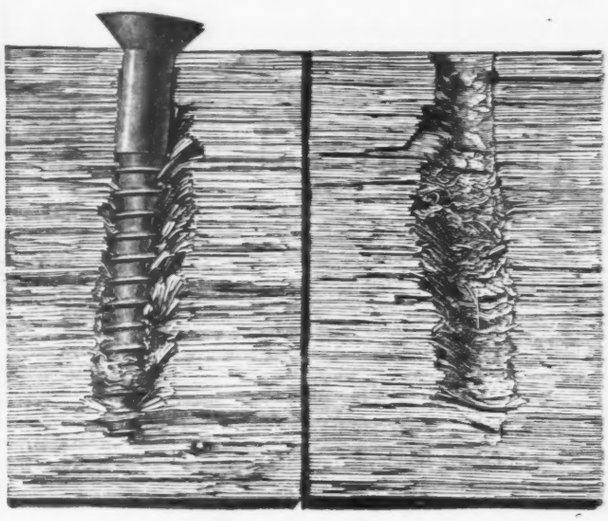
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%.



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

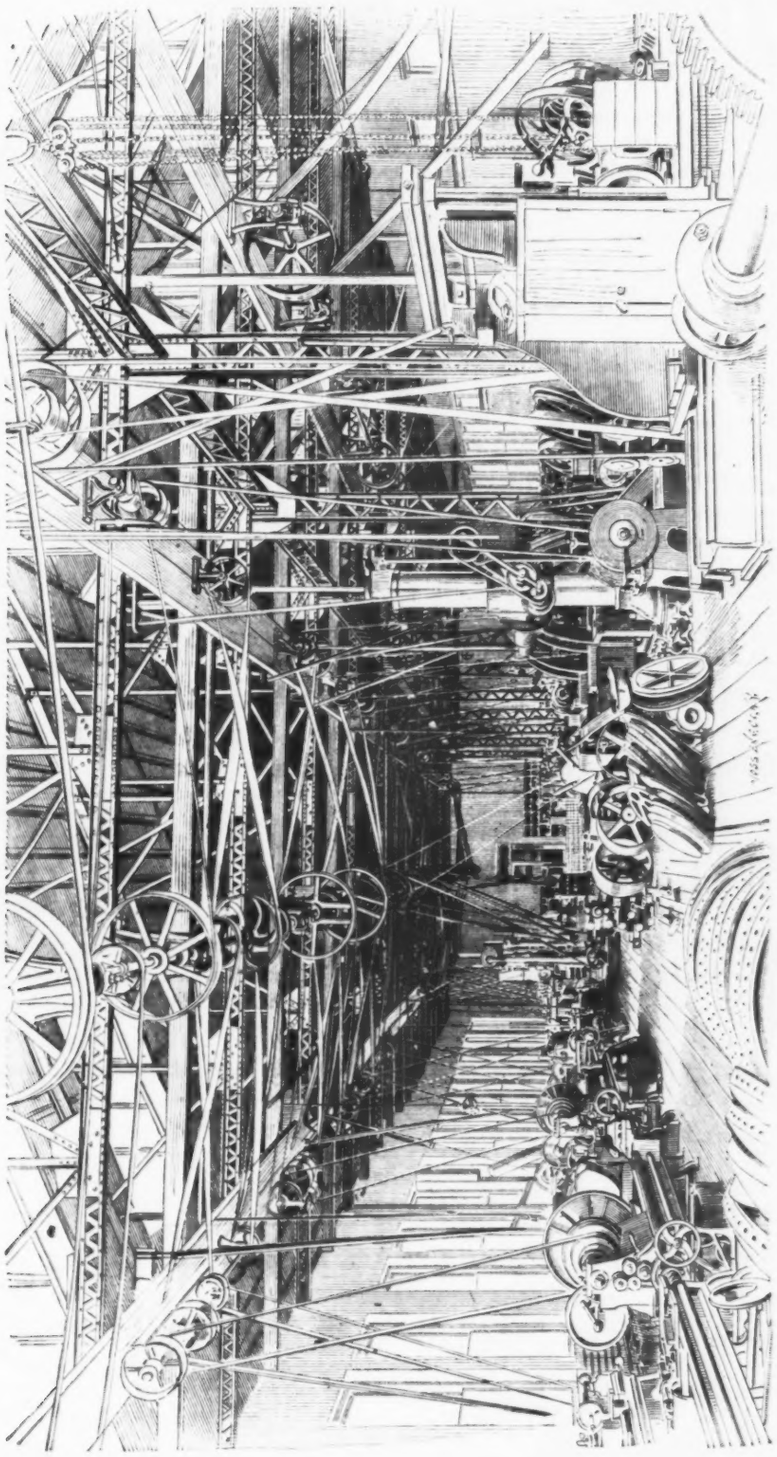
THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration is taken direct from a photograph, and shows the interior of a machine Shop with an Iron Truss Roof designed and built by us for The Titusville Iron Co., at Titusville, Pa. The building is 70 ft. in width by 205 ft. in length. The roof trusses are made entirely of iron and designed to carry shafting. Through the center of the building is a row of wrought iron columns. For Machine Shop roofs this plan particularly commends itself, as the trusses are no only much neater in appearance than heavy, cumbersome wooden trusses, but are stronger and stiffer; and where no wood is used about the construction the danger from fire is entirely eliminated.

Office and Works, No. 5 Railroad Avenue,

EAST BERLIN, CONN.

Systematic Mineralogy, based on a natural classification, with a general introduction. By T. STERRY HUNT, M.A., LL.D. The author's aim is to reconcile the rival and hitherto opposed chemical and natural historical methods in mineralogy, showing that when rightly understood, chemical and physical characters are really dependent on each other and present two aspects of the same problem, which can be solved only by the consideration of both. He has devised and adopted a Latin momenclature and arranged the mineral kingdom in classes, orders, genera and species, the designations of the latter being binomical. 391 pages, cloth.....$5.00

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER,** or deciding upon the adoption of any **System of Steam Heating,** kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*
ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d St., Philad'a.

One of the Most Popular Technical Books ever published in the United States.

JUST READY.

A PRACTICAL WORKSHOP COMPANION

—FOR—

TIN, SHEET-IRON

—AND—

COPPER-PLATE WORKERS.

Containing rules for describing various kinds of Patterns used by Tin, Sheet-Iron and Copper-Plate Workers. Practical Geometry. Mensuration of Surfaces and Solids: Tables of the Weights and Strengths of Metals and other Materials; Tables of Areas and Circumferences of Circles; Composition of Metallic Alloys and Solders, with numerous valuable Receipts and Manipulations for every-day use in the workshop. By Leroy J. Blinn, Master Mechanic. A new, revised and enlarged edition, printed from new type, and with 170 newly engraved illustrations.

In one volume. 12mo, 296 pages, price $2.50, free of postage to any address in the world.

☞ It having been found necessary to make a new set of electrotype plates and new engravings of this most popular book—the old ones having been worn out by actual use—it was determined to have the book re-edited and to add to it, in the different departments, new, recent and necessary matter. All of the old illustrations of patterns have been retained, and new ones have been added. The portion treating of metallic alloys and solders has been entirely re written, so as to have a more systematic arrangement, and to bring it abreast with the best modern practice in this interesting and important field. In all the other departments new matter has been added, every effort having been made to render the entire work, in the future, if possible, even more useful to the tin, sheet iron and copper-plate worker than in the past.

ABSTRACT OF CONTENTS.

Rules for Describing Patterns; Practical Geometry; Mensuration of Surfaces; Mensuration of Solids, and Capacities of Bodies; Tables of Weights, &c.; Tables of the Circumference of Circles and of the Areas of Circles; Rules for Rendering the Tables Useful; Sizes of Tinware; Capacity of Cylinders, and various other Useful Tables and Information; Practical Receipts, Varnishes, Lacquers, Cements, Metallic Alloys, Miscellaneous Receipts; Strength of Materials, with Tables. Index.

BEST OAK BELTING
PHILADELPHIA.

WHAT
Constitutes the Best Paint?

The paint that for the longest time will put off the necessity of repainting is, in the nature of things, the best and the most economical.

Those who have used Dixon's Graphite Paint find that a roof well painted will not require repainting in 10 to 15 years.

ADJUSTABLE POWER PRESSES.

THERE is probably no type of power presses that has met with such general favor among manufacturers of sheet metal goods as the line of adjustable power presses which we designate by the numbers **18** to **22**. Nearly all the best manufacturing establishments in this line in America, and many in Europe and Australia, employ one or several of these presses. The range of work for which they are specially adapted covers nearly every kind of blank-cutting, perforating, forming and combination die work, covering a large proportion of the operations needed in the manufacture of cans, pieced tinware, brass goods, trimmings, etc.

We make the Stiles Drop Hammers, Forging and Punching Presses and Machinery for Hardware Manufacturers, etc., etc.

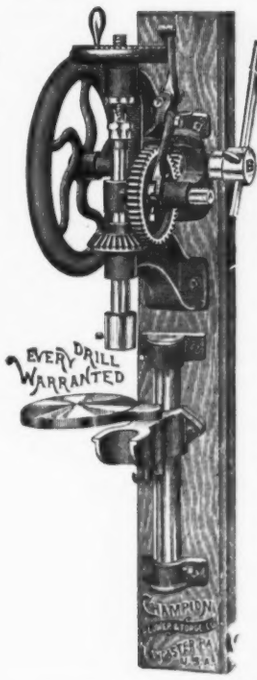
THE WORLD'S CHAMPION



New Upright Self-Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from 1/8 to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in 5/8 or 41-64, without extra charge.

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't afford to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Minera City, on the Ohio River, the larges Mines of Fluor-Spar ever discov ered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facili tates the reduction of the most re fractory materials. For Alkalies Clays and all Metallic Oxides it has a remarkable solvent power; it re duces the melting point and saves fuel; it diminishes the loss of metal saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Lime stone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

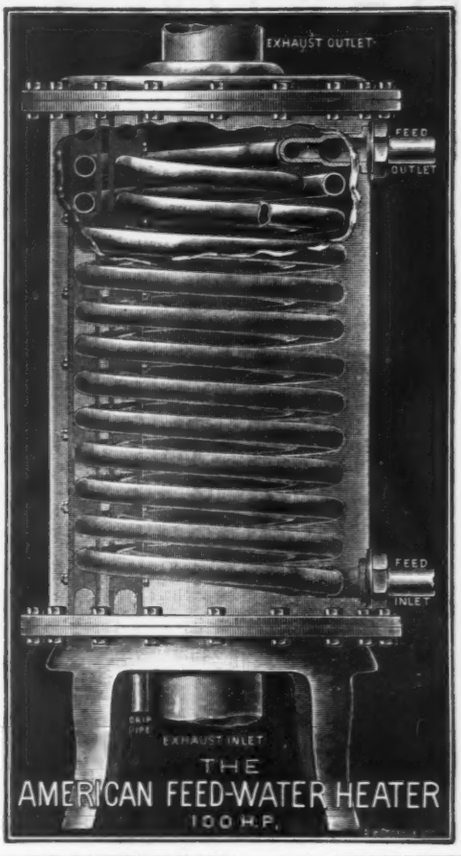
Whitlock Coil Pipe Co.

MANUFACTURERS,

27 South St., Elmwood, Conn.

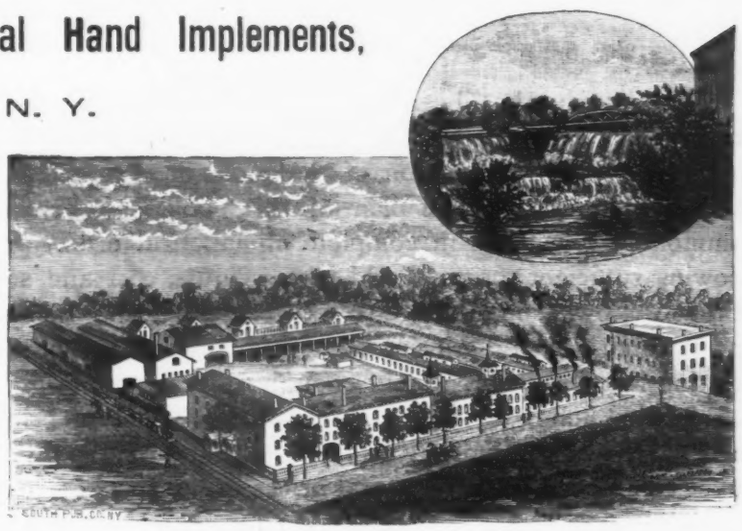


—PLANT FOR SALE.—

AUBURN MANUFACTURING CO.

Manufacturers of Agricultural Hand Implements,

AUBURN N. Y.



The Stockholders of this Company have decided to offer its manufacturing plant and machinery for sale.

The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

It will be offered for about one-third the original cost of construction.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Accurate map of the premises will be furnished on application.

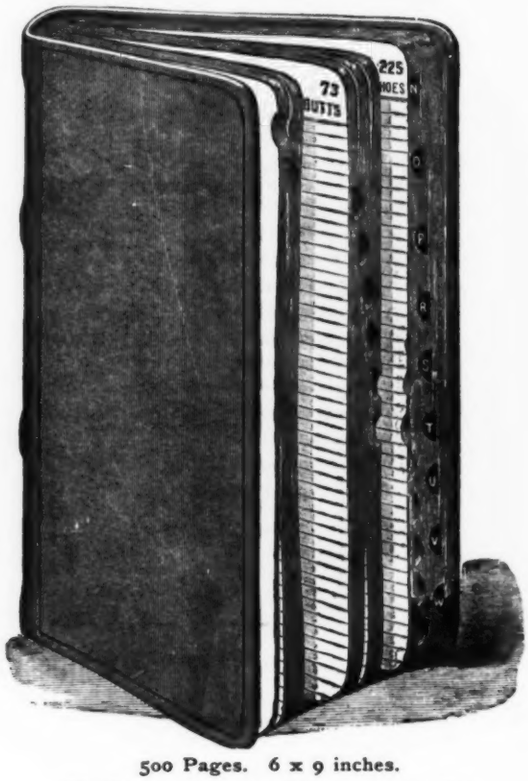
ESTIMATES FURNISHED FOR ALL CLASSES OF WORK,

96, 98, 100 & 102 READE STREET, · · NEW YORK.

LAMBERSON'S

HARDWARE PRICE BOOKS

(POCKET EDITION.)
250 Pages. 4 x 7 inches.
Flexible Leather, with flap. Price, $4.00.



500 Pages. 6 x 9 inches.
Flexible Leather, for Office or Store Use.
Price, $8.00.

The above illustrations show the general appearance of Lamberson's Hardware Price Books.

No attempt has been made to include every article kept in any one hardware store. Assortments are so varied that no one book could be made to fit two stocks. At the same time, a very large proportion of the goods in any general hardware store are duplicated in any other similar store. The plan of this book is to arrange such goods as are regular and common to all stocks in complete alphabetical order, printing the name of each article and allowing sufficient room to add lists, weights, cost and selling prices, and such other information as the owner may desire to record. Sizes and numbers that are permanent are printed, and in some cases descriptions and comparative numbers. Experience proves that too much printing is a disadvantage, but enough to locate staple goods and make a basis to work from is a decided help. In this judicious arrangement of printing and spacing these books prove their value. The drudgery of laying out and writing in headings is done away with, and the buyer commences at once to add prices in the spaces already determined for him.

The large size is recommended for office or store use. The small book is the same in all essential points as the large one, but is made on a smaller scale for convenience of those who require a book for the pocket.

Sent, Charges Prepaid, on Receipt of the Price by

DAVID WILLIAMS, Publisher and Bookseller,

THE E. J. MANVILLE MACHINE CO.,

MANUFACTURERS,

WATERBURY, CONN.

DOUBLE ACTION CRANK PRESS.

THE illustration represents a new and improved design which, by the construction of the cutting slide, the drawing slide and the connection, eclipses all other presses of the same kind. The blanking slide is made in box form and is operated by one connection, which is in the center of same, dispensing with the double connection and adjustment that many times are a source of annoyance, produced by the cramping of the slide and the shearing of the punches. The drawing is done by the two outside connections, that are connected to the shaft as in other presses but have double the bearing surface, the lower end being fitted to a yoke which reciprocates in the center of cutting slide and is held in place by means of caps, as shown, and through which an adjusting punch-holder is fitted to receive the punch in the usual manner for cutting and drawing shallow shells.

A Ratchet or Friction Roll Feed can be applied. Tools are furnished to order and fitted when desired.

Two Valuable Manufacturing Plants

—TO BE—

SOLD AT AUCTION

Wednesday, May 18, 1892.

THE TALLAPOOSA FURNACE,

AND THE

PIEDMONT GLASS WORKS.

Located in Tallapoosa, Haralson County, Georgia.

These plants, practically new, costing $150,000 and $60,000 respectively, will be sold without reserve to the highest legitimate bidder agreeing to operate them within one year from date of sale. Terms 1-10 cash, 4-10 in two weeks, and balance to suit purchaser. Both have an established trade, and reason for selling is lack of capital by the owners to operate them intelligently.

THE TALLAPOOSA FURNACE is a 40 ton charcoal iron furnace; been in blast but 9 months; has every modern appliance, and makes excellent car wheel iron, which finds a ready sale at satisfactory prices.

PIEDMONT GLASS WORKS is a 12 pot furnace and 6 ton green tank, with all tools, material and appliances for flasks, bottles and prescription ware. The only plant south of the Ohio River and controls the Southern trade.

Sale made by authority of the stockholders of the company, at last annual meeting, and the plants will be sold without regard to cost or value; the object being to have them operated in the city where the Company's real estate is located. Description and inventory on application.

C. A. NORTON, General Manager,
GEORGIA-ALABAMA INVESTMENT AND DEVELOPMENT COMPANY,
Tallapoosa, Georgia.

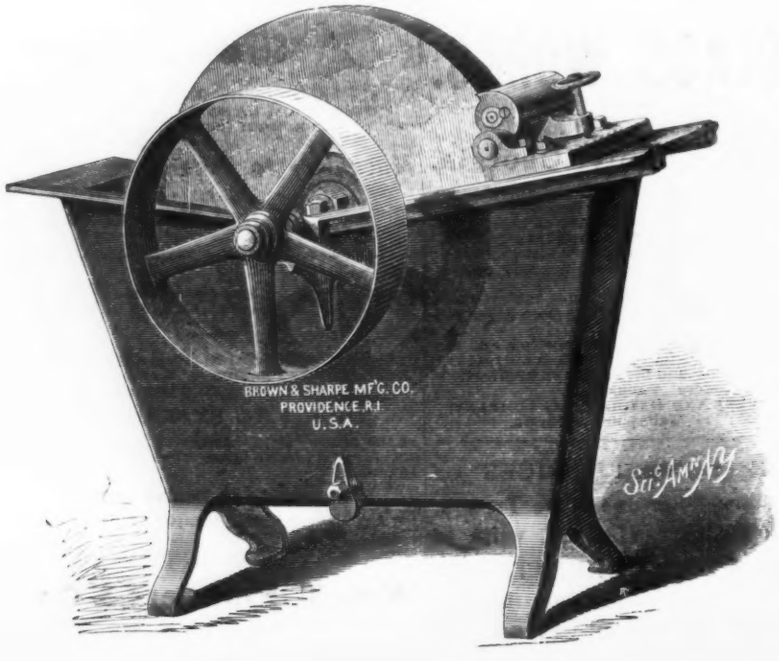
BROWN & SHARPE MFG. CO.,

PROVIDENCE, R. I.

IMPROVED GRINDSTONE TROUGH AND TRUING DEVICE.



The frame is substantial. The bearings in the shaft are self-lubricating and the truing device works automatically when applied to the stone.

The bearings for the roll are bushed, and when worn the bushings can easily be replaced.

The machines and tools described in catalogue are usually kept in stock.

SECOND-HAND TOOLS

For Sale at low Figures.

1 Heavy Shear, to cut 1 in. x 6 in. Bement.
1 " Punch, to punch 1 in. x 1 in Bement.

The Lodge and Davis Machine Tool Co.,
Cincinnati, Ohio.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

Under a decree of the Circuit Court for Cecil County, Maryland, the undersigned, Receiver of The George P. Whitaker Company, will offer at public sale at the Court House in Elkton, Maryland, on Tuesday, May 24, 1892 at 11 A.M., all the

REAL ESTATE

of The George P. Whitaker Company in Cecil County, and near Baltimore City, Maryland, with improvements thereon, and about 8050 acres of land in Cecil County, embracing two fine farms of 400 acres, the balance well set in good chestnut and oak timber.

The improvements are one new modern Charcoal Blast Furnace, 10 x 16 feet, with all the necessary attachments and appurtenances; also one Hillside Charcoal Blast Furnace of old style.

Also a new and complete Charcoal Bloomery of twelve fires, with all the necessary appliances and appurtenances, in first-class condition, and now in operation.

The property is on lines of both the Baltimore & Ohio and the Philadelphia, Wilmington & Baltimore Railroads, with connection by switch to the latter road, and of easy access to the former. It has a first-class and complete plant known as Principio Furnace, long the seat of iron productions and widely known for the superior quality of its production.

Also 210 acres of land lying near the city limits of Baltimore, on line of old Annapolis road, underlaid with the celebrated Spilsmore Hone ore, widely known for its superior quality of Charcoal car wheels.

There are no liens or incumbrances on the property. Terms easy. The attention of capitalists is invited to this sale. For further particulars apply to John S. Wirt, Receiver of the George P. Whitaker Company, Elkton, Maryland.

At the same time and place and upon the same terms will be sold 282½ acres of Iron Ore property, known as "Iron Hill," situated in New Castle County, Delaware, and near the village of Newark, Delaware, and convenient to the railroad station of that name on the Philadelphia, Wilmington & Baltimore Railroad. This property has for many years been worked as an iron ore mine, and is underlaid with an almost inexhaustible supply of good Hematite iron ore.

JOHN S. WIRT,
Trustee.

FOR SALE.

STANHOPE FURNACE, with 138 acres of farm land, houses, &c. A large creek of pure water runs through the place. On line of S. & T. R. R. three miles from Pinegrove, Pa. For further particulars, address

ANDREW KING,
Ripley, Ohio.

Wheel, Axle and Iron Manufacturers and Capitalists.

Your attention is called to the following.

Two very valuable patents touching wheel and axle manufacturers and the iron trade are now offered for sale. One is an improvement in axle arms consisting of four concave depressions so arranged in the arm that they lessen friction and automatically lubricate it (the arm). The other is one of the most valuable patents ever issued. It gives to the owner a monopoly over a certain branch of business that has not been equaled in this century. This patent consists of a hub made from malleable iron, steel or other suitable metal, so made that in connection with an axle arm of suitable dimensions, &c., it does away with the projecting hubs of wheels that are now so common and annoying. It is no idle fancy to think and say that when this hub is introduced all others will disappear. Wheels made with this hub will be the nearest approach to perfection ever made in that line. To secure control of this patent is to secure a fortune. These patents will be disposed of singly or together, they will be sold outright or stock taken in a company organized for their manufacture. For further particulars address

PETER McMENAMIN,
273 Fifth St., Jersey City, N. J.

FOR SALE CHEAP.

TIRE UPSETTER.

LINE MOVEMENT DOES THE WORK.

SIMPLE. DURABLE. CHEAP.

Send for Price.

The method of operating this machine is simple. One downward motion of the lever throws the shoe cam on the tire and upsets the tire ¼ inch. The raising of the lever half way and making another downward motion upsets the tire another ¼ inch, which operation may be repeated as often as necessary. The back notch on the lever is intended for use on heavy tires and will, it is stated, do the work as easily as on light tires.

POULTRY NETTING.

AMERICAN TRADE G&B MARK. SUPERLATIVE.

In former years we have been unable to supply the demand for Poultry Netting, but having increased our facilities and accumulated a large stock, we can now make

PROMPT SHIPMENTS FROM EITHER

NEW YORK. CHICAGO OR GEORGETOWN, CONN.,

which will be appreciated by dealers when they consider that the Netting Season is limited to a short period and that they must have the goods when required or lose sales.

In sending us orders all can rely on getting first quality Netting, full length, width, full weight and reliable in mesh. All our two (2) inch mesh, No. 18 and 19, is made with THREE STRAND ROPE SELVAGES, which makes it much stronger and better than any other brand made with two wire selvages. We carry a complete assortment of Netting of all meshes from ½ to 3 inch. We also make two leading kinds of

STEEL WIRE FENCING,

"Cottage" Lawn and Garden Fencing for residence property, and the World's Web Fencing for farms, railroads, cemeteries, &c. GATES AND FENCING TOOLS.

Ours is the only complete line of this class of goods made by one concern in the country.

☞ To insure yourself against inferior Netting and annoying delays, send us your orders. Do not be deceived when informed that there is no netting to be had promptly. ☜

WE GUARANTEE PROMPT SHIPMENTS OF ALL REGULAR SIZES.

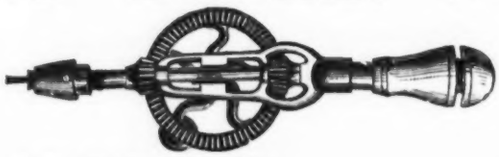
HAND DRILL, NO. 1.



No. 1, Single Gear, hollow handle, nickel-plated.....per doz., $15 00
" 1 B, Double Gear, same chuck..... " 18.00

Six drill points with each of the above drill stocks.

These drill stocks are made of malleable iron, with steel spindles and rosewood head and handle. The jaws are of forged steel, and will hold perfectly any sized drills named below. They are the only drill chucks in use which will hold Morse Twist Drills from 1-32 to ⅛ inch.

HAND DRILL NO. 2.

The Chuck of this Drill Stock is the same style as the No. 1, but it will hold ¼ inch drills and all smaller sizes. It has cut gears, is heavily nickel-plated, with rosewood head and handle. The head is hollow and contains six drill points. It is a tool much in demand.

Price.....per dozen, $30.00

FOR DEALERS!

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

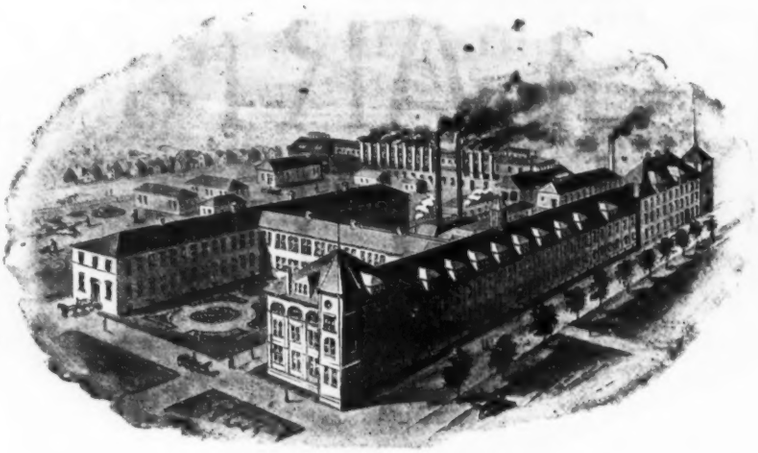
THE NATIONAL CASH REGISTER CO.,

DAYTON, OHIO, U. S. A.

Devoted exclusively to the manufacture of

Cash and Autographic Registers.



THE NATIONAL FACTORY.

Capital invested, $1,000,000.00

81 Patents.

Employes in factory, 857

A complete Register is made every 12 minutes.

We make 34 different kinds of Registers.

The No. 33 Is operated by writing the sale through an opening on a continuous strip of paper. This Register is provided with

a Combination Lock. While the cash drawer is open, the paper cannot be moved; making it necessary to close the drawer after each sale.

We guarantee this Register to be more durable and more effective than any other Autographic Register of this class, and all we ask for it is **$20.**

The No. 69 Is operated by small steel balls, which are put into a large hopper on the inside of the Register. The pressing of a key allows the ball to drop down into a V shaped conduit, which is arranged in such a manner that the proprietor can see at a glance the amount that has been registered during the day.

This Register is guaranteed to be equal to any similar Register of its class, and all we ask for it is **$25.**

Before ordering any Autographic Register, see the NATIONAL.

We Make all Kinds of Registers

AT THE FOLLOWING PRICES:

$15, $20, $25, $30, $50, $65, $75, $100, $125, $150, $175, $200, $225 AND $250.

40,000 NATIONAL REGISTERS IN USE.

TO USERS OF OTHER MAKES OF CASH REGISTERS: If you have an old Register which you desire to exchange for a new one, we will make you a *liberal allowance* for it.

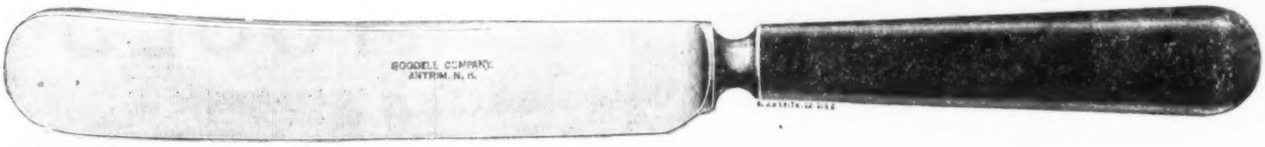
GOODELL COMPANY,

ANTRIM, N. H.

TABLE KNIVES and FORKS in Rubber, Celluloid, Bone, Ebony, Cocobolo and Iron from the finest grade to the cheapest.

CARVERS. Our line is sufficient for any ordinary trade and consists of Genuine and Imitation Stag, Rubber, Celluloid, Bone, Ebony and Cocobolo handles in a variety of shapes and sizes. We particularly call attention to the fact that our carvers are made for use and will suit those people who want a carver that will cut.



STEELS. We make steels to match all patterns of carvers, also Butcher Steels, which are not excelled.

BUTCHER KNIVES. Cocobolo and Beech handle, all sizes, various shapes. It is entirely unnecessary to pay exorbitant prices for imported knives. Ours are sold at fair prices and are warranted equal in quality to any in the world.

Also Shoe Knives, Boning and Butter Knives, Butter Spades, Bread, Budding, Broom Knives, Can Openers, Coring and Trimming Knives, Cigar and Cheese Knives, Hunting, Kitchen, Putty, Scraping, Sheath, Sticking and Skinning Knives.

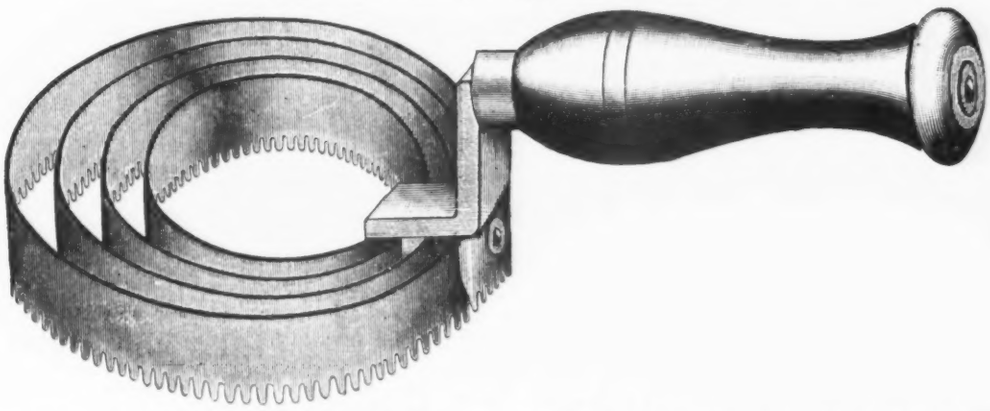
SPRING CURRY COMB.

Endorsed by the civilized world as "The only perfect curry comb."
Worth many times its cost.



Its leading position is impregnable; it positively has no weak points, either practically, mechanically or legally. Patented in the U. S., July 16, 1889; also in ten foreign countries. Endorsed and used by the United States Army. Sold by leading jobbers; bought on sight by nearly every one using curry combs, because it is the only one made from a clock spring, combining strength with flexibility, and a touch as gentle as a woman's hand, but say! how it gets there!!

SPRING CURRY COMB CO.

Purchasers of the Glue Business of The Le Page Co.

Gloucester, Mass. New York City.

JOHN J. TOWER, of Tower & Lyon, New York, President. C. E. HUBBARD, Boston Treasurer.

BLUE IMPROVED PROCESS LABEL

The Improved Process Glue Co., having purchased from The Le Page Co., all its patent rights, formulas, glue stock and material, and having secured control of its glue factory, machinery, etc., will continue the manufacture of Liquid Fish Glues in all the various grades heretofore offered by The Le Page Co., under the personal supervision of Mr. Wm. N. Le Page, and under the Improved Process Patent issued October 26th, 1886. As is well known, the Improved Process by which these goods are made assures the highest strength with thorough uniformity as to quality, consistency and color. We call special attention to our **Improved Process Family Glues,** neatly put up for family use, and also to our **Improved Process Carriage Glue for wood-work,** put up in every variety of size and style. This Carriage Glue is undoubtedly the strongest and best glue for every variety of cabinet and wood-work, and has earned its high reputation. All our canned glues are put up with the **new patent cap** or fastening, patented January 22d, 1889, which has proved a great convenience and success. Our glues will be readily identified by our characteristic **Blue Label,** and the Trade-Mark shown at the head of this page. Send for Price-List. Messrs. Tower & Lyon will have charge of our New York office. Very truly yours,

THE IMPROVED PROCESS GLUE CO., New York Office, 95 Chambers St.

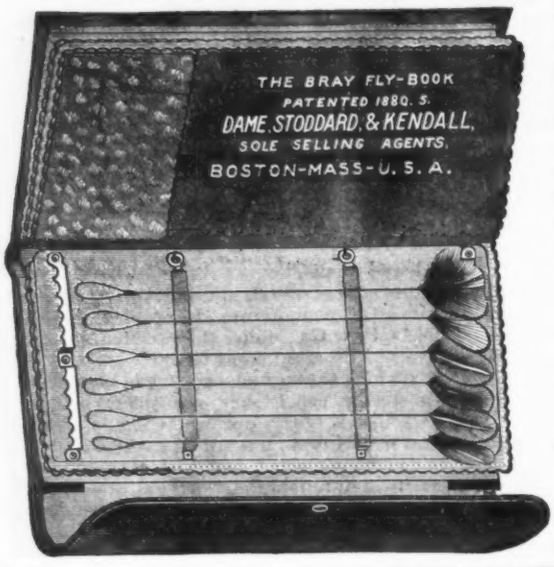
THE BRAY FLY BOOK.



THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

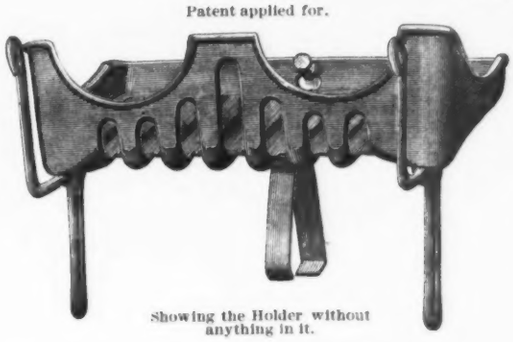
THE CINCINNATI MFG. CO., CIN., O.

THERE ARE FIFTEEN MILLION OF THE

"DIAMOND" COMBINED SOAP AND SCRUB-BRUSH HOLDERS

—WANTED.—

Patent applied for.



Showing the Holder without anything in it.

THERE are that many homes in the United States, and in every one, one or more will be wanted, as soon as they are shown. There has never before been anything which does the work of this on the market. The idea is entirely new

It is hardly necessary to refer to the fact that it will soon pay for itself many times over, as it does not take long for a cake of soap to dissolve, or the back and bristles of a brush to be loosened, when left in the water in a bucket, as is invariably done when scrubbing.

Size of Soap Holder, 5x3¼ inches. Brush Bracket on rear of Soap Holder is so made as to hold either the thickest or thinnest of brushes. Back legs are two wires doubled as shown, which clasp inside of bucket, while the inside arm of double spring, in front, firmly clasps the outside of bucket, and allows for varying thickness of same. The outside arm of spring serves as the third leg of the holder when sitting down. The little projections on each side of the spring retain the holder in proper position when hanging. The shape of the back and sides of Soap Holder is such that soap can be readily and easily grasped under all circumstances. When clasped on a bucket the front of the holder is higher than the back, thus draining all moisture which may be on the soap when placed in the Holder back into the bucket. The Brush Holder is right over the bucket, so that all water from it drips into the bucket. The wires of the Brush Holder, being single wires, pass between the rows of bristles, thus compressing none of them. The Soap Holder is made of iron, very light; the complete holder weighing less than one-half pound. **The whole forms a perfect combination, and one of the most useful household articles ever put on the market** Packed in cases containing one-half gross each.

Showing the Holder clasping top of bucket, with both soap and scrub-brush in it.

The STORM MANUFACTURING CO.,

NEWARK, N, J., April, 1892.

TO THE HARDWARE STORES
EVERYWHERE.

Gentlemen:

Our story is a short one, please read it. We are the largest manufacturers of Dumb Waiters and Hand Elevators in this country. Our goods are made specially to be sold by the hardware trade.

Thousands of stores are posted on our goods and are selling them. Are you?

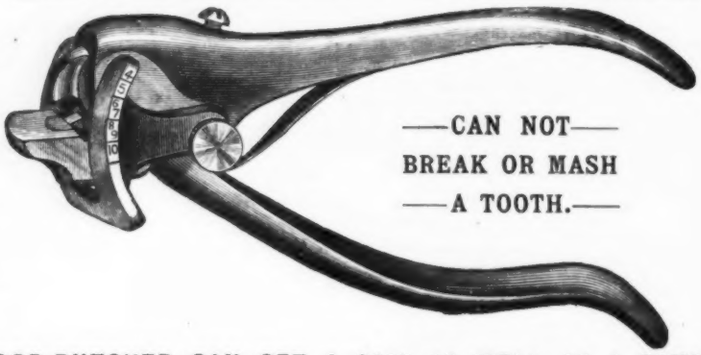
If not write to us, or John H. Graham & Co., 113 Chambers St., New York, and we will post you up. Anyway send for our new catalogue, we think it will interest you.

Very truly yours,
THE STORM MFG. CO.

JOHN H. GRAHAM & CO., 113 CHAMBERS STREET, New York Agents.

YOU CAN MAKE NO MISTAKE!

LLOYD ACME



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

SAW SET.

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

METROPOLITAN.

This differs from our other wood frame wringers of medium price in having malleable iron swinging clamps of a strong and improved pattern, that swing under the wringer, and a folding apron, allowing the machine to be closely packed for shipment, and it is preferred by many because of the small space it occupies in storage. It is a handsome, well proportioned machine, of hard maple frame, the wood being selected, free from defects and blemishes. Two top thumbscrews, metal journal boxes and oil cups combined, double gears, etc.

Furnished in natural wood or cherry stain without extra charge.

ELECTRICITY AND MAGNETISM. A short text-book, with 165 explanatory engravings and diagrams. 240 pages, 12mo. By T. DUNMAN. **40 Cents.** Sent, prepaid, on receipt of price. by DAVID WILLIAMS. Publisher and Book seller, 96-102 Reade Street, New York.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

The Sun Stamping Co., Kalamazoo, Mich.

GENTLEMEN:—Yours of the 11th, rec'd and contents noted. In reply, say, that The Morgan Broilers we sold have given so far as we have learned, good satisfaction—*not any complaint.* We have been using one in our house for more than a year, and we could not be induced to part with it for any reasonable consideration. We find it **DOES** the work as represented, when instructions are followed. It **DOES** make meat juicy and tender, and for the purposes for which it is intended, we believe it to be the most economical piece of furniture we have in the house. * * *

Very Respectfully,
K. FITCH & CO.

Perhaps there is a gentle hint here for other dealers. The "moral" would be, order a sample lot and be convinced. Unless there is gain in the transaction for you, there is none for us. Once a customer—"always."

The Morgan specialties in tin and sheet metal are manufactured solely by

Discount, — per cent.

SOLE MANUFACTURERS,

SIDNEY SHEPARD & CO.,

BUFFALO, N. Y.

A DIFFICULT PROCESS MADE EASY

THE BUFFALO STEAM EGG POACHER

POACHES EGGS BY STEAM.

WHEN READY FOR THE TABLE THE EGGS ARE OF UNIFORM SHAPE AND INVITING APPEARANCE.

MAY BE TRANSFERRED TO TOAST OR PLATE WITHOUT DANGER OF BREAKING.

Mrs. Gen. Lew Wallace Says:

"Lifting the cover discloses the delicate morsel, the yolk gleaming in soft color through a cloud of transparent whiteness. Have ready the buttered toast; the eggs slip each from its own little cup easily as from the parent shell: a dish fit to set before a king. Easy to have a delicious luncheon with the aid of the bright utensil which makes cooking so easy, it seems to act with its own intelligence. In the sea of trouble awaiting the young housekeeper pushing out into unknown depths, the Buffalo Steam Egg Poacher will be found a sure thing to rest upon when all else fails."

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

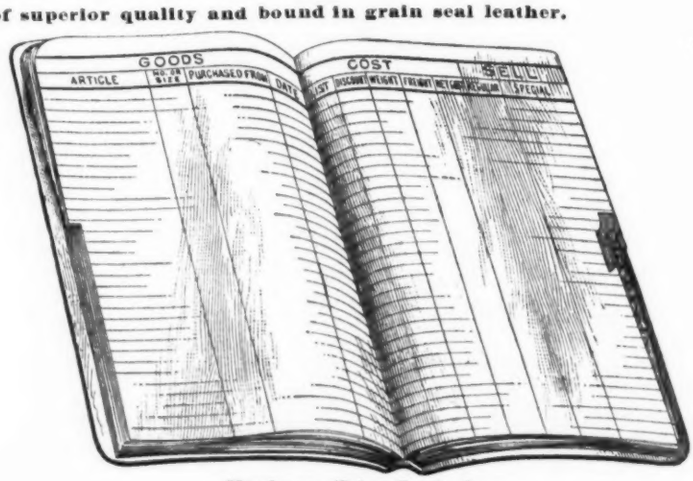
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

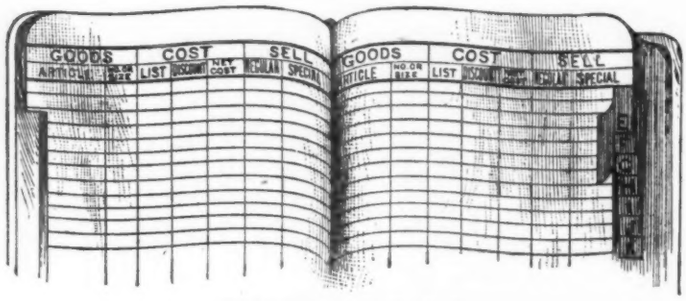
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

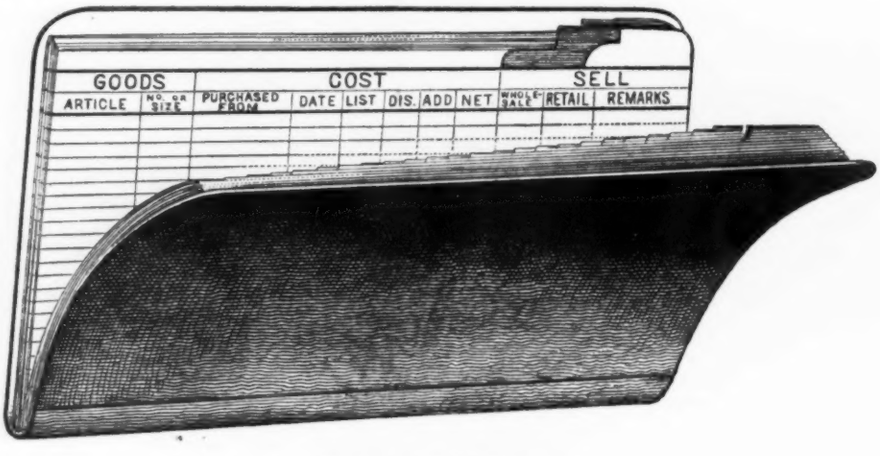
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

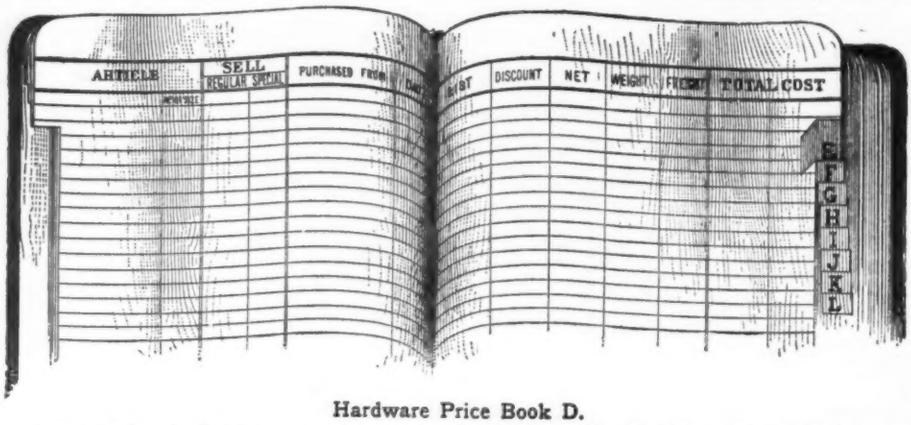
Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, its number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction. Size 5¼ x 8 in.; grain seal leather.

FOUR EDITIONS.

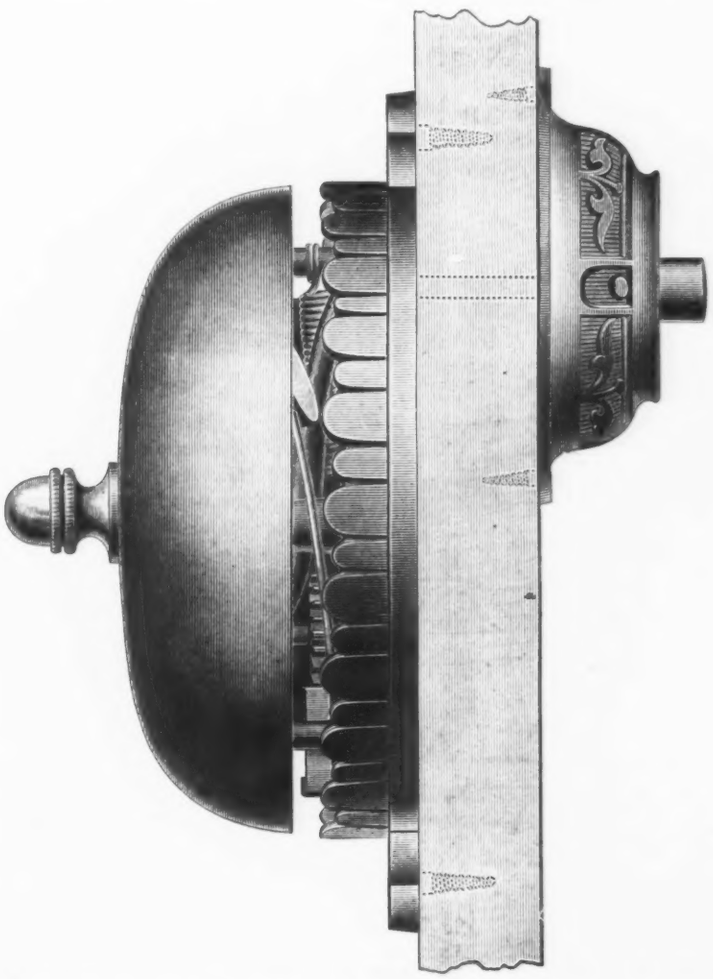
D, 200 pages,	$2.00
D F, 200 pages, with flap,	2.50
D 2, 400 pages.	$3.00
D F 2, 400 pages, with flap,	3.50

Sent, post-paid, on receipt of price by **DAVID WILLIAMS Publisher, 96-102 Reade St., New York.**

SARGENT & CO.'S

Patent Electric-Ring Door Bells.

NO BATTERY, SELF-WINDING, PUSH OR PULL.



Full Size Cut showing No. 62½ Bell Mounted with Round Push Button.

In this Door Bell we produce the effect of an Electric Bell without the expense and annoyance of the battery and other electrical contrivances. With this new patent the merchant may supply his customers with an Electric-Ring Bell, suitable for any of the many places that a Bell may be required, and one which may be used either with a Push Button or a Bell Pull. The sound given is exactly the same as a powerful electric bell. It is self-acting, self-winding, and as it is always ready for use, it requires no attention after it is set in place.

Packed with Bronzed and Bronze Metal Push Buttons, complete with Screws.

ROANOKE, VA.

Law without Lawyers.

A Compendium of Business and Domestic Law for Popular Use.

By H. B. COREY,

Member of the New York Bar,

PRICE, $1,00. Post-paid.

A simple, clear and accurate presentation of the general laws, and of the laws of the several States relating to the rights of property, contracts, debts, partnerships, bankruptcy insurance, corporations, marriage, divorce, &c., &c., with which are included correct copies of all legal instruments and forms, such as notes, deeds, mortgages, leases, wills, &c., and a dictionary of legal words and phrases.

FOR SALE BY DAVID WILLIAMS
Publisher and Bookseller,
96-102 Reade St., New York.

We are the original makers of steel covered hangers and all others are imitations. Beware of infringements, as we shall protect our rights.

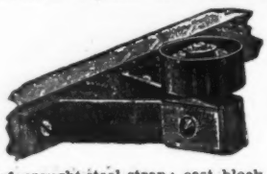
In our Steel Covered Hangers we have all the desirable features of the Best Hangers in the market, and with that we combine the cover for wheels SO NO ICE OR SNOW can reach the wheels, and making this cover as we do, we stiffen it so it is the strongest Hanger in the market, and we believe it is just perfect. Would be glad to have you try a small order and satisfy yourself.

Double-Braced  Steel Rail.

PATENTED JUNE 12, 1888.

This rail being double-braced and double-riveted is the strongest rail in the market. Being braced both ways it will not sag. The joint is made so it is perfectly solid. It comes complete and ready for use, requiring only screws and screw driver for any man or boy to put it up in short order. It can be used for any grooved wheel Hanger, and a heavy door will not make it spring or tremble. Guaranteed to hold a door weighing 2,000 pounds, and used in connection with our Anti-Friction Hanger will work perfectly on large or small doors.

Cronk's Adjustable Stay Roller.



Made of wrought steel strap; cast block with slot adjusted by loosening bolt.

Cronk's Inside Adjustable Stay.

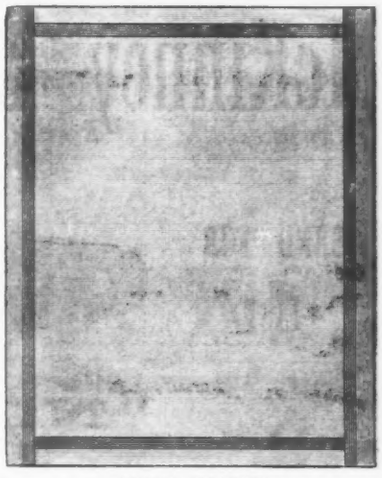
Is cheap, simple and durable, and much better than a cleat nailed on the floor for this avoids all friction and leaves no place for dirt to accumulate. $2.00 per doz. No inside door can be properly hung without this stay.

Pacific Coast Agents, CHAS. L. PIERCE & CO., San Francisco, Cal.

SCREEN DOORS AND WINDOWS

MADE TO ORDER, AT MODERATE PRICES.

Of course you sell a great many adjustable window screens and stock sizes of screen doors, but did you never have a customer say: "Those adjustable screens are all very well in their way, but I think I would prefer to have screens made up to fit my doors and windows. I own my house, and it seems to me that the made up screens look better, are more convenient and give more air. The trouble is that it costs so much to get anything decent."



ALIKE BOTH SIDES.

Instead of backing down, just tell him: "All right, Mr. Jones, we have just what you want. The Phillips people, who make the most reliable line of adjustable screens, have fixed up this season to make screens to order as well. They have very neat patterns and do nice work. Here are samples of the woods used, illustrations of the screens and net prices, so that we can tell just what they will cost and see how they look."

"Hits you just right, eh! Very reasonable, indeed." "I'll have one of the boys go up in the morning and measure the doors and windows. Our folks will have the screens around in a few days and we'll put them up for you in good shape."

The new folders showing these goods are now ready. We would be pleased to mail you a copy, with discounts, etc.
Have you seen our complete catalogue of screen goods?

THE SMITH & EGGE MFG. CO.

BRIDGEPORT, CONN.

THE GIANT PAD LOCK.

Centennial Award. "Superior in Every Respect.

This is one of the best selling locks in the market, and affords the dealer a large profit. It is thoroughly and strongly made—of the best material—very handsome in appearance, and every Lock is warranted. Orders solicited.

THE GIANT METAL SASH CHAIN

is a substitute for cord in hanging weights to windows. It is manufactured by us only, and by automatic machinery, patented and owned exclusively by ourselves, and whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent other chain of the same pattern of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "Giant" as a Trade-Mark, as applied to either metal or chain. Trade-Mark Registered April 16, 1878, and October 22, 1878, and our metal is therefore known in the market as "Giant Metal," and our chain as "Giant Metal Sash Chain."

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new. For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.

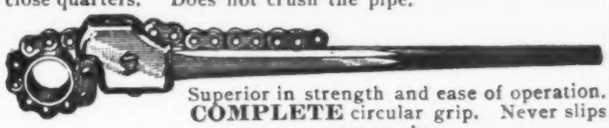
TRIMO PIPE WRENCH,

Forged Steel.

All parts Interchangeable.

Grips firmly without loss of motion, in close quarters. Releases its hold readily. Does not crush the pipe. Causes no trouble

TRIMO CHAIN PIPE WRENCH.



Superior in strength and ease of operation. **COMPLETE** circular grip. Never slips nor crushes.

Here is something new. Have you seen it?

BONNETTE'S ARC LAWN SPRINKLER.

Patented Oct. 20, 1891.

This Sprinkler was invented by a **DRY GOODS MAN** in Bay City, Mich. He noticed that when his neighbors set out their sprinklers, they wet all over the sidewalks as well as the lawns.

On going back and forth to the store he was often forced into the middle of the street to avoid a shower from the sprinkler. Ladies often ruined their dresses from this source.

It set him to thinking. Sprinklers should not be a nuisance. Could one be made that would sprink , if desired, in a half circle? He thought so. He commenced to work and experiment.

That was five years ago. It required lots of patience and there were many disappointmen s, but to-day,

NOTE THE RESULT.

Five good reasons why this is the best sprinkler to buy:

1. It will not clog up.
2. It will sprinkle a circle from 4 to 40 feet in diameter, according to the water pressure.
3. It distributes the water equally over the entire surface, wasting none around the base of the machine.
4. **This is the only machine ever invented that will sprinkle wa er in a half-circle,** thus preventing the wetting of walks while thoroughly sprinkling the lawn.
5. It can be changed from a circle to a half-circle or *vice versa*, in five seconds.

We now claim to have the only perfect sprinkler in existence. It is simple, will not wear out nor clog up. Is well made and handsomely nickled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other. Prices and samples sent upon application.

BONNETTE ARC LAWN SPRINKLER CO., Bay City, Michigan.

IMPROVED

Lawn Mower's Partner,

PAT. MARCH 17, 1891.

The only Practical Grass Carrier in the market. Adjustable to any and all sized mowers. We made big improvements and great reductions in Price.

CACTUS LAWN SPRINKLER.

INDESTRUCTIBLE, BEAUTIFUL, CHEAP.

NO REVOLVING PARTS.

This Sprinkler has no revolving parts to leak or wear out. The openings throughout are equal in area to ⅛ inch, and therefore will pass freely all sand or gritty substance in the water without clogging. It can be moved about the lawn while in operation without turning off the water, and with a low pressure will distribute a perfectly even and beautiful spray 30 feet in diameter; and in addition a light center fountain spray 15 to 18 feet in height. It is recommended as the most durable, beautiful and cheapest Sprinkler in the market and is guaranteed to give entire satisfaction to any purchaser. For sale by all dealers.

Manufactured by **ETTE & HENCER MFG. CO., St. Louis, Mo.**

"RIVAL"

PATENT

Lawn Sprinkler.

Cheapest and Best in Use

The Spray from it covers upward of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod in to the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist,* and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box and finished either plain or nickel plated.

Bradley Hammers

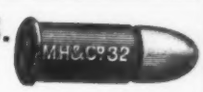
2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.



FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York**

The Art of Selling

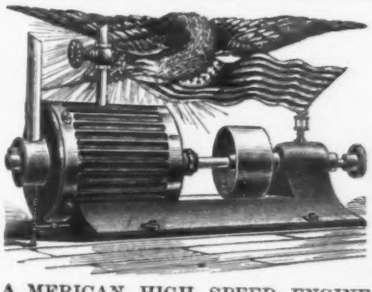
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

VALVES

Of all kinds for automatically controlling Steam Pressure. Manufactured by

MASON REGULATOR CO., Boston, Mass.

STANLEY'S PATENT
HAND-Y LEVEL.

This Level can be used in a horizontal position, or can be brought to perpendicular for ascertaining a plumb, with remarkable ease; as the shallow grooves along the two sides afford an excellent grip on the Tool. This Level will be especially useful in House-framing, Bridge-building and general out-of-door work.

No. 16. Hand-y Plumb and Level, Cherry, Polished and Tipped..... $1.25

Manufactured by THE STANLEY RULE & LEVEL CO. New Britain, Conn.

SOLD BY ALL HARDWARE DEALERS.

WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN. Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

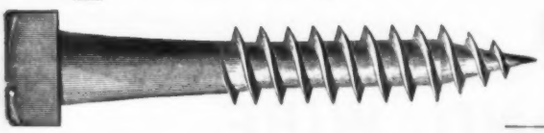
Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.

FLUTED TIRE BOLTS.

SEND FOR SAMPLES.



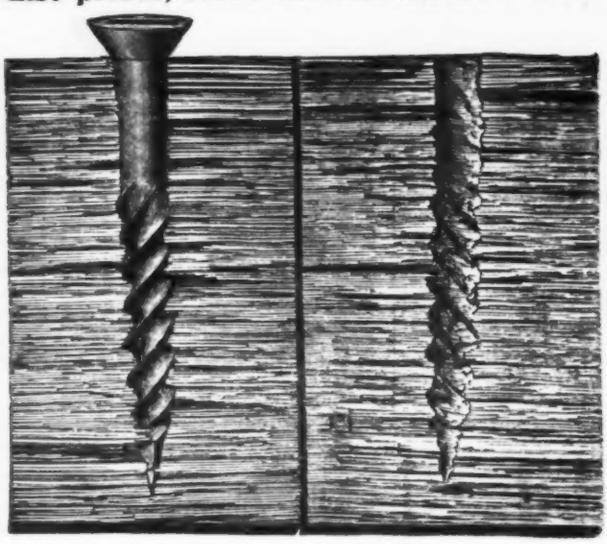
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

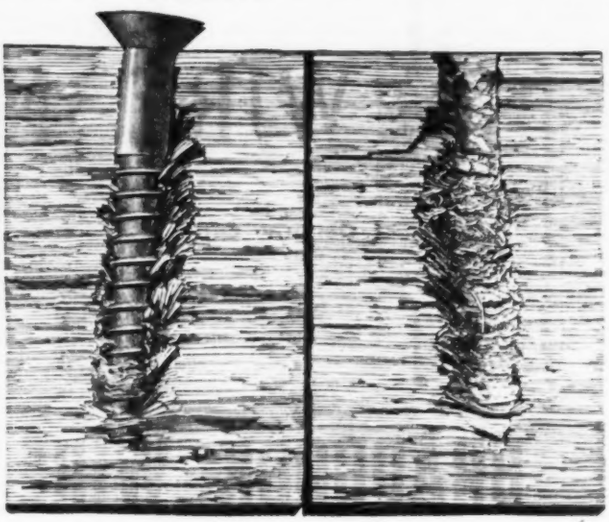
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%.



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

"SPECIAL," FOR LATHE AND PLANER TOOLS. **STEEL** "TITANIC," For Chisels, Taps, Dies, Chilled Roll Turning, Punches, &c., &c.

(The "Trade-Marks" of which are registered in the United States.)

MANUFACTURED ONLY BY

SAMUEL OSBORN & CO., Clyde Steel & Iron Works, Sheffield, Eng.

TAYLOR

BEST YORKSHIRE BAR IRON AND FORGINGS. **IRON** The best material for Stay Bolts, Crank Pins, Piston Rods, Parallel Rods, &c., &c., used by leading Railroads.

SOLE REPRESENTATIVES IN THE UNITED STATES.

B. M. JONES & CO., - Nos. 11 and 13 Oliver Street, Boston.

No. 143 LIBERTY STREET, NEW YORK.

CRESCENT STEEL

ESTABLISHED 1865 * INCORPORATED 1889.

CRESCENT STEEL CO.

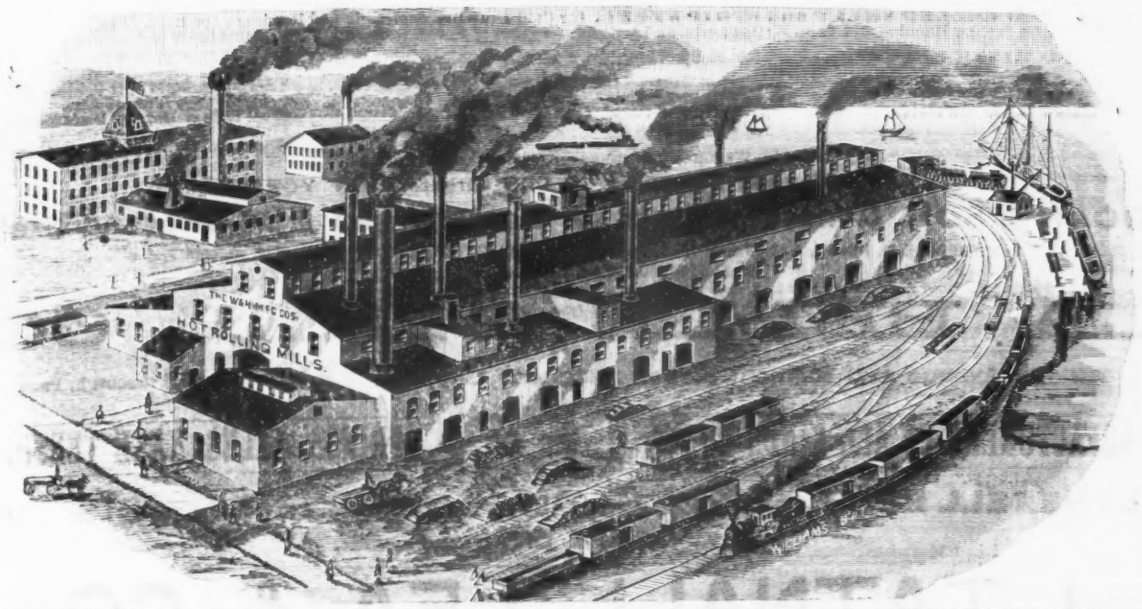
480 PEARL ST. NEW YORK PITTSBURGH, PA. 64 & 66 S. CLINTON ST. CHICAGO.

THE WILMOT & HOBBS M'F'G CO.

Largest Makers of Cold Rolled Sheet Steel in the World.

"SOFT" AND "EXTRA SOFT"

HOT ROLLED STEEL.



Having recently greatly increased our output by the purchase of the large plant of the Bridgeport Rolling Mill Co., shown in the above illustration,

WE ESPECIALLY SOLICIT ORDERS FOR

HOT ROLLED STRIP, PLATE AND BAR STEEL,

Also Special Shapes Rolled to Order,

and are prepared to make

PROMPT DELIVERIES AND LOW PRICES.

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

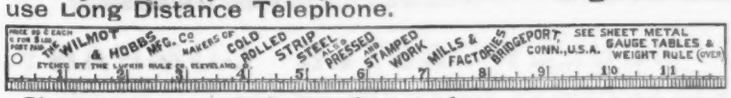
COLD ROLLING MILL.

UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, $\frac{1}{2}$ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**

BRIDGEPORT, - - - - - CONN.

1¼ HOURS' RIDE FROM GRAND CENTRAL DEPOT, NEW YORK CITY, VIA. N. Y., N. H. & H. R. R.

ESTABLISHED IN 1848. **SINGER, NIMICK & CO., Ltd.** PITTSBURGH, PA.

—MANUFACTURERS OF ALL KINDS OF—

Hammered and Rolled STEEL. Warranted Equal to any Produced.

HIGH GRADE SPECIAL Crucible Tool Cast Steel, for all purposes requiring the **very finest** quality.

SINGER'S ANNEALED EXTRA Crucible Tool Cast Steel, for Dies, Cutters, Surgical Instruments, Forceps, and all other purposes requiring an **extra fine** quality.

BEST Crucible Tool Cast Steel, for all purposes requiring steel of **Standard** quality, such as Turning Tools, Taps, Dies, Drills, Punches, Shear Knives, Cold Chisels, or Edge and Machinists' Tools generally, and for Mining and Quarrying purposes.

SAW STEEL, for Circular, Mulay, Mill, Gang, Drag, Pit and Cross-Cut Saws.

HOT ROLLED SHEET STEEL, for Springs, Billet Web and Hand Saws, Nicker Saws, Pocket Knives, Blades and Backs Drawing and Stamping Cold, &c., &c.

BRIGHT COLD ROLLED SHEET and STRIP STEEL, for Cold Drawing, Stamping and Bending; for Bells, Cups, Ferrules, Springs, Keys, Chains, Sewing Machine and Type-Writer parts, and to take the place of Sheet Brass, all of unequaled finish and accuracy of gauge.

ROUND MACHINERY STEEL, for Shafting, Rollers, Spindles, &c., &c.

Blast Furnace Construction

A SPECIALTY.

Sole Agents for

MASSICK'S & CROOKE'S PATENT

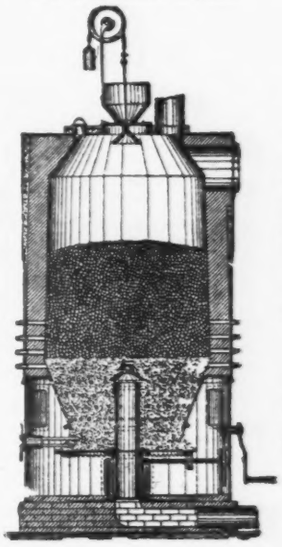
Fire Brick Stoves,

Designs and Estimates for the construction of Blast Furnace Work, and for all kinds of Hot Blast Fire Brick or Pipe Stoves; and all other kinds of Brick Work pertaining to Steel Plants, Iron, Brick or Wooden Buildings, all kinds of Iron Construction in general.

☞ ***We propose to put into successful operation all the plants we design and contract for.***

PATENTED MARCH 19TH, 1889.

The Taylor Revolving



Bottom Gas Producer.

The best Producer for either Bituminous or Anthracite Coal or Lignite; absolutely continous in operation, as the fire is cleaned without stopping the flow of gas. Less labor required and less waste than in any other producer. Producer Gas for firing Lime, Brick and Pottery Kilns, Sugar House Char Kilns, Boilers, etc., etc.; also applicable to all regenerative furnaces. For illustrated descriptive pamphlet and all particulars address

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*
ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d St., Philad'a.

PATENT PNEUMATIC HOIST.

With this power hoist the lifting requires but the manipulation of an easily operated valve, while the speed may be as high as desired. When these are used no manual labor is required. The power is obtained from compressed air, and no delay is experienced from waiting for shop laborers or slowly moving mechanism. One man can operate the neccessary mechanism, and when they are located at Machine Tools, the man in charge of the machine can readily operate the valve, and quickly remove and replace the work. This hoist can be applied to a great variety of uses. Made in sizes from 3 in. to 8 in., diameter of Cylinder. Circulars and Prices on application.

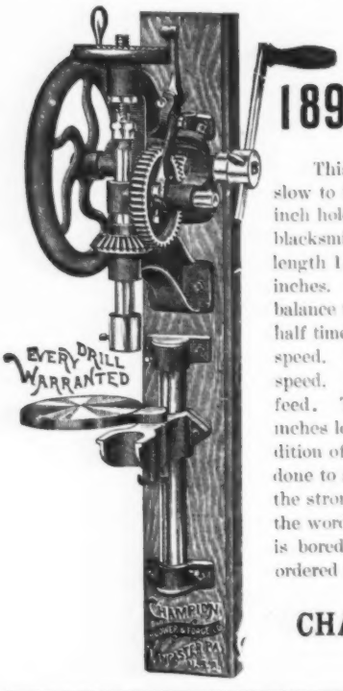
AMERICAN FOUNDRY PRACTICE

Treating of Loam, Dry Sand and Green Sand Molding, and containing a Practical Treatise upon the Management of Cupolas and the Melting of Iron. By THOMAS D. WEST. Price, $2.50. Sent, post paid, on receipt of price, by DAVID WILLIAMS, Publisher and Bookseller 96-102 Reade St., New York.

THE WORLD'S CHAMPION



New Upright Self Feed

1891 Pattern $10 Post Drill.

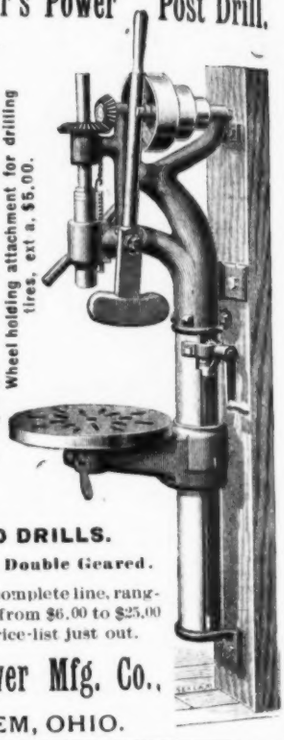
This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from $\frac{1}{8}$ to $1\frac{1}{4}$ inch hole, and to center of $14\frac{1}{2}$-inch circle, designed for general blacksmith work. The diameter of the spindle is $1\frac{1}{8}$ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take $\frac{1}{2}$-inch straight shank drills, but if specially ordered will be bored to take in $\frac{5}{8}$ or 41-64, without extra charge.

CHAMPION BLOWER & FORGE CO.

LANCASTER, PA., U.A.S.

Silver's Power Post Drill.

FIG. 727.



Has CUT GEARS, and is a thoroughly first-class tool in all respects. Dia. Column, 4½ in.; Dia. Spindle, 1⅝ in., and bored No. 2 Morse Taper; Vertical Travel, 6 in.; Drills to centre 19 in. circle.

Weight, 325 lbs.; Price, $60.00.

Wheel holding attachment for drilling tires, ext a, $5.00.

HAND DRILLS.

Single and Double Geared.

Large and complete line, ranging in price from $6.00 to $25.00 list. New price-list just out.

Langbein's New and Splendid Book on the Electro-Deposition of Metals.

A COMPLETE TREATISE ON THE

Electro-Deposition of Metals.

Comprising Electro-Plating and Galvanoplastic Operations, the Deposition of Metals by the Contact and Immersion Processes, the Coloring of Metals, the Methods of Grinding and Polishing, as well as descriptions of the Electric Elements, Dynamo-Electric Machines, Thermopiles and of the Materials and Processes used in every department of the Art. Translated from the German of Dr. George Langbein, with additions by William T. Brannt, Editor of the "Technico-Chemical Receipt Book." Illustrated by 125 Engravings. In one volume, 8vo, 404 pages. Price.....**$4.00**

Abstract of Contents.

I. GENERAL HISTORICAL PART. CHAPTER HISTORICAL REVIEW OF ELECTRO-METALLURGY.

II. THEORETICAL PART. CHAPTER II. MAGNETISM AND ELECTRICITY. I. Magnetism. II. Electricity; Electro-Magnetism; Induction; Chemical Actions of the Electrical Current—Electrolysis.

III. SOURCES OF CURRENT. CHAPTER III. GALVANIC ELEMENTS; THERMO-PILES; MAGNETO AND DYNAMO-ELECTRIC MACHINES.

IV. PRACTICAL PART. CHAPTER IV. ARRANGEMENT OF ELECTRO-PLATING ESTABLISHMENTS IN GENERAL; ELECTRO-PLATING ARRANGEMENTS IN PARTICULAR. V. TREATMENT OF THE METALLIC ARTICLES. (a) Mechanical Treatment; (b) Chemical Treatment. VI. PROCESSES OF ELECTRO-DEPOSITION; REDUCTION OF METALS WITHOUT A BATTERY (Electro-Deposition by Contact). VII. DEPOSITION OF NICKEL AND COBALT. 1. Nickeling; 2. Cobalting. VIII. DEPOSITION OF COPPER, BRASS AND BRONZE. 1. Coppering; 2. Brassing (Cuivrepoli Deposit); 3. Bronzing. IX DEPOSITION OF SILVER. X. DEPOSITION OF GOLD. XI. DEPOSITION OF PLATINUM AND PALLADIUM 1. Deposition of Platinum. 2. Deposition of Palladium. XII. DEPOSITION OF TIN, ZINC, LEAD AND IRON. 1. Deposition of Tin; 2. Deposition of Zinc; 3. Deposition of Lead; 4. Deposition of Iron (Steeling). XIII. DEPOSITION OF ANTIMONY, ARSENIC AND ALUMINIUM. 1. Deposition of Antimony. 2. Deposition of Arsenic; 3. Deposition of Aluminium; XIV GALVANOPLASTY (Reproduction). 1. Galvanoplastic Deposition in the Cell Apparatus; 2. Galvanoplastic Deposition by the Battery and Dynamo Machines. XV. COLORING, PATINIZING, OXIDIZING, ETC., OF METALS, LACQUERING. XVI APPARATUS AND INSTRUMENTS. XVII. HYGIENIC RULES FOR THE WORKSHOP XVIII. CHEMICAL PRODUCTS USED IN THE ELECTRO-PLATING ART. XIX. USEFUL TABLES. INDEX.

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.
SUCCESSORS TO
MULLIN'S
FLUOR-SPAR AND LEAD MINING CO.,
57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't afford to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

THE WOODRUFF MFG. CO., Hartford, Conn.

IS THE STOVE PIPE UP,

And was the circumnambient atmosphere of a cerulean tint during the progress of this May day occupation? Has grim visaged war smothered his ruffled front? Then let us talk about **Bonnell's Nubian Iron Enamels,** the best blacks on earth or any place else: made in all grades from cheap dipping and boiler paint to high grade Bicycle, Electric and Railway blacks and every gallon guaranteed to suit the buyer or no pay. If you have been worrying along with ordinary asphaltum then you will appreciate **Nubian.** It's far superior, just as cheap and guaranteed.

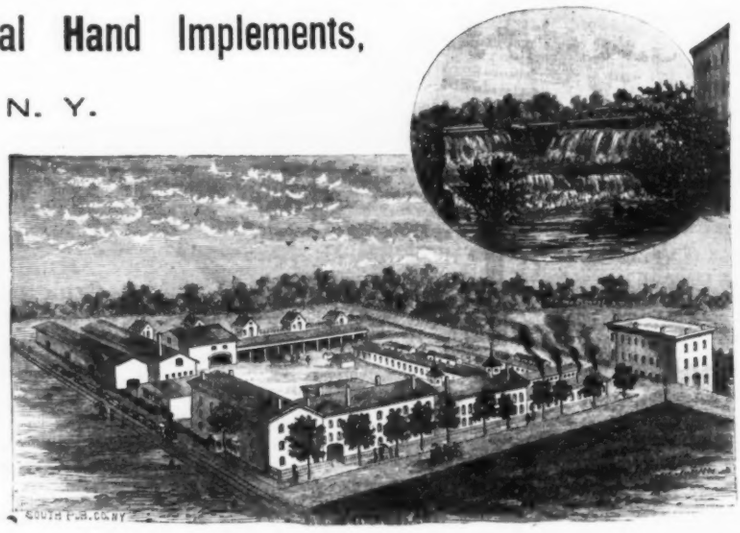
—PLANT FOR SALE.—

AUBURN MANUFACTURING CO.

Manufacturers of Agricultural Hand Implements,

AUBURN N. Y.



The Stockholders of this Company have decided to offer its manufacturing plant and machinery for sale.

The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

It will be offered for about one-third the original cost of construction.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Accurate map of the premises will be furnished on application.

AUBURN MFG. CO.

Two Valuable Manufacturing Plants

—TO BE—

SOLD AT AUCTION

Wednesday, May 18, 1892.

THE TALLAPOOSA FURNACE,

AND THE

PIEDMONT GLASS WORKS.

Located in Tallapoosa, Haralson County, Georgia.

These plants, practically new, costing $150,000 and $60,000 respectively, will be sold without reserve to the highest legitimate bidder agreeing to operate them within one year from date of sale. Terms 1-10 cash, 4-10 in two weeks, and balance to suit purchaser. Both have an established trade, and reason for selling is lack of capital by the owners to operate them intelligently.

THE TALLAPOOSA FURNACE is a 40 ton charcoal iron furnace; been in blast but 9 months; has every modern appliance, and makes excellent car wheel iron, which finds a ready sale at satisfactory prices.

PIEDMONT GLASS WORKS is a 12 pot furnace and 6 ton green tank, with all tools, material and appliances for flasks, bottles and prescription ware. The only plant south of the Ohio River and controls the Southern trade.

Sale made by authority of the stockholders of the company, at last annual meeting, and the plants will be sold without regard to cost or value; the object being to have them operated in the city where the Company's real estate is located. Description and inventory on application.

TO MANUFACTURERS.

South Bethlehem offers to manufacturers seeking locations the best railroad facilities, cheap fuel, plenty of cheap labor and land. The town is at the junction of the Lehigh Valley R. R. and North Pennsylvania R. R., 87 miles from New York and 54 miles from Philadelphia; is within 34 miles of the anthracite coal fields; has fine schools, churches, good water supply, electric light, miles of well made streets and excellent markets. Apply to the

BOARD OF TRADE,
South Bethlehem, Pa.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

RECEIVER'S SALE

of the

Principio Furnace Property

8500

ACRES OF LAND,

With extensive improvements, in Cecil County, and near Baltimore City, Maryland, and in New Castle County, Delaware.

Under a decree of the Circuit Court for Cecil County, Maryland, the undersigned, Receiver of The George P. Whitaker Company, will offer at public sale at the Court House in Elkton, Maryland, on Tuesday, May 24, 1892, at 11 A.M., all the

REAL ESTATE

of The George P. Whitaker Company in Cecil County, and near Baltimore City, Maryland, with improvements thereon, and about 8050 acres of land in Cecil County, embracing two fine farms of 400 acres, the balance well set in good chestnut and oak timber.

The improvements are one new modern Charcoal Blast Furnace, 30 x 60 feet, with all the necessary attachments and appurtenances; also one Hillside Charcoal Blast Furnace of old style.

Also a new and complete Charcoal Bloomery of twelve fires, with all the necessary appliances and appurtenances, in first-class condition, and now in operation.

The property is on lines of both the Baltimore & Ohio and the Philadelphia, Wilmington & Baltimore Railroads, with connection by switch to the latter road, and of easy access to the former. It has a first-class and complete plant known as Principio Furnace, long the seat of iron productions and widely known for the superior quality of its production.

Also 210 acres of land lying near the city limits of Baltimore, on line of old Annapolis road, underlaid with the celebrated Baltimore Hone ore, widely known for its superior quality of Charcoal car wheels.

There are no liens or incumbrances on the property. Terms easy. The attention of capitalists is invited to this sale. For further particulars apply to John S. Wirt, Receiver of the George P. Whitaker Company, Elkton, Maryland.

At the same time and place and upon the same terms will be sold 232½ acres of Iron Ore property, known as "Iron Hill," situated in New Castle County, Delaware, and near the village of Newark, Delaware, and convenient to the railroad station of that name on the Philadelphia, Wilmington & Baltimore Railroad. This property has for many years been worked as an iron ore mine, and is underlaid with an almost inexhaustible supply of good Hematite iron ore.

JOHN S. WIRT,
Trustee.

J. P. WILLIAMS,
Lynchburg, Va.

—: A :—
MANUFACTURING PROPERTY.

Splendidly located in a thriving Western City, lying adjoining main line of prominent railway. Every convenience of receiving and shipping over five railways; favorable freights, and floor space exceeding 100,000 feet. Sufficient extra land for additions. Running full with capacity of 150 H.-P. Would sell the whole with a business well-established for many years, or would form an association with good party for the manufacture of goods adapted more to spring and summer trade, the opposite of present output of fall and winter goods. We consider this an opportunity rarely offered. Would take half interest in a satisfactory connection with agricultural goods or similar class. Good reasons will be given for making this proposition. This party would be pleased to share the management of the business with an equal partner or retire the whole care of it if the association proves satisfactory.

"X. O. F.,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

Wheel, Axle and Iron Manufacturers and Capitalists.

Your attention is called to the following.

Two very valuable patents touching wheel and axle manufacturers and the iron trade are now offered for sale. One is an improvement in axle arms consisting of four concave depressions so arranged in the arm that they lessen friction and automatically lubricate it (the arm). The other is one of the most valuable patents ever issued. It gives to the owner a monopoly over a certain branch of business that has not been equaled in this century. This patent consists of a hub made from malleable iron, steel or other suitable metal, so made that in connection with an axle arm of suitable dimensions, &c., it does away with the projecting hubs of wheels that are now so common and annoying. It is no idle fancy to think and say that when this hub is introduced all others will disappear. Wheels made with this hub will be the nearest approach to perfection ever made in that line. To secure control of this patent is to secure a fortune. These patents will be disposed of singly or together, they will be sold outright or stock taken in a company organized for their manufacture. For further particulars address

PETER McMENAMIN,
273 Fifth St., Jersey City, N. J.

FOR SALE.

STANHOPE FURNACE, with 138 acres of farm land, houses, &c. A large creek of pure water runs through the place. On line of S. & T. R. R. three miles from Pinegrove, Pa. For further particulars, address

F. L. COOCH,
BESSIE C. FOX,
Administrators.
Pottsville, Pa.

TIRE UPSETTER.

ONE MOVEMENT DOES THE WORK.

SIMPLE. DURABLE. CHEAP.

Send for Price.

The method of operating this machine is simple. One downward motion of the lever throws the shoe cam on the tire and upsets the tire ¼ inch. The raising of the lever half way and making another downward motion upsets the tire another ¼ inch, which operation may be repeated as often as necessary. The back notch on the lever is intended for use on heavy tires, and will do the work as easily as on light tires.

SITUATIONS WANTED

Undisplayed Advertisements for Situations Wanted not exceeding fifty words Fifty Cents each insertion. Additional words one cent each.

TOOL-MAKER, first-class, and general machinist accustomed to fine work desires a position: understands hardening and tempering of tools, having had full charge of tool-room of a large shop in Philadelphia; I am steady, sober and industrious; married, age twenty-nine (29), twelve (12) years' experience; can furnish best of references. Address JOHN NAZEL, No. 1813 Taney St., Philadelphia, Pa.

CHEMIST desires a situation with a steel works, blast furnace or ore company; Bessemer works preferred; 28 years old, graduate of a technical school and has had three years' experience. Address "CHEMIST," Box 630, Wheeling, W. Va.

BY A THOROUGH practical rolling mill Manager for iron and steel products; can make high grades of either; can utilize old rails or scrap to advantage; is highly endorsed by late employers and A1 references for ability, sobriety and integrity. Address "V. IRON AND STEEL," P. O. Box 523, Pittsburgh, Pa.

TWO YOUNG Hardware men, through 17 years' experience well acquainted with German, English and domestic goods, wish to represent in Chicago manufacturers and importers of hardware and cutlery. We will sell your goods and do honest work in the World's Fair City, if you can deliver the goods and quote prices. Address "M. & H.," office of *The Iron Age*, 59 Dearborn St., Chicago, Ill.

BY CHEMIST of extended experience, right up in steel working, blast furnace work and products, copper ores and products and assaying. A1 references. Address JOS. E. HAINES, 3108 Linden Square, Philadelphia, Pa.

BY THE ADVERTISER, as Bookkeeper and Correspondent with a manufacturing house or a large hardware dealer; a position where energy and faithful service would be appreciated. Has at present good position with a real estate firm, but the business is not congenial and desires to return to the metal trade again. Has had nearly 16 years' experience as bookkeeper, correspondent, time keeper, shipper and looking after help. Familiar with the tin, brass and copper, sheet metal goods, brass goods and hardware branches. Is considered a good double-entry bookkeeper and fair correspondent. Also has had about 4 years' experience selling goods throughout the United States, Canada and Great Britain. Will accept a position at very low salary first year, providing that if thorough satisfaction is given, a permanent position at fair salary is promised. Can commence an engagement on the 10th of June, or any succeeding month. Locality is no object, will go anywhere in the United States. Advertiser is 28 years of age and is married; can furnish first-class references. Address W. A. LANGFORD, office of *The Iron Age*, 59 Dearborn Street, Chicago, Ill.

BY A MEMBER of the American Society of Mechanical Engineers, as Works Manager or Chief Engineer. 26 years' experience as machinist, draftsman, chief engineer and manager in boilers, engines, gearing, buildings, steel works and general engineering; has successfully designed and operated intricate special machinery; has a good knowledge of electrical power, especially as applied to steel works. Can estimate and contract for, build and start mills from the ground up. Salary moderate. Address "ENGINEER," office of *The Iron Age*, Room 509, Hamilton Building, Pittsburgh, Pa.

BY A THOROUGHLY practical mechanic as Superintendent of Hardware or light machine work. Am familiar with all the details in each department, have had a long experience in handling men, keeping costs, making estimates, &c., on special work. A1 references. Address "DETAILS," office of *The Iron Age*, 96-102 Reade Street, New York.

BY AN ANALYTICAL Chemist who has had ten years' experience in the manufacture of iron and steel, in all of its branches, both acid and basic. References and testimonials of the highest order will be furnished. Address "A CHEMIST," Box 512, office of *The Iron Age*, 96-102 Reade St., N. Y.

TIN PLATES.—To steel manufacturers and others; the advertiser, many years' manager of extensive tin-plate works in South Wales, about to settle in United States, will be glad to negotiate with intending manufacturers of tin-plates or to convert imported black plates into tin or terne plates. Communications to await arrival, to "TIN PLATES," Box 512, office of *The Iron Age*, 96-102 Reade St., New York

BY A THOROUGHLY competent hardware man, a position as traveling salesman; have had 15 years' experience in shelf and heavy hardware; willing to work in any territory; A1 references as to ability, sobriety and energy. Address LOCK BOX 34, office of *The Iron Age*, 96-102 Reade St., New York.

A MECHANICAL ENGINEER (39), with technical education, extensive practical experience, brains and ability, a competent and practical designer seeks engagement in works, office or outside; unusually well up in steam and allied subjects; man of good address, manners and habits; has excellent command of French and Spanish and unexceptionable references. "MECHANICAL," Box 512, office of *The Iron Age*, 96-102 Reade St., N. Y.

BOOKKEEPER A1, fifteen years' experience in large companies, desires position; can furnish very best city references. Address "A.," care Hardware Board of Trade, 4 Warren St., N. Y.

BY AN EXPERIENCED and practical man, position as manager or assistant of open-hearth steel plant, making all grades of steel; 11 years with one firm. Address "MANAGER," office of *The Iron Age*, Room 510, Hamilton Building, Pittsburgh.

BY A THOROUGHLY competent chemist, at a blast furnace or steel works; five years' experience in laboratory and technical education; can calculate blast-furnace burdens and understand practical workings of a furnace; can furnish all references necessary. Address "LABORATORY," Box 55, office of *The Iron Age*, 96-102 Reade St., New York.

BY MECHANICAL ENGINEER who desires to go into practical work, as assistant superintendent of a steel company or as constructing engineer; has had experience as head draftsman with best men in the country and can obtain recommendations from same; also experience in construction work of heavy machinery. Address "A. B. C.," office of *The Iron Age*, 59 Dearborn St., Chicago.

SUPERINTENDENT.—A member of American Society of Mechanical Engineers, who has had 20 years' practical experience as follows: machinist, head draughtsman, erector of steam plants, engineering, estimating, contracting and office work and superintendent of large engine works, is available for responsible position as superintendent of manufacturing establishment. Address "MULLACH," Box 35, office of *The Iron Age*, 96-102 Reade Street, New York.

AN EXPERIENCED MAN wishes a position as foreman in gray or malleable iron foundry; will be pleased to correspond with any parties wishing such a man and will give full information as to ability and knowledge; terms reasonable. Address "REASONABLE," office of *The Iron Age*, 96-102 Reade St., N. Y.

A BRICKLAYER desires a situation to take charge of a Rolling Mill. Has had several years' experience in building and re-building regenerative furnaces and puddling furnaces, and also understands all general repairs around a rolling mill. Reference can be had from past employer. Address J. KERNAN, 5219 Stanton Avenue, 18th Ward, Pittsburgh, Pa.

BY competent Open Hearth Melter, good workman, steady and reliable; can give good references. Address "R. M.," office of *The Iron Age*, 220 S. Fourth St., Philadelphia.

SALESMAN wants line of spoons, pocket cutlery or any other good selling line for hardware trade on commission; parties desiring to be represented in the States of Michigan and Wisconsin; good reference. Address "HARDWARE," 193 Michigan Avenue, Detroit, Mich.

BY A MECHANICAL engineer, position as manager or assistant; would travel some; has had practical training and during last fifteen years occupied positions as designer, superintendent, traveler and manager. Address "P. R. I.," box 1044, Providence, R. I.

AN ACTIVE BUSINESS MAN, with considerable experience in the management of iron and coal companies, desires a position of trust and responsibility; is competent to fill an executive or other office. Address "W. W. W.," office of *The Iron Age*, 96-102 Reade St., N. Y.

AS SUPERINTENDENT of Wire Mill; all latest methods of handling the following thoroughly understood; galvanized wire, cloth and netting, brass, copper, iron and steel of every description, crucible and spring steel a specialty; every detail of wire nail business; mills failing to pay preferred; can build mills from foundation; unexceptionable testimonials furnished. Address "WIRE," office of *The Iron Age*, 59 Dearborn St., Chicago.

A THOROUGHLY competent man, 20 years' business experience in New York and Brooklyn, desires a position as collector for some reliable house. Address "COLLECTOR," office of *The Iron Age*, 96-102 Reade Street, N. Y.

A SUPERINTENDENT and Engineer will soon be available for responsible position in large manufacturing establishment; has had valuable and varied experience in designing, shop management and as superintendent; he has given particular attention to economical designs and methods of production and has had large personal observation, including that of professional visits to European countries. Address "E. D. B.," office of *The Iron Age*, 96-102 Reade St., New York.

HELP WANTED.

Undisplayed Advertisements for Help Wanted not exceeding fifty words One Dollar each insertion. Additional words two cents each.

AN ENERGETIC young man, with education and natural ability and quick at figures, having some experience in plate or sheet mill, to make up work, see to filling orders and learn to superintend mill. Address "HARVEY," office of *The Iron Age*, 96-102 Reade, St., New York.

BY a Merchant Mill engaged in rolling Bars, Plate and Special Shapes, the services from time to time of a practical Merchant Mill Operator, thoroughly conversant with the latest practice in his department, and competent to act as consulting engineer. One engaged in active mill superintendence preferred. Traveling expenses when personal inspection required and annual retainer paid. Address "RICHMOND," office of *The Iron Age*, 96-102 Reade St., New York.

SALESMEN in all parts of the United States to sell our celebrated Ice Cream Freezer on commission; liberal inducements to the right party; the goods, being well known, require no sample. THE PEERLESS FREEZER COMPANY, Cincinnati, Ohio.

WIDE-AWAKE young man with good executive ability as Superintendent or General Foreman of Cut Nail Factory. Give age, references and idea of salary. Address Box A, Pottstown, Pa.

A MAN to sell Steel Castings. Only those need apply who have a knowledge of this business. The advertisers would give preference to man who had previously been employed in selling Steel Castings, but would be willing to engage a man of good address, with such an acquaintance with the business as to enable him to make prices intelligently. "STEEL CASTINGS, 512," office of *The Iron Age*, 96-102 Reade St., New York.

IN EASTERN PENNSYLVANIA, a man who can run gas furnaces and rolling mills making iron shapes, such as angles, flats, rounds and irregular shapes, both steel and iron. State wages and experience fully. Address "EASTERN PENNSYLVANIA," Box 55, office of *The Iron Age*, 96-102 Reade Street, New York City.

PUDDLE BOSS, understanding how to make high test iron. Also Roller to take charge of 12 in. x 8 in. mills. Address "HIGH TEST," Box 55, office of *The Iron Age*, 96-102 Reade St., New York.

EXPERIENCED and competent Chemist for blast furnace in Virginia; in making application please give reference and state experience and amount of salary required. Address "COMPETENT CHEMIST," office of *The Iron Age*, 96-102 Reade St., New York,

LAMBERSON'S

Old Reliable

HARDWARE PRICE BOOKS.

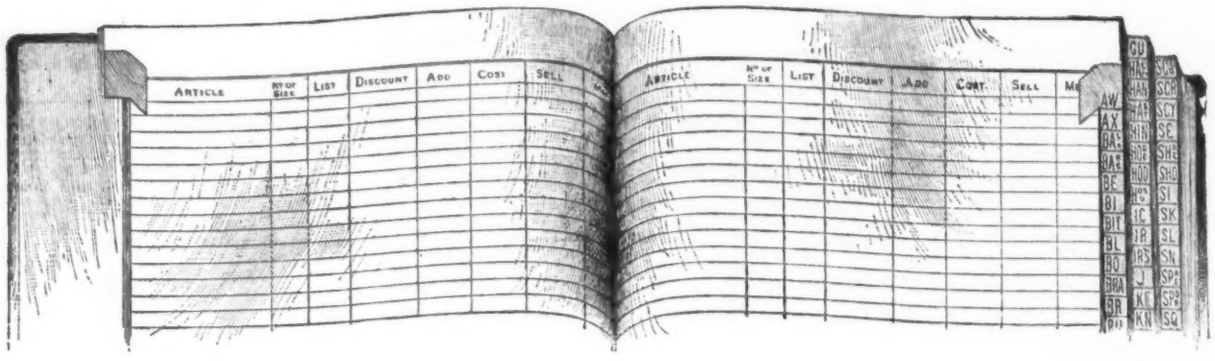
Send for new Illustrated Circular.

BUELL LAMBERSON,

PORTLAND, OREGON.

The Iron Age Hardware Price Book E,

WITH MULTIPLE INDEX (Patent Pending).



SIZE.—The book is 7 x 10 inches (much larger than Price Books A, B, C or D), 280 pages.

PAPER.—The paper is the celebrated Crane's heavy ledger paper, tough and strong, permitting frequent changes and erasures.

BINDING.—The binding is of the very best quality—flexible seal grained leather with pocket.

INDEX.—By means of the arrangement shown in the cut the index applies to every page (except Supplement) and permits reference to any article at a single motion. This greatly facilitates the use of the book, avoiding the troublesome turning from page to page which is necessary in connection with other Price Books. It has been prepared with great care, and it is believed that it provides a place for every article in the Hardware line.

ARRANGEMENT.—The book is arranged to keep a complete record of prices on a single page, the width giving sufficient room.

SUPPLEMENT.—A 40-page Supplement is provided to give room for supplemental quotations, memoranda, tables, &c.

This book is issued in only one edition, **price $5.00.**

AD	CU	SCI
AN	HAL M	SCR
AU	HAN	SCY
AW	HAS T	SE
AX	HIN	SHE
BAN	HOD E	SHO

Fac-Simile of Indexing.

Advantages of Multiple Index Price Book.

A SPECIAL feature of the book is the arrangement of the index characters, which instead of being alphabetical are arranged with special reference to the classification of Hardware goods, each index character giving the first two or three letters of the names of Hardware articles, as shown above.

The ease and convenience with which the book can be used is indicated in the following examples:

For Augers,	turn to AU	For Chisels,	turn to CHI	For Iron,	turn to IR
" Apple Parers,	" PA	" Cutlery,	" CU	" Irons,	" IR'S
" Saws,	" SAW	" Cartridges,	" CAR	" Shovels,	" SHO
" Pumps,	" PUL M	" Rules,	" RU	" Grindstones,	" GRI
" Bits,	" BIT	" Locks,	" LO	" Stones,	" STO

Special care has been taken to make the classification as indicated in the index correct and comprehensive, making provision for all Hardware articles and giving sufficient space for the keeping and recording of prices. It is thought that every strictly Hardware article has its first two or three letters given, thus permitting immediate reference to it by a single motion.

It is, however, obvious if any articles are not directly designated by the index characters, that the index being alphabetical in its arrangement indicates the place where quotations on such articles should be recorded. The supplement, however, may be found useful for quotations on any outside goods which the Hardwareman may desire to keep prices on, while at the same time it may be used if necessary for any overflow of matter from the preceding pages, or to contain list prices or other matter relating to goods.

Hardware Classification.—A pamphlet containing a classification of the leading Hardware articles is furnished with the price book.

Standard Lists.—In connection with this price book a set of *The Iron Age* STANDARD HARDWARE LISTS can be used with great advantage.

This price book, which has been prepared by R. R. Williams, Hardware Editor of *The Iron Age*, is presented to the attention of Hardwaremen in the confidence that it will be found a most valuable aid in keeping track of prices.

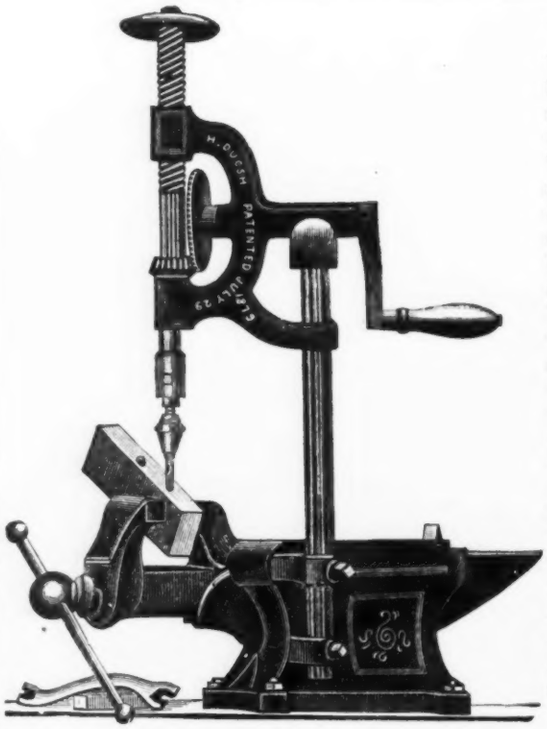
ANVIL, VISE AND DRILL.



This machine was first made by a practical mechanic for his own use, as he could find nothing in the market that would answer his purpose. When finished, so many other mechanics wanted it that he was minded to get it patented and put it on sale. When brought to our notice we saw at once its great utility, and bought the patent for the whole United States. The anvil has a steel face, 4x8 inches. Vise Jaws 3½ inches wide, and steel faced. Steel Drill Press with adjustable chuck to hold ¼ inch drills and all smaller sizes. We have for sale Morse Twist Drills from ¼ to ¾ inches, with uniform ½ inch shanks, which justs fits into the spindle when the chuck is removed; one of these drills, for a sample, goes with each machine.

FOR DEALERS!

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

SAWS

Are Everywhere Recognized as the

Standard of Excellence.

Western agency for Tanite Emery Wheel.

Second only to the Silver Steel Diamond, and equal to it when made of the same class of steel, is the Patent Concaved Tooth Dexter. The patent by which this saw is protected consists of a depression of the face of the cutting teeth through the centre from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing threefold the durability of the "set." This saw never fails to give the best satisfaction

Ground substantially uniform gauge on the toothed edge, and any gauge required on the back

Arranged to be held by Thumb and Little Finger (the natural way of holding a comb).

CAUTION.

This Comb is secured to us by Letters Patent No. 464,773, dated December 8th, 1891, and we have secured control of Patent No. 220,986, dated October 28th, 1879, issued to Paschal Plant, together with all accrued claims for infringement of said Letters Patent. We hereby CAUTION all parties against MAKING, SELLING or BUYING Curry Combs that in any manner infringe these Patents. The said Patent No. 220,986 is the BOTTOM PATENT to FLEXIBLE or SPRING Curry Combs. The "claim" thereof reads as follows: "As a new article of manufacture, a flexible Curry Comb formed of a toothed strip of metal or other suitable material, without a plate or back, and with a suitable handle attached directly to the strip, substantially as described." Parties MAKING, SELLING or BUYING FLEXIBLE or SPRING Curry Combs not licensed by us under the above-mentioned Patent are liable to damages, and we shall proceed against them as fast as possible.

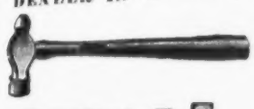
CHAS. WEILAND,

JOBBER AND DEALER IN **HARDWARE AND CUTLERY,**



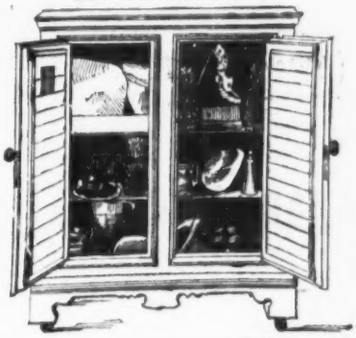
143 CHAMBERS STREET, - - NEW YORK.

Job Lots and Goods Received from Auction Daily.

Just Received a Job Lot of 1st Quality Fine REFRIGERATORS.

Best Workmanship. Pat. Filled. Zinc lining not necessary.

DOUBLE DOOR DRY AIR REFRIGERATORS.



Cherry, Oak and Natural White Wood Finish. 3 Finishes in all numbers.

No.	Length.	Depth.	Height.	Price.
50	34 in.	22 in.	42 in.	$4.25
51	36 "	23 "	44 "	4.75
52	38 "	24 "	46 "	5.25
60	42 "	21 "	48 "	5.75
61	44 "	23 "	50 "	7.00
62	46 "	25 "	52 "	7.50
63	48 "	27 "	54 "	8.50

The above Refrigerators are worth double the money, regular price. They are not sold for any fault whatever. The factory having had a surplus stock of them on hand, I purchased a large quantity of them at a sacrifice price for cash, and can therefore sell them at the extreme low price as quoted above, which is just as I represent. These Refrigerators have been on the market a number of years, and are considered the best Dry Air Refrigerator made. It is claimed that the amount of Ice which can be saved by the use of one of these Refrigerators in about two months will almost equal the cost of the Refrigerator itself. Order one only of each for a sample, so you may see what they are. You will find them all satisfactory.

DOUBLE DOOR DRY AIR REFRIGERATORS.

I offer also at all times a full line of Mechanics Tools and cheap Saws, Hatchets, Hammers, Cutlery, Curry Combs and all kinds of Brushes, etc., etc.

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

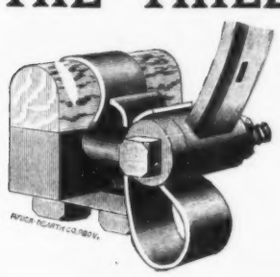
THE THILL COUPLING SPRING

MADE BY THE

SABIN MACHINE COMPANY, Montpelier, Vt.



Is unquestionably the BEST METAL SPRING made for the purpose of preventing the rattling of the Thills.

It is adapted to any coupling where rubbers are used. It does its work perfectly, and is so formed as not to wear the iron of the coupling, as it presents a flat, smooth surface to the bearing, and yet holds the shaft perfectly in place, and prevents all rattling.

It Outlasts many sets of rubbers and costs but a trifle more. It is easily adjusted. Made in four sizes, ⅞, 1, 1⅛ and 1¼ inch. Packed one dozen pairs in a box.

Send for Sample Dozen or Larger Quantities to

SABIN MACHINE CO., Montpelier, Vt.

OIL

14 JETS OF LIGHT

3 to 6 INCHES LONG.

FOR lighting manufacturing establishments, such as Rolling Mills, Foundries, Machine Shops, Engine Rooms, &c., &c., with a convenient, portable, brilliant, steady light, and by cheaper means than by Coal Gas.

SOLE MANUFACTURERS,

The Dangler Stove & Mfg. Co.,

Cleveland, Ohio.

The Victor Convertible Furnace.

THE BURNER, as well as the furnace body, is **convertible**, producing a **noiseless, powerful** flame for **tinners'** use —which will heat a three-pound copper from cold to a point where it can be used for soldering in **two minutes**. By simply pulling a slide it is converted into a **blast furnace** for **plumbers'** use and forging purposes, and produces an **intensely hot**, blue flame, which will melt ten pounds of Babbitt Metal in **five minutes**. Is the **only** furnace made with **asbestos point protectors**, and that **will not** burn tinning off the Coppers. The Burner is protected by a hood—will stand a **strong wind**, and can be used on roofs of buildings. The Reservoir is made of **brass**, nickel trimmed. The parts are **malleable iron**. Is absolutely non-explosive; cannot be filled while burning. Weight, 8 lbs. Height, 13 in.

We also make a furnace for **plumbers'** use only, sold at a lower price.

Manufactured by

The Standard Lighting Co., Cleveland, Ohio.

COLD STORAGE FOR FAMILY USE.

China Closet, Side-Board and Refrigerator, No. 36¾.

The **FAMOUS LEONARD CLEANABLE** is the only perfect

COLD DRY AIR REFRIGERATOR

that has perfect circulation. ***Won't sweat or mold.*** Six walls to protect the ice.

Housekeepers Recognize Its Merits.

Made in ***all styles*** and ***sizes Hard Wood, Antique or Sixteenth Century Finish*** with ***air tight lock. In buying*** ask for ***"Leonard Cleanable"*** and insist on having it. There is no good substitute. Send for illustrated catalogue and price-list. Sold on the exclusive agency plan. All new designs for 1892.

GRAND RAPIDS REFRIGERATOR CO.,

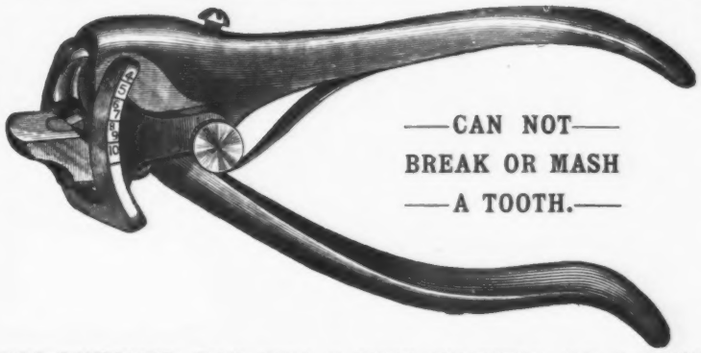
LLOYD ACME SAW SET.



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

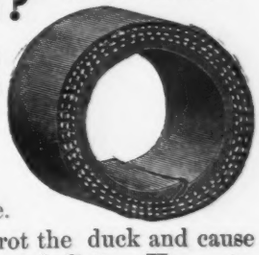
The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

WHO HAS NOT HAD BAD HOSE?

NEW SEAMLESS TUBE

OLD LAPPED TUBE



Who has not lost time, patience, money, by attempting settlement for such goods? THE CAUSE, in nine cases out of ten, is the lapped seam.

THE REMEDY is in buying our

PATENTED SEAMLESS-TUBE HOSE,

made by machinery, the tube run like lead pipe, through a die. There is no lapped tube, no seam, no crack, no defects: water cannot get through to rot the duck and cause the hose to burst. Made in all sizes and kinds of Garden, Engine, Steam, Fire, Brewers', Cotton Hose, etc.

$50 for sample bale containing
100 feet Buckeye (Black).
100 " Shield High Grade (Blk).
100 " High Pressure (Red).
50 " Shamrock (Green).
50 " Old Gold (Yellow).
100 " Cotton, Rubber Lined.
With couplings attached.
Or bale will be made up as desired at proportionate prices.

Order Sample Bale of our Seamless-Tube Hose—Best in World. Costs no more than ordinary lapped-seam hose. The different colors, Red, White, Black, Green and Yellow, make a fine window or sidewalk attraction.

CLEVELAND RUBBER CO.,
CLEVELAND, OHIO.

"NEVER-BREAK"

COLD HANDLE
Wrought Steel Spiders,
WITHOUT RIVETS.

Will not absorb grease.
Will not impart flavor of previously cooked food.
Will not burn before cooking.
Will not scale.
Will not warp.
Will "NEVER-BREAK"

The Handle is made round, fits the hand perfectly and is ALWAYS COOL.

The **"NEVER-BREAK"** Spider is the ONLY Wrought Steel Spider manufactured WITHOUT RIVETS complete from ONE PIECE OF METAL.

THE BRONSON SUPPLY CO., CLEVELAND, O., U. S. A.
Branch: 72 Beekman Street, New York.

ALSO A FULL LINE OF WROUGHT STEEL COOKING UTENSILS.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

Farmer Village, N. Y., U. S. A.

THE CHAMPION

CARRIAGE WRENCH

IS MADE OF

MALLEABLE IRON

Waranted Not to Break with Legitimate Use.

Fits Nuts on any ordinary Carriage or Wagon.

NO SCREWS OR THUMB NUTS

to adjust. A simple pressure of the finger opens the jaw, which adjusts itself to any Square Nut from $\frac{5}{8}$ in. to $1\frac{3}{4}$ ins.

EASIER TO OPERATE THAN ANY OTHER.

The handle being at right angles with the body forms a crank, allowing the nut to be turned off in the easiest and most natural manner with one hand.

THE NUT IS HELD FIRMLY

by the jaws, consequently it is not necessary to touch it with the fingers. No danger of falling in the dirt. No grit on the nut. No oil on the hands. When you are ready it goes on just as easy as it came off.

IF YOU DON'T SELL THEM YOU OUGHT TO.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.

TRIMO PIPE WRENCH,

Forged Steel.

All parts Interchangeable.

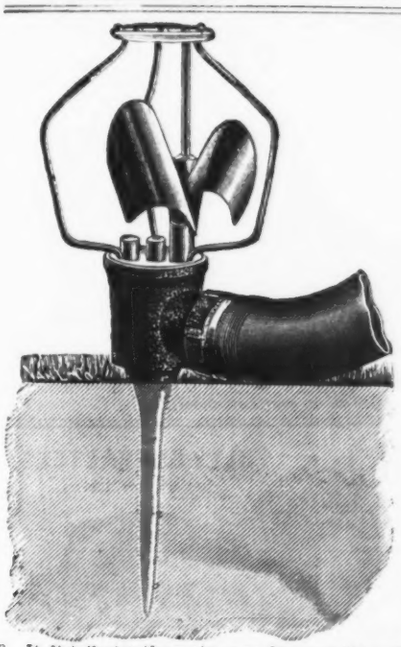
Over forty sizes and styles. List prices ranging from $6.00 to $100 each.

CATALOGUE ON APPLICATION.

WALBRIDGE & CO.,

BUFFALO, N. Y.



Here is something new. Have you seen it?

BONNETTE'S ARC LAWN SPRINKLER.

Patented Oct. 20, 1891.

This Sprinkler was invented by a **DRY GOODS MAN** in Bay City, Mich. He noticed that when his neighbors set out their sprinklers, they wet all over the sidewalks as well as the lawns.

On going back and forth to the store he was often forced into the middle of the street to avoid a shower from the sprinkler. Ladies often ruined their dresses from this source.

It set him to thinking. Sprinklers should not be a nuisance. Could one be made that would sprink ', if desired, in a half circle? He thought so. He commenced to work and experiment.

That was five years ago. It required lots of patience and there were many disappointmen s, but to-day,

NOTE THE RESULT.

Five good reasons why this is the best sprinkler to buy:

1. It will not clog up.
2. It will sprinkle a circle from 4 to 40 feet in diameter, according to the water pressure.
3. It distributes the water equally over the entire surface, wasting none around the base of the machine.
4. **This is the only machine ever invented that will sprinkle water in a half-circle,** thus preventing the wetting of walks while thoroughly sprinkling the lawn.
5. It can be changed from a circle to a half-circle or *vice versa*, in five seconds.

We now claim to have the only perfect sprinkler in existence. It is simple, will not wear out nor clog up. Is well made and handsomely nickled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other. Prices and samples sent upon application.

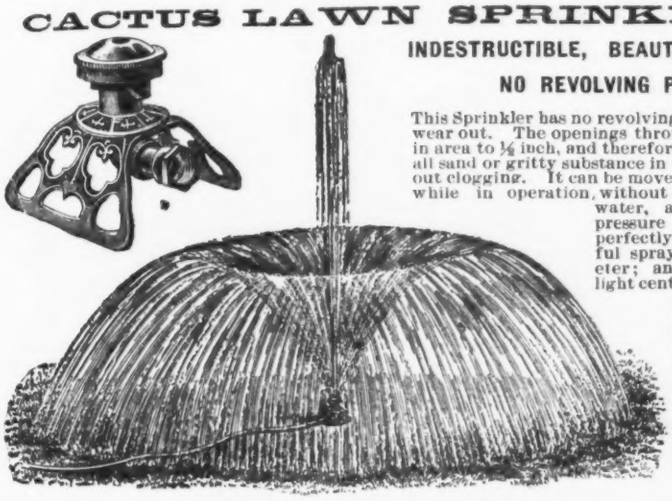
CACTUS LAWN SPRINKLER.



INDESTRUCTIBLE, BEAUTIFUL, CHEAP.

NO REVOLVING PARTS.

This Sprinkler has no revolving parts to leak or wear out. The openings throughout are equal in area to ¼ inch, and therefore will pass freely all sand or gritty substance in the water without clogging. It can be moved about the lawn while in operation, without turning off the water, and with a low pressure will distribute a perfectly even and beautiful spray 30 feet in diameter; and in addition a light center fountain spray 15 to 18 feet in height. It is recommended as the most durable, beautiful and cheapest Sprinkler in the market and is guaranteed to give entire satisfaction to any purchaser. For sale by all dealers.

DAVID WILLIAMS, Publisher and Bookseller,

96-102 Reade St., New York.

Don't be a Pirate!

Honest Competition is all right but — to introduce an inferior article on some one else's reputation is Piracy

Moral: Ensure in a clear conscience by handling only the Genuine "Old Original Hill" Hog Rings

STEEL BARROWS.

LANSING WHEELBARROW CO.

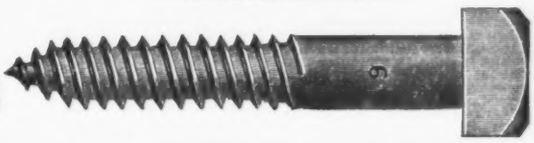
LANSING, MICH.

WM. H. HASKELL, PRESIDENT. E. S. MASON, TREASURER. D. A. HUNT, AGENT.

WM. H. HASKELL CO.,

—MANUFACTURERS OF—

GIMLET POINT
COACH SCREWS



Bolts, Cold-Punched Nuts and Washers,
SUITABLE FOR MACHINERY OF ALL KINDS.

Office and Works: 451 Main St., PAWTUCKET, R. I., U. S. A.

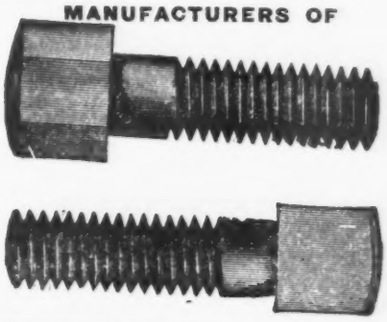
HENRY B. NEWHALL CO., Agents,

105 CHAMBERS STREET, NEW YORK. - 47 PEARL STREET, BOSTON.

WORCESTER MACHINE SCREW CO., Worcester, Mass.

MANUFACTURERS OF

SET, CAP AND MACHINE SCREWS.



STUDS FOR STEAM ENGINES. PUMPS, &c.

HAY KNIVES

SEASON OF 1891-92.

"LIGHTNING"
(Reg. Trade Mark No. 9583.)

"BLIZZARD"
Reg. Trade Mark No. 19,390.

It pays to handle FIRST CLASS goods.

Write us early for prices and terms.

Sole Manufacturers,
The HIRAM HOLT COMPANY,
EAST WILTON, MAINE.

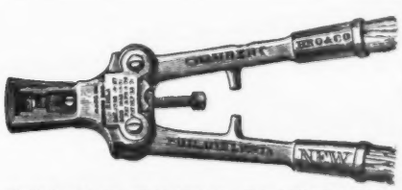
J. H. Sternbergh & Son, - Reading, Pa.

—MANUFACTURERS OF—

Machine Bolts, Common Carriage Bolts, Bridge and Roof Bolts, Car Bolts, **The Harvey Patent Grip Thread Track Bolt,** U. S. Standard Thread Track Bolts, Coiled Steel Track Washers, Square and Hexagon Nuts of all kinds and sizes, Plate Washers, Lag Screws, Forged Set Screws and Tap Bolts, Plow Bolts, Stud Bolts, Boiler, Bridge and Ship Rivets, Boiler Patch Bolts and Stay Bolts, Rods, Straps and Irons for Bridges and Buildings, **Refined Merchant Bar Iron,** etc.

MANUFACTURED ALSO BY

The Kansas City Bolt & Nut Co., Kansas City, Mo.



BOLT & RIVET CLIPPERS

For cutting off the ends of Bolts and Rivets.
Liberal discounts to the trade.

CHAMBERS BROTHERS COMPANY,
52d ST., BELOW LANCASTER AVE.,
PHILADELPHIA PA.

J. FRED. WILSON,

Metal Punching, Die Making, &c.

COLD PUNCHED NUTS AND WASHERS for all purposes.

Bradley Hammers

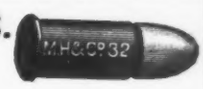
2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.



FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

HULBERT BROS. & CO.

Opposite Fifth Ave. Hotel, Formerly **MERWIN, HULBERT & CO.**,

26 West 23d Street, New York.

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

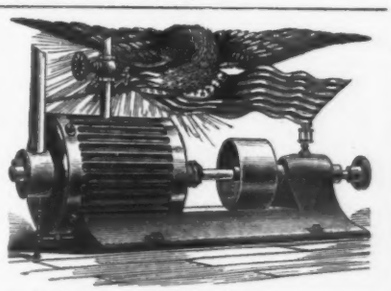
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

For further information and Illustrated Catalogue, call on or address: AMERICAN ENGINE CO., Bound Brook, N. J.

J. H. RICHARDSON & CO.,
708 Penn Ave., Pittsburgh, Pa

REDUCED PRICES.

HIGHEST GRADE PAPER SHELLS.

METAL LINED GREEN PAPER.

BATTERY CAP. DEEP STRONG PRIMER.

The increased demand for high grade Shells that will completely obviate the annoyance of occasional hang-fires incident to the use of Nitro Powders in low grade Shells has induced us to make a substantial reduction in the price of our Celebrated **"TRAP"** Paper Shells.

To Buyers of Poultry Netting:

The Season is now at its height. Every day's delay in the receipt of your goods counts to your loss.

Statements have been made in print by some Jobbing Houses that all manufacturers of Netting are behind in their orders.

These statements cannot be substantiated, and are only intended to pacify customers who are not getting their orders filled as they should be.

We GUARANTEE shipments of "JERSEY" NETTING within forty-eight hours after the receipt of order.

We FURTHER GUARANTEE that every bale of Netting bearing our Trade-Mark, as shown herewith, will be standard in every respect.

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.

FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

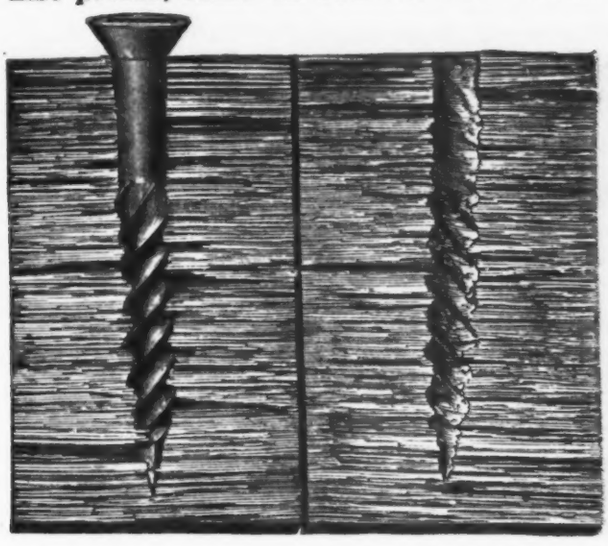
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

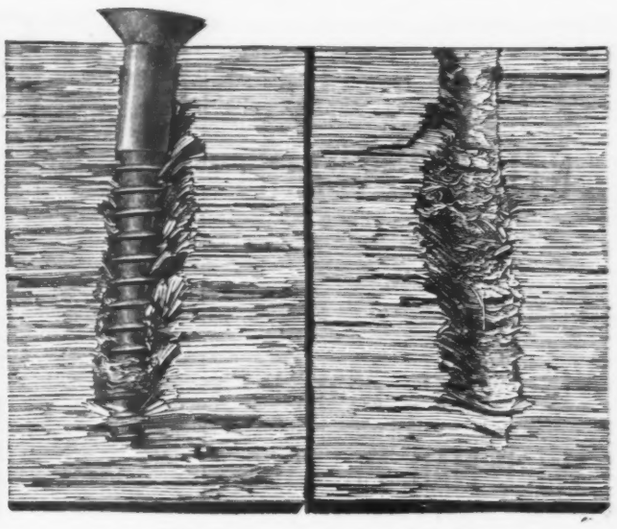
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%.



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

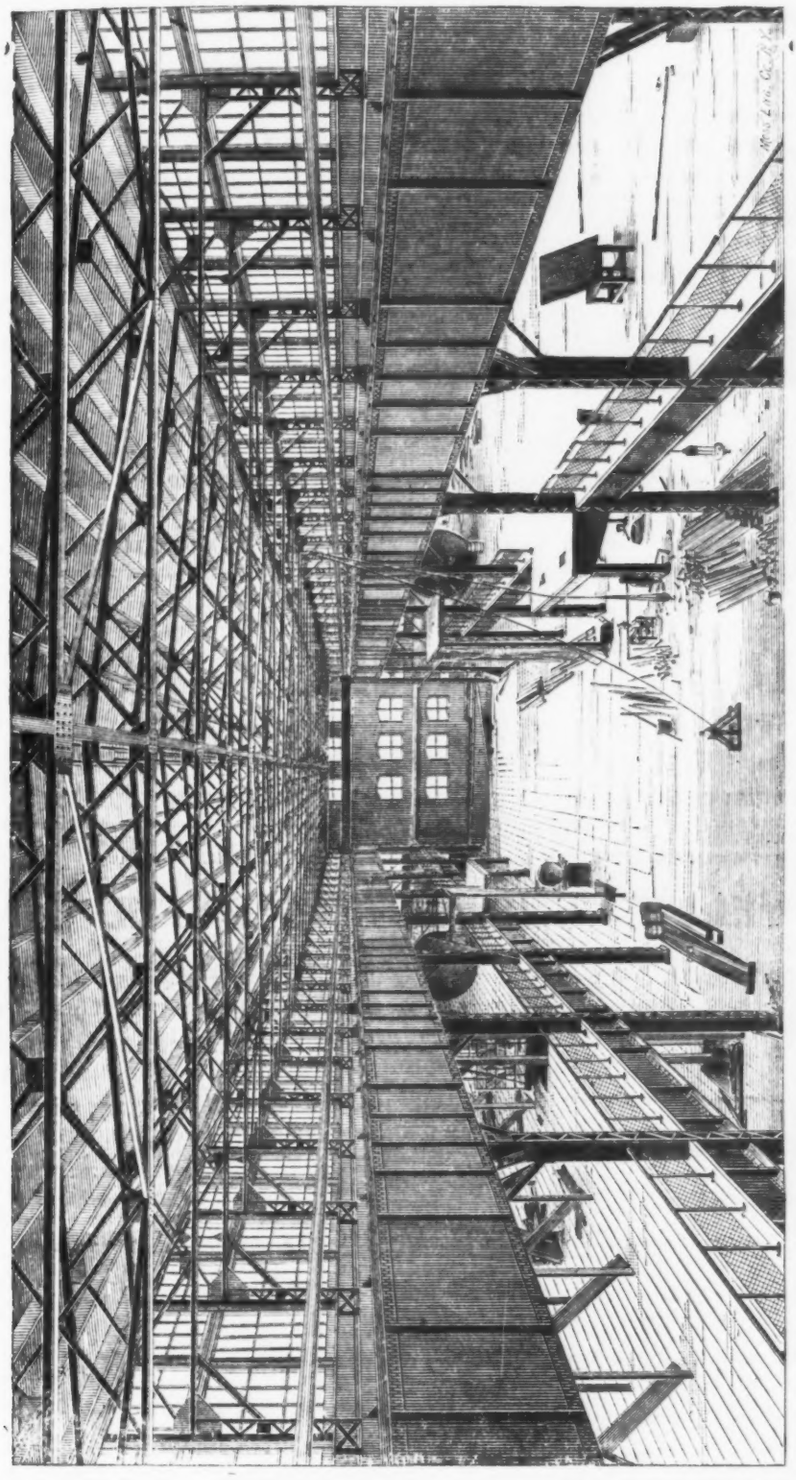
THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration, taken direct from a photograph, shows the construction of a Machine Shop designed and built by us for The Link Belt Machinery Co., at Chicago, Ill. The building is 124 ft in width by 407 ft. in length. Each side wing is 42 ft. in width and two stories high. The central portion of the building is 50 ft. in width, controlled by a hydraulic crane with a travel the full length of the building. This is probably one of the best designed modern Machine Shops to be found in the United States.

Office and Works, No. 5 Railroad Avenue,

EAST BERLIN, CONN.

HOT ROLLED STRIP, PLATE AND BAR STEEL,

Also Special Shapes Rolled to Order,

and are prepared to make

PROMPT DELIVERIES AND LOW PRICES,

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

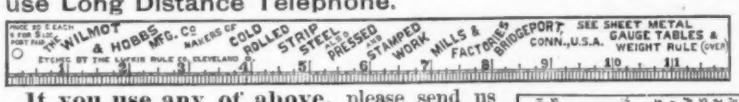
UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, ½ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

COLD ROLLING MILL.

The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**

GRAPHITE PAINT!

TO DEALERS:—That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. **BUT IT MUST BE PURE.** We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers we want it on sale in **EVERY CITY IN THE COUNTRY**, so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great spreading quality, the expense in using it will be as low as the cheapest mineral paint. **WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.**

Blast Furnaces, Blowing Engines,

FIRE BRICK HOT BLAST STOVES.

HOT BLAST VALVES.

Slide or Puppett, Plain Water Cooled or Steel throughout, requiring no water cooling.

GAS VALVES AND GAS BURNERS.

Kennedy and Our Own Improved Gas Valves and Burners for Boilers and Fire Brick Hot Blast Stoves.

CHIMNEY VALVES.

Slide or Puppett; Horizontal or Vertical; plain or water cooled.

COLD BLAST VALVES.

Plain or with Pilot Relief Valves.

GAS DROP AND GAS CUT OFF VALVES.

Blast Cut Off Valves with Regulating Valves. Ordinary Slide Cut Off Valves for Blast or Gas.

CINDER CARS AND CHARGING BARROWS.

Cinder Cars for solid or liquid cinder. Charging Barrows for coke, ore or charcoal, square or circular taper pattern.

IMPROVED TUYERE STOCKS.

Self-adjusting as to expansion.

TUYERE and CINDER ARCHES and BOSH COOLERS or bronze or with pipe coil.

BRONZE TUYERES.

CHARGING APPARATUS.

Specially improved Charging Apparatus supplied with or without Bell and Hopper; operated by Steam or Blast.

BLAST FURNACE FINDINGS OF ALL DESCRIPTIONS.

Estimates and special designs made for the construction of entire Blast Furnace plants. Special designs for Boiler Setting Advice given as to the use of the ores and operating the furnaces.

We have a great variety of these patterns and can promptly furnish the fittings for any type of Fire Brick Hot Blast Stove.

Our Blowing Engines are unexcelled in strength and efficiency as to steam and blast action.

Blinn's Tin, Sheet-Iron and Copper Plate Worker

A New, Revised and Enlarged Edition, from New Type, with New Engravings.

One of the Most Popular Technical Books ever published in the United States.

JUST READY.

A PRACTICAL WORKSHOP COMPANION

—FOR—

TIN, SHEET-IRON

—AND—

COPPER-PLATE WORKERS.

Containing rules for describing various kinds of Patterns used by Tin, Sheet-Iron and Copper-Plate Workers. Practical Geometry. Mensuration of Surfaces and Solids; Tables of the Weights and Strengths of Metals and other Materials; Tables of Areas and Circumferences of Circles; Composition of Metallic Alloys and Solders, with numerous valuable Receipts and Manipulations for every-day use in the workshop. By Leroy J. Blinn, Master Mechanic. A new, revised and enlarged edition, printed from new type, and with 170 newly engraved illustrations.

In one volume, 12mo, 296 pages, price $2.50, free of postage to any address in the world.

☞ It having been found necessary to make a new set of electrotype plates and new engravings of this most popular book—the old ones having been worn out by actual use—it was determined to have the book re-edited and to add to it, in the different departments, new, recent and necessary matter. All of the old illustrations of patterns have been retained, and new ones have been added. The portion treating of metallic alloys and solders has been entirely re written, so as to have a more systematic arrangement, and to bring it abreast with the best modern practice in this interesting and important field. In all the other departments new matter has been added, every effort having been made to render the entire work, in the future, if possible, even more useful to the tin, sheet iron and copper-plate worker than in the past.

ABSTRACT OF CONTENTS.

Rules for Describing Patterns; Practical Geometry; Mensuration of Surfaces; Mensuration of Solids, and Capacities of Bodies; Tables of Weights, &c.; Tables of the Circumference of Circles and of the Areas of Circles; Rules for Rendering the Tables Useful; Sizes of Tinware; Capacity of Cylinders, and various other Useful Tables and Information; Practical Receipts, Varnishes, Lacquers, Cements, Metallic Alloys, Miscellaneous Receipts; Strength of Materials, with Tables. Index.

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.* **ADVANTAGES.**—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & Co., Main Office & Works, 491 N. 3d St., Philad'a.

FOUNDRY PRACTICE.

West.—American Foundry Practice. Treating of loam, dry sand and green sand molding, and containing a practical treatise upon the management of cupolas and the melting of iron. By THOMAS D. WEST, practical iron molder and foundry foreman. Fully illustrated. Eighth edition, revised. 408 pages; cloth..... $2.50

West.—Molder's Text Book, being Part II of American Foundry Practice. A practical treatise on molding, discussing the question of economy in casting and the arrangement of a foundry in regard to rapid work. Treating of cupolas, methods of firing, best means of securing perfect and sound castings, &c., being a continuation of Vol. I on this subject, and dealing with a class of work requiring more skill and greater care. By THOMAS D. WEST. With numerous illustrations. Fifth edition. 461 pages; cloth $2.50

Mullin.—Modern Molding and Pattern Making. A practical treatise upon pattern shop and foundry work. By JOSEPH P. MULLIN, M. E.; 257 pages; cloth; illustrated..... $2.50

Rose.—The Pattern Maker's Assistant. Embracing lathe work, branch work, core work, sweep work and practical gear constructions, the preparation and use of tools, together with a large collection of useful and valuable tables. Sixth edition. By JOSHUA ROSE, M. E.; illustrated with 250 engravings; 324 pages; cloth..... $2.50

Wylie.—Iron and Steel Founding. Illustrated with 39 diagrams. By C. WYLIE. Second edition, revised and enlarged; 324 pages, 8vo, cloth..... $2

Macfarlane.—Practical Notes on Pipe Founding. With 15 folding plates. By JAS. W. MACFARLANE. 8vo, cloth..... $4

Practical Iron Founding. A condensed account of the principles and practice of iron founding, both for the student and for the practical man, with principles stated and explained, and including the most recent practice, particularly as it relates to the two branches of machine molding and the melting of iron. Cloth, illustrated with over 100 engravings. $1.50

Larkin.—The Practical Brass and Iron Founders' Guide. A concise treatise on brass founding, molding, the metals and their alloys &c., to which are added recent improvements in the manufacture of iron, steel by the Bessemer process, &c. By JAMES LARKIN; fifth edition, revised, with extensive additions; 301 pages; cloth. $2.25

Kirk.—Founding of Metals. A treatise on the melting of iron, with a description of the founding of alloys, also of all the metal and mineral substances used in the art of founding. Collected from original sources. A practical guide for the construction and management of foundry cupolas and furnaces. Fifth edition. By EDWARD KIRK; 272 pages; cloth. ..$2.50

Graham.—Brass Founders' Manual. London (Weale's series). By WALTER GRAHAM; limp cloth..... .....$0.80

ALEXANDER BROS
BEST OAK BELTING
PHILADELPHIA.

WHAT
Constitutes the Best Paint?

The paint that for the longest time will put off the necessity of repainting is, in the nature of things, the best and the most economical.

Those who have used Dixon's Graphite Paint find that a roof well painted will not require repainting in 10 to 15 years.

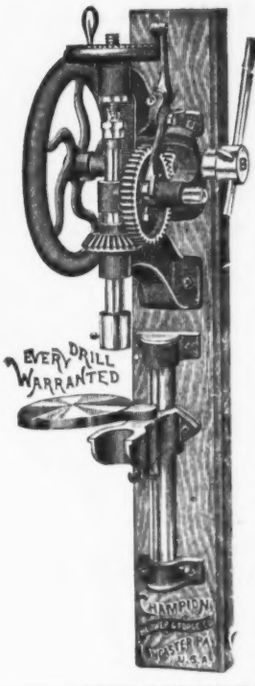
THE WORLD'S CHAMPION



New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from ⅛ to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in ⅝ or 41-64, without extra charge.

CHAMPION BLOWER & FORGE CO.

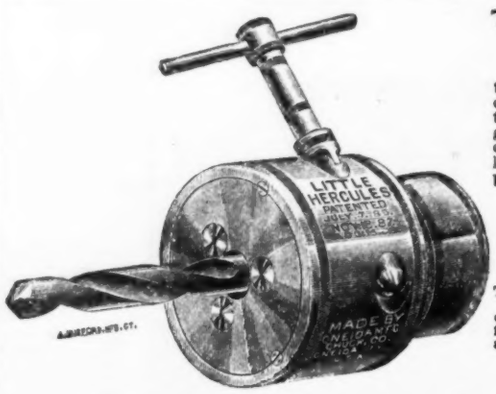
Or **CHAS. CHURCHILL & CO.,** 21 Cross St., Finsbury, London, E. C., England.



THE LITTLE HERCULES DRILL CHUCKS.

The "Little Hercules" Chucks have three rotating jaws pivoted at ends, operating eccentrically against drill or tool, thus making jaws of Chuck self gripping, an unbroken bearing upon drill entire length of jaw, and the larger the drill the more powerful the pressure upon it.

The Oneida Mfg. Chuck Co.,

ONEIDA, N. Y., U. S. A.

NEW YORK, MAY 15, 1891.

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't afford to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

THE WOODRUFF MFG. CO., Hartford, Conn.

CLOSED FOR REPAIRS

THIS WOULD HAVE BEEN OBVIATED HAD YOU PURCHASED A FEW OF OUR HANGERS, JOURNAL BOXES, COUPLINGS OR WALL BRACKETS AND KEPT THEM FOR "BREAKDOWNS." THEY CAN BE APPLIED INSTANTLY. WHEN NEEDING CAST PULLEYS, WRITE

F. L. COOCH,
BESSIE C. FOX,
Pottsville, Pa. Administrators.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

CHARLES A. HOADLEY,
Corresponding Secretary.

RECEIVER'S SALE
of the
Principio Furnace Property
8500
ACRES OF LAND,

With extensive improvements, in Cecil County, and near Baltimore City, Maryland, and in New Castle County, Delaware.

Under a decree of the Circuit Court for Cecil County, Maryland, the undersigned, Receiver of The George P. Whitaker Company, will offer at public sale at the Court House in Elkton, Maryland, on Tuesday, May 24, 1892, at 11 A.M., all the

REAL ESTATE

of The George P. Whitaker Company in Cecil County, and near Baltimore City, Maryland, with improvements thereon, and about 8500 acres of land in Cecil County, embracing two fine farms of 400 acres, the balance well set in good chestnut and oak timber.

The improvements are one new modern Charcoal Blast Furnace, 10 x 60 feet, with all the necessary attachments and appurtenances; also one Hillside Charcoal Blast Furnace of old style.

Also a new and complete Charcoal Bloomery of twelve fires, with all the necessary appliances and appurtenances, in first-class condition, and now in operation.

The property is on lines of both the Baltimore & Ohio and the Philadelphia, Wilmington & Baltimore Railroads, with connection by switch to the latter road, and of easy access to the former. It has a first-class and complete plant known as Principio Furnace, long the seat of iron productions and widely known for the superior quality of its production.

Also 210 acres of land lying near the city limits of Baltimore, on line of old Annapolis road, underlaid with the celebrated salt more Hone ore, widely known for its superior quality of Charcoal car wheels.

There are no liens or incumbrances on the property. Terms easy. The attention of capitalists is invited to this sale. For further particulars apply to John S. Wirt, Receiver of the George P. Whitaker Company, Elkton, Maryland.

At the same time and place and upon the same terms will be sold 232½ acres of Iron Ore property, known as "Iron Hill," situated in New Castle County, Delaware, and near the village of Newark, Delaware, and convenient to the railroad station of that name on the Philadelphia, Wilmington & Baltimore Railroad. This property has for many years been worked as an iron ore mine, and is underlaid with an almost inexhaustible supply of good Hematite iron ore.

JOHN S. WIRT,
Trustee.

FOR SALE.

Special Slab Miller; will take 24 inches between housings and 8 feet long. Price $650.00.

The Lodge and Davis Machine Tool Co.,

NEW PATENT.

The attention of iron manufacturers, fence makers and others is invited to **HALL'S EARTH AND ANCHORAGE** or fence and awning posts, surveyor's stakes, poles, &c., recently patented. Adapted to any style of iron post or pole. Will revolutionize fence building. Correspondence solicited with a view to securing their manufacture or sale of patent. Address

H. O. HALL, Inventor,
No. 30 Ninth St., S. E., Washington, D. C.

Wheel, Axle and Iron Manufacturers and Capitalists.

Your attention is called to the following.

Two very valuable patents touching wheel and axle manufacturers and the iron trade are now offered for sale. One is an improvement in axle arms consisting of four concave depressions so arranged on the arm that they lessen friction and automatically lubricate it (the arm). The other is one of the most valuable patents ever issued. It gives to the owner a monopoly over a certain branch of business that has not been equaled in this century. This patent consists of a hub made from malleable iron, steel or other suitable metal, so made that in connection with an axle arm of suitable dimensions, &c., it does away with the projecting hubs of wheels that are now so common and annoying. It is no idle fancy to think and say that when this hub is introduced all others will disappear. Wheels made with this hub will be the nearest approach to perfection ever made in that line. To secure control of this patent is to secure a fortune. These patents will be disposed of singly or together, they will be sold outright or stock taken in a company organized for their manufacture. For further particulars address

PETER McMENAMIN,
273 Fifth St., Jersey City, N. J.

FOR SALE.

Hardware Store in a manufacturing town 12,000 inhabitants, in Central Ohio, for about $8000. Complete stock fine location, only one other exclusively hardware store. Other business interests reason for selling. Address

BODE HARDWARE CO.,
180 Main St., Cincinnati, O.

BUSINESS FOR SALE—A thoroughly established manufacturing business in the metal line. Goods well known and selling to the best wholesale trade. This business is now paying, but present owners have other business to which must be given all their time and capital. Thoroughly competent practical man will stay with it if desired. About $15,000 required. Good chance for some town desiring manufacturing plant, as it can be easily removed. "LAFAYETTE," office of *The Iron Age*, 96-102 Reade St., New York.

FOR SALE.

An established retail hardware business in a live, beautiful, healthy and growing manufacturing city in the Northwest; fine modern store in a central location; business well established; stock about $25,000; splendid chance to step into a business already established, with opportunity to extend all one could wish (no trade for real estate). For further particulars, address "NORTHWEST," Box 331, office of *The Iron Age*, 96-102 Reade St., New York.

Patent For Sale.

Or place it on royalty. A patent, No. 441,859, patented Dec. 2 1890. My improvement consists in **Pruning Shear, and Fruit Pickers** to provide a shears which is not only adapted for general pruning, but is also adapted for picking fruit. The lineal blades will reach the horizontal stems and limbs, while the angular blades will reach the vertical stems and limbs. The shears are on a pole, and the operator can dispense with climbing up the trees and ladders, thereby will save much labor. For picking fruit, the shears are very light with large jaws, and are kept open, a hop or receiving the fruit and drop it down through a conveyor with several sharp bends in it to break the fall, and prevent it from bruising. Address

F. STANKE,
San Francisco, Cal.

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

EXPERTS IN MECHANICAL ENGINEERING.

Thirty years' experience, best of facilities. Experienced in the manufacture of typewriters, check punches, cash registers, telegraph instruments, electric motors, dynamos, rail saws, projectiles or any metal article from one ounce to 20 tons weight. Estimates furnished. Correspondence solicited.

BERGGREN, Camden, N. J., corner Haddon Avenue and Line Street.

HARDWARE.—A position as salesman or buyer by one who has had many years' experience as both; references first-class. Address "WIDE EXPERIENCE," office of *The Iron Age*, 96-102 Reade St., New York.

AN EXPERIENCED business man thoroughly familiar with the manufacture of metal goods, with a long experience in estimating costs of manufacture, purchasing supplies, organizing help and marketing goods, perfectly familiar with all office work, would like a responsible position with a first-class house. Address "O. F. C.," Box 526, office of *The Iron Age*, 96-102 Reade St., New York.

BY A THOROUGH practical rolling mill Manager for iron and steel products; can make high grades of either; can utilize old rails or scrap to advantage; is highly endorsed by late employers and A1 references for ability, sobriety and integrity. Address "V. IRON AND STEEL," P. O. Box 523, Pittsburgh, Pa.

TWO YOUNG Hardware men, through 17 years' experience well acquainted with German, English and domestic goods, wish to represent in Chicago manufacturers and importers of hardware and cutlery. We will sell your goods and do honest work in the World's Fair City, if you can deliver the goods and quote prices. Address "M. & H.," office of *The Iron Age*, 59 Dearborn St., Chicago, Ill.

BY CHEMIST of extended experience, right up in steel working, blast furnace work and products, copper ores and products and assaying. A1 references. Address JOS. E. HAINES, 3008 Linden Square, Philadelphia, Pa.

BY THE ADVERTISER, as Bookkeeper and Correspondent with a manufacturing house or a large hardware dealer; a position where energy and faithful service would be appreciated. Has at present good position with a real estate firm but the business is not congenial and desires to return to the metal trade again. Has had nearly 16 years' experience as bookkeeper, correspondent, time keeper, shipper and looking after help. Familiar with the tin, brass and copper, sheet metal goods, brass goods and hardware branches. Is considered a good double entry bookkeeper and fair correspondent. Also has had about 4 years' experience selling goods throughout the United States, Canada and Great Britain. Will accept a position at very low salary first year providing that if thorough satisfaction is given, a permanent position at fair salary is promised. Can commence an engagement on the 10th of June, or any succeeding month. Locality is no object, will go anywhere in the United States. Advertiser is 28 years of age and is married; can furnish first-class references. Address W. A. LANGFORD, office of *The Iron Age*, 59 Dearborn Street, Chicago, Ill.

BY A MEMBER of the American Society of Mechanical Engineers, as Works Manager or Chief Engineer. 26 years' experience as machinist, draftsman, chief engineer and manager in boilers, engines, gearing, buildings, steel works and general engineering; has successfully designed and operated intricate special machinery; has a good knowledge of electrical power, especially as applied to steel works. Can estimate and contract for, build and start mills from the ground up. Salary moderate. Address "ENGINEER," office of *The Iron Age*, Room 509, Hamilton Building, Pittsburgh, Pa.

BY AN ANALYTICAL Chemist who has had ten years' experience in the manufacture of iron and steel, in all of its branches, both acid and basic. References and testimonials of the highest order will be furnished. Address "A CHEMIST," Box 512, office of *The Iron Age*, 96-102 Reade St., N. Y.

TIN PLATES.—To steel manufacturers and others; the advertiser, many years' manager of extensive tin-plate works in South Wales, about to settle in United States, will be glad to negotiate with intending manufacturers of tin-plates or to convert imported black plates into tin or terne plates. Communications to await a rival to "TIN PLATES," Box 512, office of *The Iron Age*, 96-102 Reade St., New York.

SUPERINTENDENT.—A member of American Society of Mechanical Engineers, who has had 20 years' practical experience as follows: machinist, head draughtsman, erector of steam plants, engineering, estimating, contracting and office work and superintendent of large engine works, is available for responsible position as superintendent of manufacturing establishment. Address "MULLACH" Box 33, office of *The Iron Age*, 96-102 Reade Street, New York.

BY A THOROUGHLY competent hardware man, a position as traveling salesman; have had 15 years' experience in shelf and heavy hardware; willing to work in any territory; A1 references as to ability, sobriety and energy. Address LOCK BOX 34, office of *The Iron Age*, 96-102 Reade St., New York.

A BRICKLAYER desires a situation to take charge of a Rolling Mill. Has had several years' experience in building and re-building regenerative furnaces and puddling furnaces, and also understands all general repairs around a rolling mill. Reference can be had from past employer. Address J. KEENAN, 5219 Stanton Avenue, 18th Ward, Pittsburgh, Pa.

SALESMAN wants line of spoons, pocket cutlery or any other good selling line for hardware trade on commission; parties desiring to be represented in the States of Michigan and Wisconsin; good reference. Address "HARDWARE," 193 Michigan Avenue, Detroit, Mich.

BY A MECHANICAL engineer, position as manager or assistant; would travel some; has had practical training and during last fifteen years occupied positions as designer, superintendent, traveler and manager. Address "P. R. I.," box 1044, Providence, R. I.

AN ACTIVE BUSINESS MAN, with considerable experience in the management of iron and coal companies, desires a position of trust and responsibility; is competent to fill an executive or other office. Address "W. W. W.," office of *The Iron Age*, 96-102 Reade St., N. Y.

A THOROUGHLY competent man, 20 years' business experience in New York and Brooklyn, desires a position as collector for some reliable house. Address "COLLECTOR," office of *The Iron Age*, 96-102 Reade Street, N. Y.

HELP WANTED.

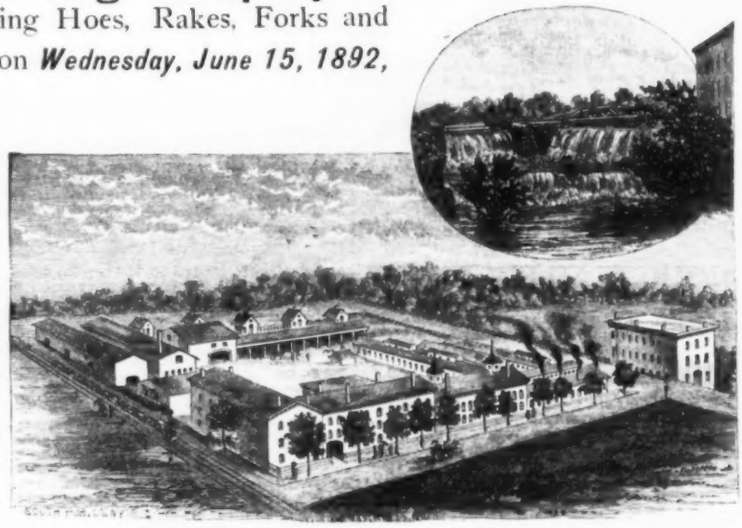
BUFFALO PUNCH AND SHEAR.

FOR SALE AT AUCTION.

The Auburn Manufacturing Company's Plant located at Auburn, N. Y., fully equipped for manufacturing Hoes, Rakes, Forks and Scythes, will be sold at public auction ***Wednesday, June 15, 1892,*** at two o'clock, on the premises.



The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Accurate map of the premises will be furnished on application.

POULTRY NETTING.

AMERICAN TRADE G&B MARK. SUPERLATIVE.

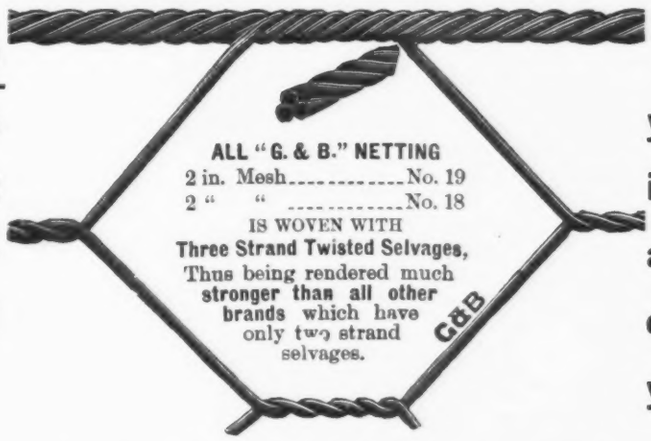
Don't be deceived by announcements from other houses about getting prompt shipment of Poultry Netting. Our new factory and warehouse built last fall gave us the storage capacity and we have the goods. From either of our warehouses in

NEW YORK, CHICAGO, or GEORGETOWN, CONN.,

We Guarantee Immediate Shipment of all Regular Sizes.

Don't waste time and lose sales by "trying" elsewhere. Send us your orders and get the best quality Netting, full length, width, weight and reliable mesh, without waiting and without an advance in price.

☞ **Do not be deceived when informed that there is no netting to be had promptly.** ☜



☞ **To insure yourself against inferior Netting and annoying delays, send us your orders.**

We carry a complete assortment of Netting of all meshes from ¾ to 3 inch.
We also make two leading kinds of

STEEL WIRE FENCING,

"Cottage" Lawn and Garden Fencing for residence property, and the World's Web Fencing for farms, railroads, cemeteries, &c. GATES AND FENCING TOOLS.

Ours is the only complete line of this class of goods made by one concern in the country.

—SOLE MANUFACTURERS OF—

Pearl Wire Cloth, for Door and Window Screens, Steel Wire, Metallic Finish, Rust Proof.

At the extra cost of a few cents per window or door it is CHEAPER, considering its advantages, than painted cloth, as the trouble and expense of frequent repainting or renewing the wire is avoided.

Pearl cloth presents at first a lustrous appearance similar to silver, which will, after exposure in the atmosphere, turn to a handsome shade of gray, rendering it almost invisible.

Catalogues and Quotations on Application.

LePage's Liquid Glue

MENDS EVERYTHING.

Every Dealer Should Carry it in Stock.

It is the Standard of Excellence and the Strongest Adhesive known.

Liberal advertising and legitimate methods have created a demand for

LEPAGE'S GLUE,

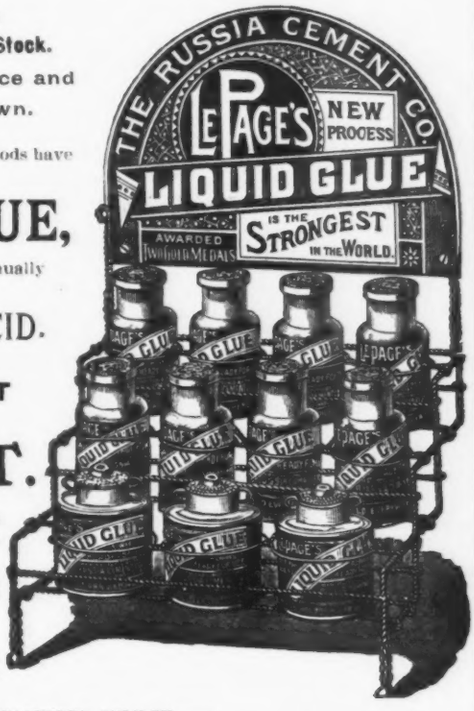
which its unequaled merit is continually increasing.

IT CONTAINS NO ACID.

IT SELLS FASTEST

AND IT IS

THE BEST.



Order a sample assortment and secure free a handsome Display Stand for your counter.

Beware of Infringements and Accept no Substitutes.

☞ You have no time to waste in fruitless efforts to convince your customers that something else is as good as "Le Page's."

—MANUFACTURED ONLY BY—

No More Leaky Sky Lights

Or Slipping and Breaking of Glass in Green Houses or Farmer's Sash. You can save money and glass by using the

PATENT GLAZIER Twin Points.

THESE POINTS are far superior to the old mode of setting glass, as they will hold each pane in place, preventing the glass from slipping and causing binding and cracking. Each box contains 500 rights and 500 lefts. We also make a tool for driving the points. **Price, 35c a Box. Driver, 15c. A Liberal Discount to the Trade.**

These points are kept by all prominent Hardware, Paint, Oil, Seedsmen, and Florist Supply Stores in the country. If you do not find them, send postal for a free sample, or send 60 cents for 1 package and 1 driver by mail, post paid to any part of the U. S.

FOR DEALERS!

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

FACTORY AT
BRIDGEPORT, CONN.

Cronk's Patent Wire Cutter AND Bender.

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is especially adapted to farmers' use in building Wire Fence, &c.

Our reasons for claiming that we have the best Pliers in the market are:

FIRST.—We use the best Tool Steel and they are nicely finished.

SECOND.—We combine both Flat and Round-Nosed Pliers in one; the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barbed Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken.

By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

C. B. P.

What we claim for this plier it that it is made from best quality tool steel and is made heavier and stronger than any plier of its kind in the market and the finish is first-class. Also they are made so the jaws are parallel when used on wire from 9 to 14 gauge and will hold the wire solid.

"American Toilet" Hair Clipper

No. 2

WITH INTERCHANGEABLE PLATES.

JOS. F. McCOY CO.,
26 Warren St., - - New York.

SURPLESS, DUNN & ALDER,

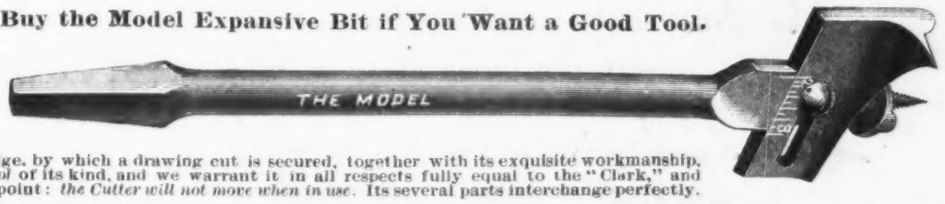
— INCORPORATED, —

Nos. 97 Chambers and 79 Reade Streets, New York.

Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.

BURGESS GEM GASOLINE SOLDERING FURNACES.

All are Equipped with the Slotted Cast Iron Burner.
Every Furnace Guaranteed to give Satisfaction.

See What the Jobbers Say.

PHILADELPHIA, PA.

GENTLEMEN: We are in receipt of your letter of the 13th inst., and carefully note your remarks. THE ART OF SELLING.

By F. B. GODDARD. 12mo. Flexible Cloth, 50 Cents.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse, and tells how he masters men: but beyond this, the work embraces much information which will be instructive and useful to all classes of business men. Besides suggestions to buyers, it contains chapters on "Changes in Business Conditions and Methods," "Salesmen's Compensation," "Retail Merchants and Salesmen," "Saleswomen," "How to Read Character," with a collection of clearly and tersely put important Legal Principles and Decisions Governing Sales. Sent, post-paid, upon receipt of price, by

The Laws of Business,

For all the States and Territories of the Union.

By THEOPHILUS PARSONS, LL. D.

864 pages, 6 x 9 inches; full leather.....$4.50

Contains information of the highest value to business men, treating fully and clearly of contracts, sales, agency, agreements and assessments, stoppage and transitu, considerations, limitations, notes and bills of exchange, interest and usury. Embraces chapters on commercial law in general, bonds, assignments, guaranty, the statute of frauds, receipts and releases, payment, partnership, arbitration, carriage of goods and passengers by railroad and other carriers, hotel keepers, patents, copyrights, statute of limitations, the law of place, shipping, marine, fire and life insurance, deeds of land, mortgages of land, mortgages of personal property, leases, liens of mechanics and material men, the recovery of debts, wills, executors and administrators, guardians and the legal rights of farmers, &c. Also abstracts of the laws of all the States and Territories relating to the collection of debts, usury, the execution and acknowledgment of deeds, witness required to wills, holidays and days of grace, mechanics' liens, chattel mortgages, and nearly 300 approved forms which have been tested in courts.

Payne's Business Educator.

600 pages, bound in cloth, $2.

Every business man should have some knowledge of the State and general laws of the country, especially those affecting the collection of accounts, rates of interest, &c. He should be able to draw up many of the simpler papers, such as leases, contracts, &c. He should be familiar with the different forms of legal papers used in business, and, above all, he should be an easy and pleasant letter-writer. All these points are carefully treated in Payne's Business Educator.

Among the subjects specially discussed are:

Commercial Correspondence.—Over 150 models of letters are given, covering every phase of business correspondence.

Legal Forms Used in Business.—Articles of copartnership; notice of dissolution, form of assignment; short form of deed; bill of sale; power of attorney; lease; surety; will; notes—promissory, negotiable, non-negotiable and demand; exchange—inland and foreign; acceptance; due bill; receipt; bills of lading; private cost marks, &c.

Dictionary of Mercantile Terms.—Giving a full and clear explanation of terms used in business.

Titles.—Official, military, scholastic, naval and professional titles used in the United States

Useful Hints for Measuring Land.

Legal Rates of Interest, foreign coin weights and measures compared with American standards.

Rules for Punctuation.

Rules of Order for deliberative assemblies and debating societies.

Interest Tables, and tables of weights and measures, &c.

How to Use a Typewriter, with lessons for practice.

Exercise in Practical Penmanship.

Laws and Forms.—An epitome of the laws of the United States and of the different States of the Union, which will be found invaluable to those who are forced to appeal to the law, as well as to that large class who wish to avoid it. The whole is alphabetically arranged, so as to make reference easy. Forms are given for a great number of legal papers, &c.

Dictionary of synonyms; marks of account; list of abbreviations; French, Spanish, Latin and Italian words and phrases, &c

Making in all the most complete self-educator published.

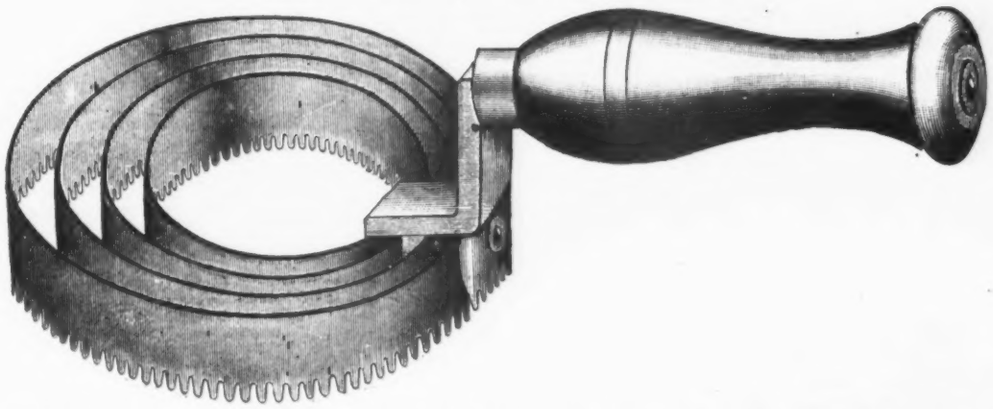
SPRING CURRY COMB.

Endorsed by the civilized world as "The only perfect curry comb."
Worth many times its cost.



Its leading position is impregnable; it positively has no weak points, either practically, mechanically or legally. Patented in the U. S., July 16, 1889; also in ten foreign countries. Endorsed and used by the United States Army. Sold by leading jobbers; bought on sight by nearly every one using curry combs, because it is the only one made from a clock spring, combining strength with flexibility, and a touch as gentle as a woman's hand, but say! how it gets there!!

SPRING CURRY COMB CO.

THE IMPROVED PROCESS GLUE CO.,

Purchasers of the Glue Business of The Le Page Co.,

Gloucester, Mass. **New York City.**

JOHN J. TOWER, of Tower & Lyon, New York, President.

C. E. HUBBARD, Boston Treasurer.

The Improved Process Glue Co., having purchased from The Le Page Co., all its patent rights, formulas, glue stock and material, and having secured control of its glue factory, machinery, etc., will continue the manufacture of Liquid Fish Glues in all the various grades heretofore offered by The Le Page Co., under the personal supervision of Mr. WM. N. LE PAGE, and under the Improved Process Patent issued October 26th, 1886. As is well known, the Improved Process by which these goods are made assures the highest strength with thorough uniformity as to quality, consistency and color. We call special attention to our **Improved Process Family Glues,** neatly put up for family use, and also to our **Improved Process Carriage Glue for wood-work,** put up in every variety of size and style. This Carriage Glue is undoubtedly the strongest and best glue for every variety of cabinet and wood-work, and has earned its high reputation. All our canned glues are put up with the **new patent cap** or fastening, patented January 22d, 1889, which has proved a great convenience and success. Our glues will be readily identified by our characteristic **Blue Label,** and the Trade-Mark shown at the head of this page. Send for Price-List. Messrs. TOWER & LYON will have charge of our New York office. Very truly yours,

SIDNEY SHEPARD & CO.,

BUFFALO, N. Y.

A DIFFICULT PROCESS MADE EASY

THE BUFFALO STEAM EGG POACHER

POACHES EGGS BY STEAM.

WHEN READY FOR THE TABLE THE EGGS ARE OF UNIFORM SHAPE AND INVITING APPEARANCE.

MAY BE TRANSFERRED TO TOAST OR PLATE WITHOUT DANGER OF BREAKING.

Mrs. Gen. Lew Wallace Says:

"Lifting the cover discloses the delicate morsel, the yolk gleaming in soft color through a cloud of transparent whiteness. Have ready the buttered toast; the eggs slip each from its own little cup easily as from the parent shell: a dish fit to set before a king. Easy to have a delicious luncheon with the aid of the bright utensil which makes cooking so easy, it seems to act with its own intelligence. In the sea of trouble awaiting the young housekeeper pushing out into unknown depths, the Buffalo Steam Egg Poacher will be found a sure thing to rest upon when all else fails."

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

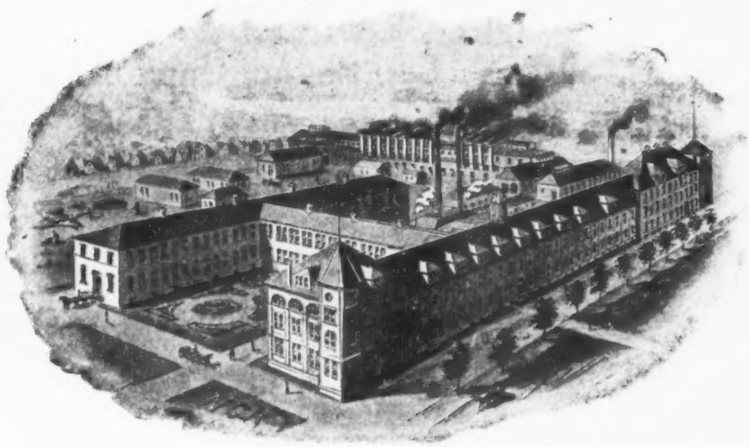
Devoted exclusively to the manufacture of

Cash and Autographic Registers.



THE NATIONAL FACTORY.

Capital invested. $1,000,000.00

81 Patents.

Employes in factory, 857

A complete Register is made every 12 minutes.

We make 34 different kinds of Registers.

The No. 33 Is operated by writing the sale through an opening on a continuous strip of paper. This Register is provided with

a Combination Lock. While the cash drawer is open, the paper cannot be moved; making it necessary to close the drawer after each sale.

We guarantee this Register to be more durable and more effective than any other Autographic Register of this class, and all we ask for it is **$20.**

The No. 69 Is operated by small steel balls, which are put into a large hopper on the inside of the Register. The pressing of a key allows the ball to drop down into a V shaped conduit, which is arranged in such a manner that the proprietor can see at a glance the amount that has been registered during the day.

This Register is guaranteed to be equal to any similar Register of its class, and all we ask for it is **$25.**

Before ordering any Autographic Register, see the NATIONAL.

We Make all Kinds of Registers

AT THE FOLLOWING PRICES:

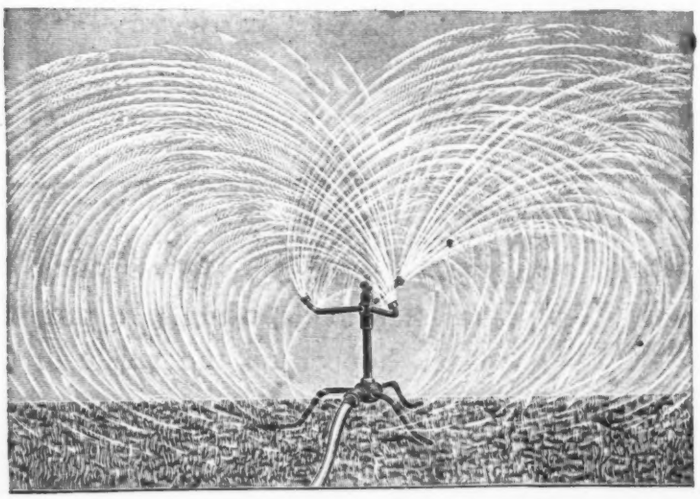
$15, $20, $25, $30, $50, $65, $75, $100, $125, $150, $175, $200, $225 AND $250.

40,000 NATIONAL REGISTERS IN USE.

TO USERS OF OTHER MAKES OF CASH REGISTERS: If you have an old Register which you desire to exchange for a new one, we will make you a *liberal allowance* for it.

THE "CALIFORNIA" LAWN SPRINKLER.

The "California," which is still the leading Sprinkler for satisfactory service and durability, is now finished with Nickel Plated Ball Tips on Arms, and Nickel Plated Cap on Stand, making it very attractive. It will wet a space evenly from 20 to 60 feet in diameter, according to the pressure.



PRICES:

California,	$30.00	Per	Doz.

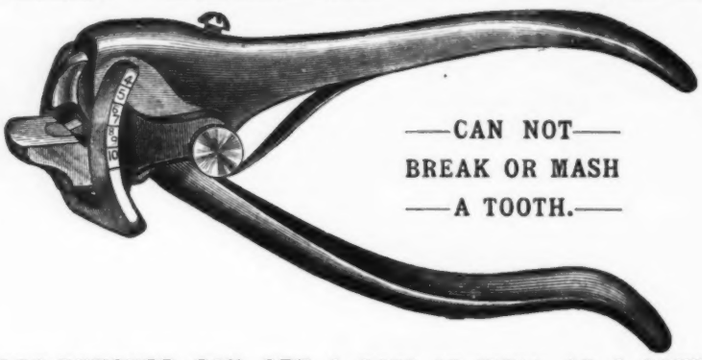
LLOYD ACME SAW SET.

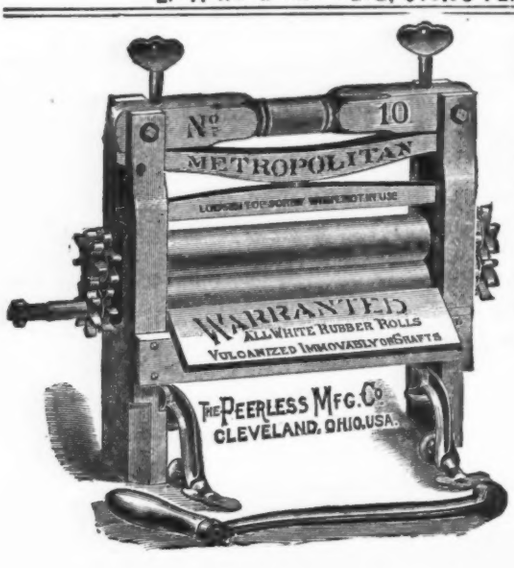


—CAN NOT—
BREAK OR MASH
—A TOOTH.—

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents marking the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.



METROPOLITAN.

This differs from our other wood frame wringers of medium price in having malleable iron swinging clamps of a strong and improved pattern, that swing under the wringer, and a folding apron, allowing the machine to be closely packed for shipment, and it is preferred by many because of the small space it occupies in storage. It is a handsome, well proportioned machine, of hard maple frame, the wood being selected, free from defects and blemishes. Two top thumbscrews, metal journal boxes and oil cups combined, double gears, etc.

Furnished in natural wood or cherry stain without extra charge.

ELECTRICITY AND MAGNETISM. A short text-book, with 165 explanatory engravings and diagrams. 240 pages, 12mo. By T. DUNMAN. **40 Cents** Sent, prepaid, on receipt of price by DAVID WILLIAMS, Publisher and Book seller, 96-102 Reade Street, New York.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgar's Patent Stove Shovels, mailed on application.

THE EDGAR NUTMEG GRATER

POSITIVELY THE ONLY GOOD NUTMEG GRATER EVER MADE.

It is the old-fashioned Nutmeg Grater, with a carrier for HOLDING the Nutmeg so attached as to move freely, forward and back, and from side to side, preventing the grated Nutmeg adhering to the surface of the Grater and bringing every part of its surface into use. Using this Grater, the Nutmeg can be grated to the merest shell without injury to the fingers or nails or dropping the Nutmeg. Its simplicity commends it. It is durable and economical and retails for 20 and 25 cents each. Liberal discount to the trade. Ask your jobber for the EDGAR NUTMEG GRATER.

The EDGAR NUTMEG GRATER

EDGAR MFG. CO.,
Reading, Mass.

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

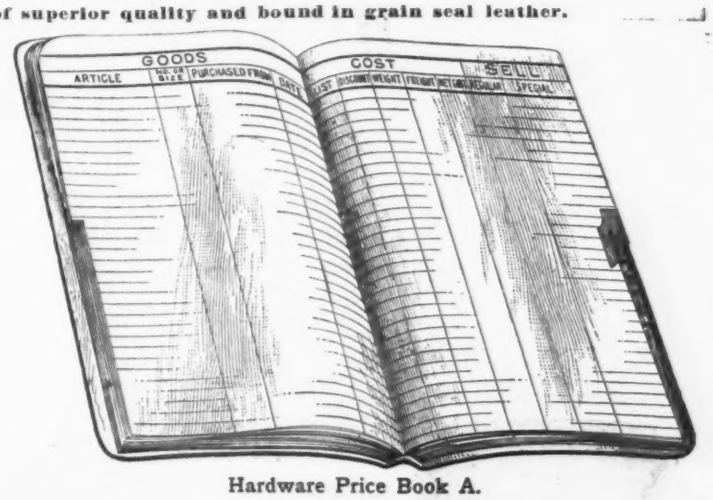
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

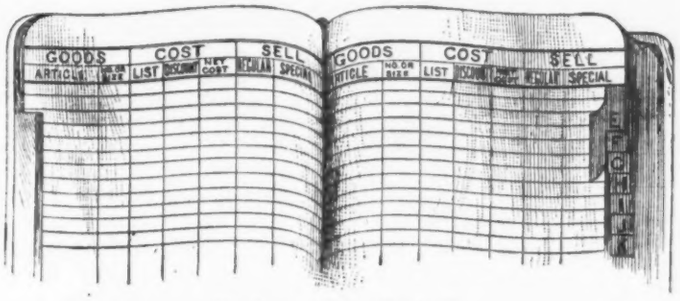
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

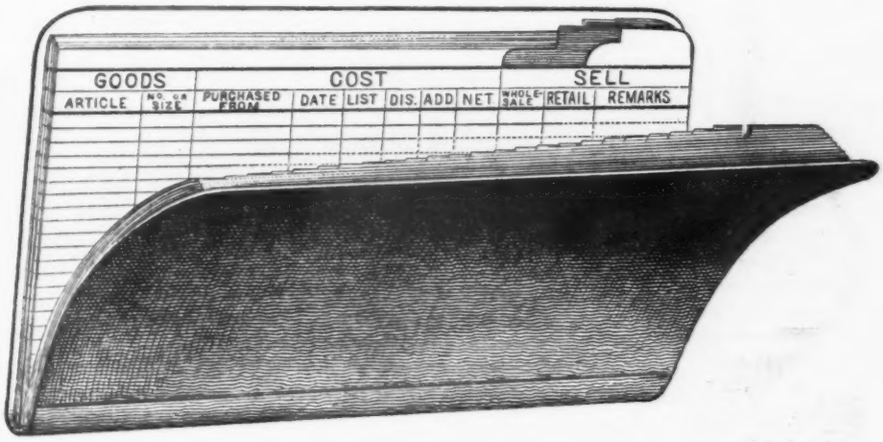
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

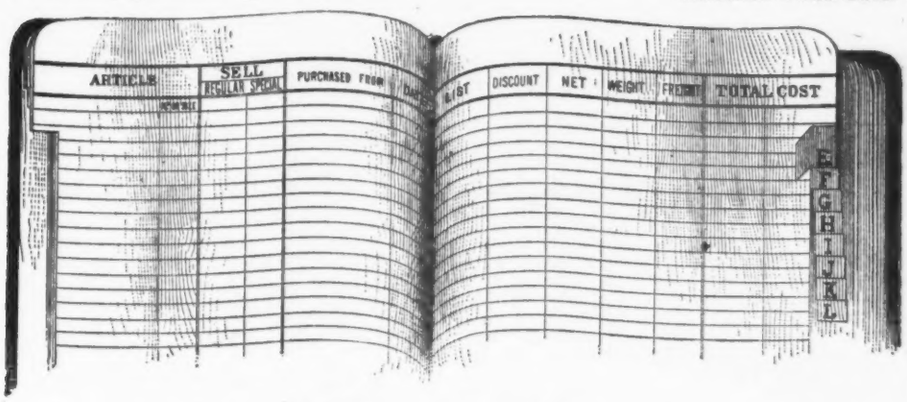
Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, it number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction.

Size 5¼ x 8 in.: grain seal leather.

FOUR EDITIONS.

D, 200 pages,	$2.00
D F, 200 pages, with flap,	2.50
D 2, 400 pages.	$3.00
D F 2, 400 pages, with flap,	3.50

Sent, post-paid, on receipt of price by **DAVID WILLIAMS Publisher, 96-102 Reade St., New York.**

COMING RIGHT ALONG.

OFFICE OF
K. FITCH & CO.,
Hardware, Stoves, Tinware, etc.,
Kansas City, Mo., Jan. 15. '92.

The Sun Stamping Co., Kalamazoo, Mich.

GENTLEMEN:—Yours of the 11th, rec'd and contents noted. In reply, say, that The Morgan Broilers we sold have given so far as we have learned, good satisfaction—*not any complaint.* We have been using one in our house for more than a year, and we could not be induced to part with it for any reasonable consideration. We find it **DOES** the work as represented, when instructions are followed. It **DOES** make meat juicy and tender, and for the purposes for which it is intended, we believe it to be the most economical piece of furniture we have in the house. * * *

Very Respectfully,
K. FITCH & CO.

Perhaps there is a gentle hint here for other dealers. The "moral" would be, order a sample lot and be convinced. Unless there is gain in the transaction for you, there is none for us. Once a customer—"always."

The Morgan specialties in tin and sheet metal are manufactured solely by

THE SUN STAMPING CO., - - KALAMAZOO, MICH.,
430 to 460 N. PITCHER ST.

THE RAVEN STOVE POLISH

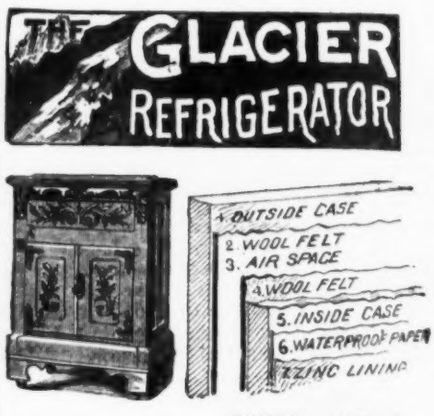
Gives the results so long wished by stove manufacturers—namely, a **Jet Black Gloss** without the silver lustre that has always prevailed. We own our Graphite (Plumbago mine in Sonora, Mexico. The celebrated Plombagina mine. Its product is a peculiarly black Graphite with high chemical purity. The graphite commonly used is lead color. It makes our polishes **the best.**

All the large stove manufacturers are now using it.¶

DEALERS: Make your sample stoves attractive by using Raven Paste Polish, and sell our domestic packages to your trade.

Remember that a stove well blacked is half sold. Our claim is—the Cleanest, Blackest, and Glossiest in the world. Put up in Pails, Bottles, Boxes and Cakes. Correspondence invited.

The Raven Stove Polish Co.,
59 and 61 LAKE ST., CHICAGO.



Hardwood, Antique Finish, Elegant Designs, Real Bronze Trimmings, Rich Hand Carvings, Solid Iron Shelves.

SEVEN WALLS for insulation, as shown in this illustration.

The New Patent Air-tight Horse Shoe Lock, as shown in this cut. Patent Arched Center, False Bottom for Doubly Cooling the Air and Numerous other Improvements which make the GLACIER as far ahead of other Refrigerators as the electric light is ahead of the candle.

THE NORWICH LOCK MFG. CO.,
OF ROANOKE, VA.

Roanoke Va., March 1, 1892.

Our new catalogue and price-list is now ready for distribution. It is a book of 404 pages, 10½ x 12½, printed on heavy paper, and contains illustrations and descriptions of a complete line of locks, knobs, keys, escutcheons, bell pulls, padlocks and builders' hardware.

A copy will be furnished without charge to any house whose purchases from us during the year 1891 amounted to $100 net, and will be sent with the first goods ordered, or by express, not prepaid. To others we make a charge of $5.00 per copy, which amount will be deducted from account as soon as same amounts to $50.00 net. The book is too large to be sent by mail.

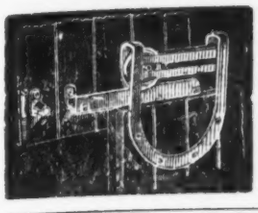
THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.



The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. LANE'S PATENT TRACK is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by **LANE BROS.,** Poughkeepsie, N. Y.

SCALES OF ALL KINDS.

Bemis & Call Hardware & Tool Co.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable: that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new. For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Soringfield, Mass., U. S. A.

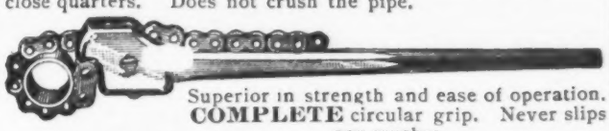
TRIMO PIPE WRENCH,

Forged Steel.

All parts Interchangeable.

Grips firmly without loss of motion, in close quarters. Releases its hold readily. Causes no trouble Does not crush the pipe.

TRIMO CHAIN PIPE WRENCH.



Superior in strength and ease of operation. COMPLETE circular grip. Never slips nor crushes.

Here is something new. Have you seen it?

BONNETTE'S ARC LAWN SPRINKLER.

Patented Oct. 20, 1891.

This Sprinkler was invented by a **DRY GOODS MAN** in Bay City, Mich. He noticed that when his neighbors set out their sprinklers, they wet all over the sidewalks as well as the lawns.

On going back and forth to the store he was often forced into the middle of the street to avoid a shower from the sprinkler. Ladies often ruined their dresses from this source.

It set him to thinking. Sprinklers should not be a nuisance. Could one be made that would sprinkle, if desired, in a half circle? He thought so. He commenced to work and experiment.

That was five years ago. It required lots of patience and there were many disappointments, but to-day,

NOTE THE RESULT.

Five good reasons why this is the best sprinkler to buy:

1. It will not clog up.
2. It will sprinkle a circle from 4 to 40 feet in diameter, according to the water pressure.
3. It distributes the water equally over the entire surface, wasting none around the base of the machine.
4. **This is the only machine ever invented that will sprinkle water in a half-circle,** thus preventing the wetting of walks while thoroughly sprinkling the lawn.
5. It can be changed from a circle to a half-circle, or *vice versa*, in five seconds.

We now claim to have the only perfect sprinkler in existence. It is simple, will not wear out nor clog up. Is well made and handsomely nickled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other. Prices and samples sent upon application.

BONNETTE ARC LAWN SPRINKLER CO., Bay City, Michigan.

"RIVAL"

PATENT

Lawn Sprinkler.

Cheapest and Best in Use.

The Spray from it covers upward of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

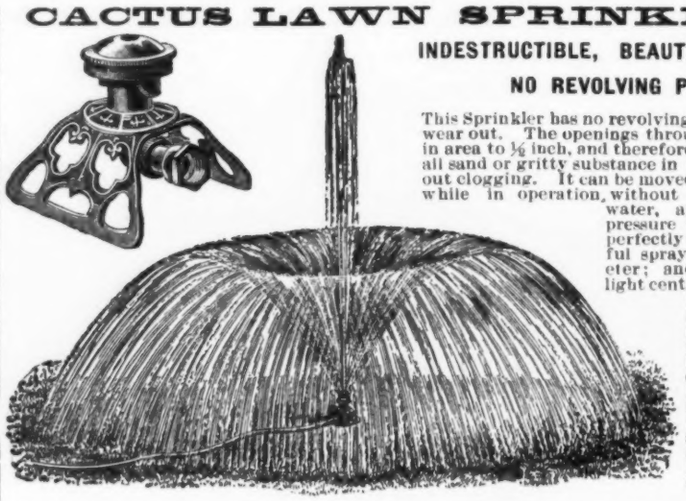
CACTUS LAWN SPRINKLER.

INDESTRUCTIBLE, BEAUTIFUL, CHEAP.

NO REVOLVING PARTS.



This Sprinkler has no revolving parts to leak or wear out. The openings throughout are equal in area to ¼ inch, and therefore will pass freely all sand or gritty substance in the water without clogging. It can be moved about the lawn while in operation, without turning off the water, and with a low pressure will distribute a perfectly even and beautiful spray 30 feet in diameter; and in addition a light center fountain spray 15 to 18 feet in height. It is recommended as the most durable, beautiful and cheapest Sprinkler in the market and is guaranteed to give entire satisfaction to any purchaser. For sale by all dealers.

Bradley Hammers

2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.

FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

HULBERT BROS. & CO.

Opposite Fifth Ave. Hotel, Formerly MERWIN, HULBERT & CO.,

CONTROLLABLE EFFICIENT AND DURABLE

SINGLE AND DOUBLE STANDARD

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

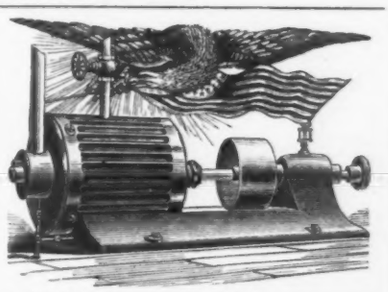
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

Brown's Patent Seamless Drawn Copper House Boilers.

CANNOT COLLAPSE. WILL NOT LEAK.

Ordinary weight boiler tested to 200 lbs., extra heavy to 300 lbs. pressure per square inch; but not recommended for a service of more than half the test. Send for circular on this subject. Made of two seamless drawn copper shells. Handsomest, best and strongest in the market. Send for circular giving instructions for prevention of accidents. Also proprietors of the Brown & Bros. Tubing and Boiler Works and the Brown & Bros. Brass and Copper Rolling Mills.

INCREASED SALES

Show that our customers appreciate the value of improvements made in

JENKINS PACKING.

It can be used again and again. Does not ROT or BURN out. Have you tried it recently? If not, DO SO! Look for "Trade-Mark."

JENKINS BROS.,
